A page-turning novel that is also an exploration of the great philosophical concepts of Western thought, Jostein Gaarder's *Sophie's World* has fired the imagination of readers all over the world, with more than twenty million copies in print. One day fourteen-year-old Sophie Amundsen comes home from school to find in her mailbox two notes, with one question on each: "Who are you?" and "Where does the world come from?" From that irresistible beginning, Sophie becomes obsessed with questions that take her far beyond what she knows of her Norwegian village. Through those letters, she enrolls in a kind of correspondence course, covering Socrates to Sartre, with a mysterious philosopher, while receiving letters addressed to another girl. Who is Hilde? And why does her mail keep turning up? To unravel this riddle, Sophie must use the philosophy she is learning—but the truth turns out to be far more complicated than she could have imagined.

The Woggle-Bug, a creation from the mind of L. Frank Baum, who also penned the Wizard of Oz series, captivated the United States in the early 1900s. The comical character was a multimedia sensation at the time, appearing in everything from comic strips to books to a live stage show. Though some of the ethnic humor in the book may be somewhat jarring to modern readers, The

Woggle-Bug Book remains a captivating read more than 100 years after its initial release.

This volume engages new films and modes of scholarly research in Arab cinema, and older, often neglected films and critical topics, while theorizing their structural relationship to contemporary developments in the Arab world. The volume considers the relationship of Arab cinema to transnational film production, distribution, and exhibition, in turn recontextualizing the works of acknowledged as well as new directorial figures, and

country-specific phenomena. New documentary and experimental practices are referenced and critiqued, while commercial cinema is covered both as an industrial product and as one of several instances of contestation. The volume thus showcases the breadth and depth of Arab film culture and its multilayered connections to local conditions, regional affiliations, and the tendencies and aesthetics of global cinema.
