Daily Life in Late Antiquity Visitor Guides

Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Everyday Life in the Roman Empire Oxford University Press
"Like Platt's previous 'diaries' about castles, pirates, and ancient Egypt, this offers an accessible introduction to history." —
Booklist Iliona never imagined that her sea voyage from Greece to Egypt would lead to Rome, but when she is captured by pirates

and auctioned off as a slave, that's where she lands. Readers are invited to view the wonders of Rome through Iliona's eyes—the luxury, the excess, and the politics. Back matter includes notes for the reader, a glossary, and sources.

Stories of Daily Life from the Roman World Read Books Ltd

An insider's guide: how to join the Roman legions, wield a gladius, storm cities, and conquer the world Your emperor needs you for the Roman army! The year is AD 100 and Rome stands supreme and unconquerable from the desert sands of Mesopotamia to the misty highlands of Caledonia. Yet the might of Rome rests completely on the armored shoulders of the legionaries who hold back the barbarian hordes and push forward the frontiers of empire. This carefully researched yet entertainingly nonacademic book tells you how to join the Roman legions, the best places to

serve, and how to keep your armor from getting rusty. Learn to march under the eagles of Rome, from training, campaigns, and battle to the glory of a Roman Triumph and retirement with a pension plan. Every aspect of army life is discussed, from drill to diet, with handy tips on topics such as how to select the best boots or how to avoid being skewered by enemy spears. Combining the latest archaeological discoveries with the written records of those who actually saw the Roman legions in action, this book provides a vivid picture of what it meant to be a Roman legionary.

[Daily Life in Ancient Rome](#) HarperCollins

WINNER OF THE WOLFSON HISTORY PRIZE 2008 'The world's most controversial classicist debunks our movie-style myths about the Roman town with meticulous scholarship and propulsive energy' Laura Silverman, Daily Mail The ruins of Pompeii, buried by an explosion of Vesuvius in 79 CE, offer the best evidence we have of everyday life in the Roman empire. This remarkable book rises to the challenge of making sense of those remains, as well as exploding many myths: the very date of the eruption, probably a few months later than usually thought; or the hygiene of the baths which must have been hotbeds of germs; or the legendary number of brothels, most likely only one; or the massive death count, maybe less than ten per cent of the population. An extraordinary and involving portrait of an ancient town, its life and its continuing re-discovery, by Britain's favourite classicist.

Ancient Rome W. W. Norton & Company

A complete introduction to the rich cultural legacy of Rome through the study of Roman art ... It includes a discussion of the

relevance of Rome to the modern world, a short historical overview, and descriptions of forty-five works of art in the Roman collection organized in three thematic sections: Power and Authority in Roman Portraiture; Myth, Religion, and the Afterlife; and Daily Life in Ancient Rome. This resource also provides lesson plans and classroom activities."--Publisher website.

Meticulously Researched And Lucidly Narrated The Mughal World Offers Rare Insights Into The State Of The Empire S Economy, Religious Policies, The Mughal Army And Its Tactics, And The Glories Of Mughal Art, Architecture, Literature And Music.

Handbook to Life in Ancient Rome Good Press

Classicists have long wondered what everyday life was like in ancient Greece and Rome. How, for example, did the slaves, visitors, inhabitants or owners experience the same home

differently? And how did owners manipulate the spaces of their homes to demonstrate control or social hierarchy? To answer these questions, Hannah Platts draws on a diverse range of evidence and an innovative amalgamation of methodological approaches to explore multisensory experience – auditory, olfactory, tactile, gustatory and visual – in domestic environments in Rome, Pompeii and Herculaneum for the first time, from the first century BCE to the second century CE. Moving between social registers and locations, from non-elite urban dwellings to lavish country villas, each chapter takes the reader through a different type of room and offers insights into the reasons, emotions and cultural factors behind perception, recording and control of bodily senses in the home, as well as their sociological implications. *Multisensory Living in Ancient Rome* will appeal to all students and researchers interested in Roman daily life and domestic architecture.

The Invasion of Europe by the Barbarians Penguin Books India

Describes the people, places, and events of Ancient Rome, describing travel, trade, language, religion, economy, industry and more, from the days of the Republic through the High Empire period and beyond.

Daily Life in the Roman City Greenwood

"One really must admire Harvey's achievement in this sourcebook. With just 350 passages (more than half of them consisting of Latin inscriptions, from all over Rome's empire), Harvey manages to give his readers a real sense of Roman private values and behaviors. His translations of the original texts are superb—both accurate and elegant. And he contextualizes his

chosen passages with a series of remarkably economical but solidly reliable introductions. In a word, Harvey's sourcebook strikes me as the best now available for a single-semester undergraduate course." —T. Corey Brennan, Rutgers University-New Brunswick

Ancient Libraries Harvard University Press

From multiple Hugo and Nebula Award-winning author Robert Silverberg, *Roma Eterna* takes an in-depth look at an alternative history in which the Roman Empire survives into the twenty-first century and beyond. What would happen if Imperial Rome never fell? *Roma Eterna*, spanning fifteen hundred years of global history, follows the reign of the Roman Empire from its inception to the present day. Empire continues to expand, creeping across the globe and through the annals of history from the conquest of the Mayans to the first circumnavigational voyage, and finally the attempt of the Hebrews to flee Rome's tyranny by escaping to another planet. Originally published as a series of short stories, *Roma Eterna* presents a powerful new world written by an endlessly imaginative writer.

SPQR: A History of Ancient Rome Blackstone Publishing

An analysis of the lives of ancient Rome's gladiators explores how they were both despised and hero-worshiped, chronicling how tens of thousands of gladiators perished publicly over the course of six hundred years.

Everyday Life in Ancient Rome Little, Brown Book Group

The Gallic War, published on the eve of the civil war which led to the end of the Roman Republic, is an autobiographical account written by one of the most famous figures of European history. On one level a straightforward narrative of the campaigns Caesar

fought against the Gauls, Germans and Britons, it also serves a deeper political purpose, revealing him as a commander of breathtaking flair, courage and persistence - a man of the people, a man without rival. This new translation reflects the purity of Caesar's Latin while preserving the pace and flow of his momentous narrative of the conquest of Gaul and the first Roman invasions of Britain and Germany. The introduction includes a survey of Caesar's role and reputation in later thought, while detailed notes, maps, a table of dates, and glossary make this the most useful edition available. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

Dynasty Candlewick Press

This book provides English translations of newly discovered texts in an easily understandable presentation, with extensive illustrations.

Are We Rome? Metropolitan Museum of Art

New York Times Bestseller Editors' Choice —New York Times Book Review "Ricks knocks it out of the park with this jewel of a book. On every page I learned something new. Read it every night if you want to restore your faith in our country." —James Mattis, General, U.S. Marines (ret.) & 26th Secretary of Defense The Pulitzer Prize-winning journalist and #1 New York Times bestselling author offers a revelatory new book about the

founding fathers, examining their educations and, in particular, their devotion to the ancient Greek and Roman classics—and how that influence would shape their ideals and the new American nation. On the morning after the 2016 presidential election, Thomas Ricks awoke with a few questions on his mind: What kind of nation did we now have? Is it what was designed or intended by the nation's founders? Trying to get as close to the source as he could, Ricks decided to go back and read the philosophy and literature that shaped the founders' thinking, and the letters they wrote to each other debating these crucial works—among them the Iliad, Plutarch's Lives, and the works of Xenophon, Epicurus, Aristotle, Cato, and Cicero. For though much attention has been paid the influence of English political philosophers, like John Locke, closer to their own era, the founders were far more immersed in the literature of the ancient world. The first four American presidents came to their classical knowledge differently. Washington absorbed it mainly from the elite culture of his day; Adams from the laws and rhetoric of Rome; Jefferson immersed himself in classical philosophy, especially Epicureanism; and Madison, both a groundbreaking researcher and a deft politician, spent years studying the ancient world like a political scientist. Each of their experiences, and distinctive learning, played an essential role in the formation of the United States. In examining how and what they studied, looking at them in the unusual light of the classical world, Ricks is able to draw arresting and fresh portraits of men we thought we knew. First Principles follows these four members of the Revolutionary generation from their youths to their adult lives, as they grappled with questions of independence, and forming and keeping a new

nation. In doing so, Ricks interprets not only the effect of the ancient world on each man, and how that shaped our constitution and government, but offers startling new insights into these legendary leaders.

Daily Life of the Ancient Romans Bloomsbury Publishing USA
Provides insight into Roman life of the second century A.D.

The Life of Saint Severinus OUP Oxford

New York Times Bestseller A New York Times Notable Book
Named one of the Best Books of the Year by the Wall Street Journal, the Economist, Foreign Affairs, and Kirkus Reviews
Finalist for the National Book Critics Circle Award (Nonfiction)
Shortlisted for the Cundill Prize in Historical Literature Finalist for the Los Angeles Times Book Prize (History) A San Francisco Chronicle Holiday Gift Guide Selection A New York Times Book Review Editors' Choice Selection A sweeping, "magisterial" history of the Roman Empire from one of our foremost classicists shows why Rome remains "relevant to people many centuries later" (Atlantic). In *SPQR*, an instant classic, Mary Beard narrates the history of Rome "with passion and without technical jargon" and demonstrates how "a slightly shabby Iron Age village" rose to become the "undisputed hegemon of the Mediterranean" (Wall Street Journal). Hailed by critics as animating "the grand sweep and the intimate details that bring the distant past vividly to life" (Economist) in a way that makes "your hair stand on end" (Christian Science Monitor) and spanning nearly a thousand years of history, this "highly informative, highly readable" (Dallas Morning News) work examines not just how we think of ancient Rome but challenges the comfortable historical perspectives that have existed for centuries. With its nuanced attention to class,

democratic struggles, and the lives of entire groups of people omitted from the historical narrative for centuries, *SPQR* will to shape our view of Roman history for decades to come.

The Twelve Tables Britannica Educational Publishing

'A masterly account of this first wicked century of the Roman Empire' Sunday Times 'Holland does not just tell the story of the reign of the Julio-Claudian family. He knits the history of ancient Rome into his narrative - its founding myths, the fall of the republic, the religious superstitions - with a skill so dextrous you don't notice the stitching. Dynasty is both a formidable effort to compile what we can know about the ancient world and a sensational story' Observer 'A witty and skilful storyteller... He recounts with pleasure his racy tales of psychopathic cruelty, incest, paedophilia, matricide, fratricide, assassination and depravity' William Dalrymple, New Statesman 'A wonderful, surging narrative... [for] anyone interested in history, politics or human nature - and it has never been better told' Mail on Sunday
THE TOP TEN SUNDAY TIMES BESTSELLER

Ancient Greece Macmillan

This volume looks at all these aspects of life in the Roman Empire.

Daily Life in Ancient Rome - The People and the City at the Height of the Empire Cambridge University Press

The circulation of books was the motor of classical civilization. However, books were both expensive and rare, and so libraries - private and public, royal and civic - played key roles in articulating intellectual life. This collection, written by an international team of scholars, presents a fundamental reassessment of how ancient libraries came into being, how they

were organized and how they were used. Drawing on papyrology and archaeology, and on accounts written by those who read and wrote in them, it presents new research on reading cultures, on book collecting and on the origins of monumental library buildings. Many of the traditional stories told about ancient libraries are challenged. Few were really enormous, none were designed as research centres, and occasional conflagrations do not explain the loss of most ancient texts. But the central place of libraries in Greco-Roman culture emerges more clearly than ever. *Life and Death in Pompeii and Herculaneum* Oxford University Press, USA

This book presents the legislation that formed the basis of Roman

law - The Laws of the Twelve Tables. These laws, formally promulgated in 449 BC, consolidated earlier traditions and established enduring rights and duties of Roman citizens. The Tables were created in response to agitation by the plebeian class, who had previously been excluded from the higher benefits of the Republic. Despite previously being unwritten and exclusively interpreted by upper-class priests, the Tables became highly regarded and formed the basis of Roman law for a thousand years. This comprehensive sequence of definitions of private rights and procedures, although highly specific and diverse, provided a foundation for the enduring legal system of the Roman Empire.
