Highly controversial
but impeccably
researched, *The Real
Messiah* explodes the
myth that Jesus was

the long-prophesied
Messiah of the Jewish
nation. Indeed, it
argues that Jesus never
claimed that role but
thought of himself as
herald to the true
Messiah: Marcus Julius
Agrippa, the last King
of the Jews and Jesus'
contemporary. It was
he who truly founded
what became known as
Christianity, and

wanted to build a faith to which anyone could aspire. Though Marcus Agrippa was initially successful, with the passing of time those in charge of the new faith capitulated to the whims of successive Roman Emperors and centered their religion on Jesus instead.

THE SENSE OF SMELL

The nose is normally mistakenly assumed to be the organ of smell reception. It is not. The primary function of the nose is to regulate the temperature and humidity of inspired air, thereby protecting the delicate linings of

the lungs. This is achieved by the breathed air passing through narrow passageways formed by three nasal turbinates in each nostril. The turbinates are covered by spongy vascular cells which can expand or contract to open or close the nasal pathways. The olfactory receptors, innervated by the 1st cranial nerve, are located at the top of the nose. There are about 50 million smell receptors in the human olfactory epithelia, the total size of which, in humans, is about that of a small postage stamp, with half being at the top of the left and half at the top of the right nostril. The receptive surfaces of olfactory cells are ciliated and extend into a covering layer of

mucus. There is a constant turnover of olfactory cells. Their average active life has been estimated to be about 28 days.

Gospel music evolved in often surprising directions during the post-Civil Rights era. Claudrena N. Harold's in-depth look at late-century gospel focuses on musicians like Yolanda Adams, Andraé Crouch, the Clark Sisters, Al Green, Take 6, and the Winans, and on the network of black record shops, churches, and businesses that nurtured the music. Harold details the creative shifts, sonic innovations, theological tensions, and political assertions that transformed the music, and revisits the debates within the community over groundbreaking recordings and gospel's incorporation of rhythm and blues,

funk, hip-hop, and other popular forms. At the same time, she details how sociopolitical and cultural developments like the Black Power Movement and the emergence of the Christian Right shaped both the art and attitudes of African American performers. Weaving insightful analysis into a collective biography of gospel icons, *When Sunday Comes* explores the music's essential place as an outlet for African Americans to express their spiritual and cultural selves. *Achtung-Panzer!* Lindhardt og Ringhof One year ago, Edmond died in a horrible fire. He took with him the dreams of his fiancée, Meredith, the trust of his best friend, Eric,

and the answers to the burning questions that still linger about his death and the terrible crime he committed. But on a stormy night at the cemetery where he rests, the secrets from his past will finally refuse to stay buried; and those he left behind will finally refuse to stay silent. In this original, suspense-filled musical thriller by the author/composer of "Thrill Me," there are enough twists, turns and surprises to keep the audience guessing up until the final shocking moments. *Real Men Do Yoga* Samuel French, Incorporated The gardens of the Italian Lakes are a favourite destination for garden lovers and groups. The gardens around Lake Como and Lake Maggiore, in the

far north of Italy, are admired throughout the world for their beauty and variety in a magnificent natural location. This book sets out to become the standard work on these gardens as there is nothing of this kind on the market at the moment. It will appeal both to the specialist and enthusiast preparing for a visit. The common factor for all these gardens is their setting in this landscape of exceptional scenery. Lake Como is a deep lake hemmed in like a fjord by towering mountains. Lake Maggiore has more the character of an inland sea, with ferries crossing to the famous island gardens for an afternoon in another world. Both lakes are lined with the towers,

villas and grand hotels that speak of a complex history including key events in Italy's struggle to achieve nationhood, inspiration for a string of illustrious writers and composers, and a long line of distinguished visitors. The gardens include: Villa Melzi, Bellagio: an early 19th-century romantic park on the lake shore Villa Carlotta, Cadenabbia: a terraced 17th-century property with woodland Villa del Balbianello, Lenno: a famously picturesque loggia Villa D'Este, Cernobbio: a 16th-century cascade garden with royal connections Villa Cicogna Mozzoni, Bisuschio: an intact 16th-century villa garden Villa Della Porta Bozzolo, Casalzuigno: a

The diet is carefully designed by Drew Price, a highly experienced Registered Nutritionist who specialises in working with elite athletes to help them

reach peak condition and improve their performance, including medal-winning Olympians, Premier League footballers, Rugby League and Rugby Union players. On 'Days On' you drink plenty of fluids and eat one light meal a day (about a quarter of your normal calorie intake) and there are clear guidelines, meal plans and simple recipes to help you do this. On 'Days Off' you can eat exactly what you want, although you are encouraged to follow his everyday eating guidelines to make the best food choices and to get the full health benefits of the diet. A revolutionary approach to weight loss, health and fitness, The D.O.D.O. Diet ends the tyranny of everyday

dieting and calorie counting and gets you the results you want, whether you just want to lose weight, are training for a specific sports event or want to protect your long-term health.

The 'Mixed Game Model' represents a holistic theory of dialogue which starts from human beings' competence-in-performance and describes how language is integrated in a general theory of human action and behaviour. Human beings are able to adapt to changing conditions and to pursue their interests by the integrated use of various communicative means, mainly verbal, perceptual and

cognitive. The core unit is the dialogic action game or 'the mixed game' with human beings at the centre acting and reacting in cultural surroundings. The key to opening up the complex whole is human beings' nature. The Mixed Game Model demonstrates how the different disciplines of the natural and social sciences and the humanities are mutually interconnected. After a detailed overview of the state of the art, the fundamentals of the theory are laid down. They include a typology of action games which ranges from minimal games to complex institutional games. The description is illustrated by analyses of authentic games.
