To err is human. Yet most of us go through life assuming (and sometimes insisting) that we are right about nearly everything, from the origins of the universe to how to load the dishwasher. In *Being Wrong*, journalist Kathryn Schulz explores why we find it so gratifying to be right and so maddening to be mistaken. Drawing on thinkers as varied as Augustine, Darwin, Freud, Gertrude Stein, Alan Greenspan, and Groucho Marx, she shows that error is both a given and a gift—one that can transform our worldviews, our relationships, and ourselves.

Transatlantic Memories of Slavery Harper Collins

Nat Turner, born into slavery October 2, 1800, on a Southampton County plantation, became a preacher who stated in his confession he'd been chosen by God to lead slaves from bondage. On August 21, 1831, he led a freedom movement that resulted in the participation of nearly 100 slaves and free blacks throughout the state. This crusade concluded with the ultimate punishment of nearly 60 slave owners, their wives and children. He eluded capture for nearly six weeks was eventually imprisoned and later hanged. The incident frightened the slave owners so much that in a desperate attempt to hold on to their unjust power they enacted harsher laws against slaves and free black that exhilarated the emancipation movement. Born October 2, 1800 in Southampton County, Virginia. Nat is born on the Virginia plantation of Benjamin Turner. At the age of 3 Nat is witnessed by his parents prophesying about past events. Completely amazed they realize that their son was born for a higher purpose. In addition to being a young prophet Benjamin Turner and the entire neighborhood is astonished and shocked to learn of Nat's mysterious reading and writing comprehension at age 5. At age 10, Nat's father escapes slavery vowing to return for his wife and child. By age 12 Nat encounters a gang of 4 white youth who pummels him helplessly with snowballs. A few weeks later Nat runs into that same gang. This time he revenges the defeat by pelting his attackers with rocks. As a teenager Nat leaves the plantation without permission. An overseer immediately whips him upon his return. Nat sets a trap for the overseer, which results in a horse accident. The overseer legs are crushed. He is unable to return to work. Nat becomes fed up with being enslaved. He runs away. After being free for 30 days, Nat receives a vision from God telling him to return to his earthly master. Nat also see images of the future civil war to come. Nat is assured by the Holy Spirit that his special purpose would help to bring about change. Still thinking about himself Nat argues with the spirit. The spirit chastises Nat. Nat decides to return. After Nat returns some slave dislikes him. Others think he is nuts for returning. On his return, a young beautiful slave girl named Cherry questions Nat. God rewards Nat for his loyalty and he marries Cherry. Cherry is a strong black woman who loves Nat and stands behind everything he does. It is Cherry who Nat shares his innermost thoughts and visions with. They have one child, Charlotte whom Nat loves very much. He does his best to be a good father. Because he returned on his own,

Nat is allowed to travel as much as he wants without a pass. In addition he is allowed to preach at different plantations. He is a fiery preacher and leader in his Southampton County neighborhood. His reputation expands and Nat is one of the most sought after black preachers in the south. Nat's slave owners trust him very much. Nat's first signal is an eclipse of the Sun in 1831. It is revealed to Nat that he would lead an emancipation movement among his people. It is at this time that he realizes he must rise up and stand for his people. The emancipation movement begins officially on August 21, 1831, when he and six other former slaves, now freedom fighters punish the Travis family killing all five inhabitants, managing to secure arms and horses. This is when it all hits the fan. Nat and the freedom fighters travel from plantation to plantation punishing the wicked slave owners and their families with death through various means. They encounter many obstacles. They meet many interesting characters both slaves and non-slaves. In the end 55 slave owners and their families are eliminated. Over 200 innocent black are killed by barbaric revengeful mobs. It takes the United States Calvary, hundreds of militia and a force of nearly three thousand soldiers to stop this small group of determined revolutionaries.

NATIONAL BESTSELLER • A NEW YORK TIMES NOTABLE BOOK “This scrupulously elegant account of the creation of what four centuries of history has confirmed is the finest English-language work of all time, is entirely true to its subject: Adam Nicolson’s lapidary prose is masterly, his measured account both as readable as the curious demand and as dignified as the story deserves.” — Simon Winchester, author of *Krakatoa In God's Secretaries*, Adam Nicolson gives a fascinating and dramatic account of the era of the King James Bible and its translation, immersing us in an age whose greatest monument is not a painting or a building but a book. A network of complex currents flowed across Jacobean England. This was the England of Shakespeare, Jonson, and Bacon; the era of the Gunpowder Plot and the worst outbreak of the plague. Jacobean England was both more godly and less godly than the country had ever been, and the entire culture was drawn taut between these polarities. This was the world that created the King James Bible. It is the greatest work of English prose ever written, and it is no coincidence that the translation was made at the moment “Englishness,” specifically the English language itself, had come into its first passionate maturity. The English of Jacobean England has a more encompassing idea of its own scope than any form of the language before or since. It drips with potency and sensitivity. The age, with all its conflicts, explains the book. This P.S. edition features an extra 16 pages of insights into the book, including author interviews, recommended reading, and more.

A bold new interpretation of Nat Turner and the slave rebellion that stunned the American South In 1831 Virginia, Nat Turner led a band of Southampton County slaves in a rebellion that killed fifty-five whites, mostly women and children. After more than two months in hiding, Turner was captured, and quickly convicted and executed. In *The Matter of Nat Turner* penetrates the historical caricature of Turner as befuddled mystic and self-styled Baptist preacher to recover the haunting persona of this

legendary American slave rebel, telling of his self-discovery and the dawning of his Christian faith, of an impossible task given to him by God, and of redemptive violence and profane retribution. Much about Turner remains unknown. His extraordinary account of his life and rebellion, given in chains as he awaited trial in jail, was written down by an opportunistic white attorney and sold as a pamphlet to cash in on Turner's notoriety. But the enigmatic rebel leader had an immediate and broad impact on the American South, and his rebellion remains one of the most momentous episodes in American history. Christopher Tomlins provides a luminous account of Turner's intellectual development, religious cosmology, and motivations, and offers an original and incisive analysis of the Turner Rebellion itself and its impact on Virginia politics. Tomlins also undertakes a deeply critical examination of William Styron's 1967 novel, *The Confessions of Nat Turner*, which restored Turner to the American consciousness in the era of civil rights, black power, and urban riots. A speculative history that recovers Turner from the few shards of evidence we have about his life, *In the Matter of Nat Turner* is also a unique speculation about the meaning and uses of history itself.

What would a modern-day prophet say on the day he returns home from prison? "The Prophet Returns" tackles this question and honors the influential legacy of Kahlil Gibran. Once written off as a writer of "meaningless mysticism," Gibran refused to limit his work to a single tradition, and brought together the Judeo-Christian and Islamic insights of his nation and family in his writings. With the exception of the Bible and Koran, Gibran's 1923 masterpiece "The Prophet" reportedly outsold all other books in the 20th century. Working in prisons since the 1980's, Bryonn Bain was wrongfully imprisoned while studying law at Harvard. A Brooklyn poet, prison activist and Nuyorican Grand Slam poetry champion, Bain has performed and lectured on hip hop, spoken word and the prison crisis at more than 100 campuses and correctional facilities nationwide. Edited by Tony award winner Suheir Hammad ("Def Poetry Jam on Broadway"), "The Prophet Returns" shares lessons learned from countless prophetic voices behind bars in this hip hop generation remix of a classic. Religion and the Making of Nat Turner's Virginia Penguin

Set in the 1800s, *Ruth's Redemption*, is an unusual depiction of the lives of slaves and free blacks in pre-Civil War America. Bo, was educated while a slave. He was given his freedom and now owns a farm buying slaves for the sole purpose of giving them their freedom. Bo is also a man of God and widower whose life is destined to change when he meets the proud and hard-hearted slave girl, Ruth. Ruth has known nothing but servitude and brutality since being separated from her mother at age thirteen. Purchased and sold primarily for breeding, her heart is filled with resentment and bitterness. Ruth wants no part of Bo's Godly devotion. Yet Bo is unlike any man she's known and her experiences with him will leave her forever changed. A gripping slave era novel, *Ruth's Redemption* is a story of love, forgiveness, and redemption. Set against the backdrop of the Nat Turner Rebellion in Tidewater, Virginia, this novel shines the light of God's unconditional love in the darkness of a culture's cruel socially accepted inhumanity.

From the Pythagorean theorem to DNA's double helix, from the discovery of microscopic life-forms to the theory of relativity--the big ideas of science and technology shape an era's worldview. Open this book, grasp the newest ideas from thought leaders of today, then spring off from them to move back through the past, one big idea at a time. Meet the people who gave birth to these ideas--and those who fought against them. Meet the MIT electrical engineer currently developing a way to turn on the lights cordlessly, then move back through Nikola Tesla's visionary concept of the wireless transfer of energy, Thomas Edison's groundbreaking work in developing a nationwide electrical grid, Ben Franklin's experiments to capture electricity, all the way back to ancient Greece, where Thales of Miletus described static electricity as a property of naturally occurring amber. Ingeniously organized and eminently browsable, this richly visual volume is divided into six big sections--medicine, transportation, communication, biology, chemistry, and the environment. Words and images that work together to explain such fascinating and elusive subjects as cloud computing, sunshields to cool the Earth, and self-driving cars. What did it take to get to these futuristic realities? Then, turn the page and follow a reverse-chronological illustrated time line of science and technology. This remarkable illustrated history tells the story of every Big Idea in our history, seen through the lens of where science is taking us today - and tomorrow. With an irresistibly cutting-edge look and original illustrations created by award-winning Ashby Design, paired with the reliable authority and comprehensiveness that National Geographic's world history books always offer, this is a one-of-a-kind trip to the future and back through all time all in one.

This marvelous collection brings together the great myths and legends of the United States--from the creation stories of the first inhabitants, to the tall tales of the Western frontier, to the legendary outlaws of the 1920s, and beyond. This thoroughly engaging anthology is sweeping in its scope, embracing Big Foot and Windigo, Hiawatha and Uncle Sam, Paul Revere and Billy the Kid, and even the Iroquois Flying Head and Elvis. In the book's section on dogmas and icons, for instance, Leeming and Page discuss the American melting pot, the notion of manifest destiny, and the imposing historical and literary figure of Henry Adams. And under Heroes and Heroines, they have assembled everyone from "Honest Abe" Lincoln and George "I Cannot Tell a Lie" Washington to Bessie Smith, Billie Holiday, and Martin Luther King, Jr. For every myth or hero rendered here, the editors include an informative yet readable excerpt, often the definitive account of the story in question. Taken as a whole, *Myths, Legends, and Folktales of America* reveals how waves of immigrants, encountering this strange land for the first time, adapted their religions, beliefs, and folklore to help make sense of a new and astounding place. Covering Johnny Appleseed and Stagolee as well as Paul Bunyan and Moby Dick, this wonderful anthology illuminates our nation's myth-making, enriching our idea of what it means to be American.

Pulitzer Prize-winning author John Matteson illuminates three harrowing months of the Civil War and their enduring legacy for America. December 1862 drove the United States toward a breaking point. The Battle of Fredericksburg shattered Union forces and Northern confidence. As Abraham Lincoln's government threatened to fracture, this critical moment also tested five extraordinary individuals whose lives reflect the soul of a nation. The changes they underwent led to profound repercussions in the country's law, literature, politics, and popular mythology. Taken together, their stories offer a striking restatement of what it means to be American. Guided by patriotism, driven by desire, all five moved toward singular destinies. A young Harvard intellectual steeped in courageous ideals, Oliver Wendell Holmes Jr. confronted grave challenges to his concept of duty. The one-eyed army chaplain Arthur Fuller pitted his frail body against the evils of slavery. Walt Whitman, a gay Brooklyn poet condemned by the guardians of propriety, and Louisa May Alcott, a struggling writer seeking an authentic voice and her father's admiration, tended soldiers' wracked bodies as nurses. On the other side of the national schism, John Pelham, a West Point cadet from Alabama, achieved a unique excellence in artillery tactics as he served a doomed and misbegotten cause. *A Worse Place Than Hell* brings together the prodigious forces of war with the intimacy of individual lives. Matteson interweaves the historic and the personal in a work as beautiful as it is powerful.

While the memorialization of slavery has generated an impressive number of publications, relatively few studies deal with this subject from a transnational, transdisciplinary and transracial standpoint. As a historical phenomenon that crossed borders and traversed national communities and ethnic groups producing alliances that did not overlap with received identities, slavery as well as its memory call for comparative investigations that may bring to light aspects obscured by the predominant visibility of US-American and British narratives of the past. This study addresses the memory of slavery from a transnational perspective. It brings into dialogue texts and practices from the transatlantic world, offering comparative analyses which interlace the variety of memories emerging in diverse national contexts and fields of study and shed light on the ways local counter-memories have interacted with and responded to hegemonic narratives of slavery. The inclusion of Brazil and the French, English, and Spanish Caribbean alongside the United States and Europe, and the variety of investigative approaches-ranging from cinema, popular culture and visual culture studies to anthropology and literary studies-expand the current understanding of the slave past and how it is reimagined today. This fascinating book brings freshness to the topic by considering objects of investigation which have so far remained marginal in the academic debate, such as heroic memorials, civic landscape, white family sagas, Young Adult literature of slavery, Latin American telenovelas and filmic narrations within and beyond Hollywood. What emerges is a multifarious set of memories, which keep changing according to generation, race, gender, nation and political urgency and indicate the advancing of a dynamic, mobilized memorialization of slavery willing to move beyond mourning towards a more militant stand for justice. This is an important book for those interested in African American, American, and Latin American studies and working across literature, cinema, visual arts, and public culture. It will also be useful to public official and civil servants interested in the question of slavery and its present memory.

The essential, "richly researched"\* biography of Harriet Tubman, revealing a complex woman who "led a remarkable life, one that her race, her sex, and her origins make all the more extraordinary" (\*The New York Times Book Review). Harriet Tubman is one of the giants of American history—a fearless visionary who led scores of her fellow slaves to freedom and battled courageously behind enemy lines during the Civil War. Now, in this magnificent biography, historian Kate Clifford Larson gives us a powerful, intimate, meticulously detailed portrait of Tubman and her times. Drawing from a trove of new documents and sources as well as extensive genealogical data, Larson presents

Harriet Tubman as a complete human being—brilliant, shrewd, deeply religious, and passionate in her pursuit of freedom. A true American hero, Tubman was also a woman who loved, suffered, and sacrificed. Praise for *Bound for the Promised Land* “[Bound for the Promised Land] appropriately reads like fiction, for Tubman’s exploits required such intelligence, physical stamina and pure fearlessness that only a very few would have even contemplated the feats that she actually undertook. . . . Larson captures Tubman’s determination and seeming imperviousness to pain and suffering, coupled with an extraordinary selflessness and caring for others.”—The Seattle Times

“Essential for those interested in Tubman and her causes . . . Larson does an especially thorough job of . . . uncovering relevant documents, some of them long hidden by history and neglect.”—The Plain Dealer “Larson has captured Harriet Tubman’s clandestine nature . . . reading Ms. Larson made me wonder if Tubman is not, in fact, the greatest spy this country has ever produced.”—The New York Sun
