It presents and discusses the	current conditions with respect to outcome indicators such as population, education, economy, poverty, unemployment, consumption level, availability of bank loans, infrastructure and civic facilities and representation in government employment. By placing facts in perspective, it also discusses community-specific issues such as use of Urdu, madrasa education and Waqf. In the
---	---	---

post-Sachar era, governments started many schemes to improve the condition of Muslims whose reach and impact is assessed with the help of latest data. It presents the social structure of Muslims, presence of OBCs and Dalits and suggests a practical pattern for reservation. It follows up the process of implementation of recommendations of these reports and highlights how

the governments adopted tokenism, attempted to implement minor recommendations and shied away from major ones. The volume highlights the lopsided attitude of the previous UPA governments, hostile attitude of the present NDA regime and accelerated marginalization of Muslims in today's scenario due to open discrimination, mob-violence, lynching and hate crimes in the name of

various communal issues.
