The Academy is an institution for the study & teaching of public & private international law & related subjects. Its purpose is to encourage a thorough & impartial examination of the problems arising from international

relations in the field of law. The courses deal with the theoretical & practical aspects of the subject, including legislation & case law. All courses at the Academy are, in principle, published in the language in which they were delivered in the Collected Courses of the Hague Academy of International Law . This volume provides an alphabetical index in English & French to the courses contained in Volumes 152 to 178 of the Collected Courses.

Statutes of the United States of America Passed at the ... Session of the ... Congress Springer Science & Business Media

This volume illustrates the research not only of French accountants (Colasse, Durand, Jouanique, Lemarchand, Nikitin, Richard, Tessier) but also the work of Belgian authors writing in French (Stevelinck, Haulotte) and of

French non-accountants (de Swarte, Durdilly, Sauvy). The work of British and North American academics, writing in English on French accounting history is also illustrated from the 1930s (Howard, Edwards), through to the 1960s (Parker) and the more recent research of Standish, Fortin and Bhimani. The contributions to this volume have been arranged both chronologically and thematically as follows: the earliest business accounting records; the first French accounting authors; Colbert, Savbary and the Ordonnance de Commerce; the eighteenth and nineteenth centuries; cost accounting; the national accounting

plan; national income accounting; government accounting and accounting theory. An abstract of each contribution is given in both English and French.

Royal Dictionary English and French and English Compiled from the Dictionaries of Johnson, Todd ... by Professors Fleming and Tibbins

Martinus Nijhoff Publishers
The book contains the proceedings of the Fifth International Wheat Conference at which leading international scientists reviewed current research issues and developments in wheat improvement. The debated topics cover breeding and genetics, genetic resources and

importance of free germplasm exchange, breeding for biotic and abiotic stresses, physiology, agronomy and mineral nutrition, grain quality and biotechnology. A significant number of presentations were made by participants from the former USSR and Eastern and Central Europe, making this book also a prime reference for current wheat research and production status in these countries. This book provides an opportunity for wheat scientists interested in global wheat improvement issues to obtain an insight into the research that is currently being conducted worldwide and the prospects of further improvement to meet the increasing demands for this food

commodity.

Index-catalogue of the Library ... Walter de Gruyter GmbH & Co KG

This book is the result of a 4-year research project conducted at the Faculty of Law of the University of Luxembourg. It explores the legal value and enforceability of tax circulars and tax rulings in Luxembourg domestic law in light of the principle of legitimate expectations and related principles. After studying the historical roots of both interpretative acts, this research questions the level of protection taxpayers enjoy when relying on circulars and

tax rulings and contains a review of decades of administrative case-law to assess the judicial discourse on taxpayers' rights to certainty. This book further investigates the case of circulars and tax rulings that contain interpretations of tax laws that are contrary to the law (*contra legem*) and builds upon the existing normative framework to introduce proposals addressing issues of uncertainty and inequality taxpayers are likely to suffer when relying on such interpretative acts. Prix Pierre Pescatore de la Faculté de Droit de Luxembourg (École doctorale de droit).
