The explosion of  
minimalism into the  
worlds of visual arts,  
music and literature in the  
mid-to-late twentieth  
century presents one of  
the most radical and  
decisive revolutions in  
aesthetic history.  
Detested by some,  
embraced by others,  
minimalism's influence  
was immediate, pervasive  
and lasting, significantly  
changing the way we hear  
music, see art and read  
literature. In *The Theory  
of Minimalism*, Marc Botha  
offers the first general  
theory of minimalism,  
equally applicable to  
literature, the visual arts  
and music. He argues that  
minimalism establishes an  
aesthetic paradigm for  
rethinking realism in  
genuinely radical terms.  
In dialogue with thinkers  
from both the analytic and

continental traditions –  
including Kant, Danto,  
Agamben, Badiou and  
Meillassoux – Botha  
develops a constellation  
of concepts which  
together encapsulate the  
transhistorical and  
transdisciplinary reach of  
minimalism. Illustrated by  
a range of historical,  
canonical and  
contemporary minimalist  
works of different media,  
from the caves of early  
Christian ascetics to  
Samuel Beckett's late  
prose, Botha offers a bold  
and provocative argument  
which will equip readers  
with the tools to engage  
critically with past,  
present and future  
minimalism, and to  
recognize how, in a  
culture caught between  
the poles of excess and  
austerity, minimalism still  
matters.

Publishing  
"This volume chronicles  
the Museum's story from  
its opening, ten days after  
the stock market crash of  
1929, in a few rented  
rooms in a midtown office  
building, up to the present  
day, in its new building on  
West Fifty-third and Fifty-  
fourth streets. The book  
presents a pictorial and  
documentary review of  
each year, and each  
important period, of the  
Museum's history. It tells  
the story of how The  
Museum of Modern Art,  
New York, began as a  
small set of art galleries  
inaugurated by three  
ladies of means who had  
a passion for modern art.  
Through a selection of  
photographs, official  
documents, letters,  
quotations, newspaper  
clippings, cartoons, and  
other ephemera, the  
complex and multilayered  
history of the Museum  
unfolds in a visual march  
through time, revealing  
the extraordinary vision of  
a determined group of  
individuals who had the  
ability and courage to  
translate their vision into

reality" -- OhioLink Library Catalog.

Our Dumb Animals The

Museum of Modern Art

La exposición refleja la

historia del Black

Mountain College (BMC),

fundado en 1933 en

Carolina del Norte y

concebido como

universidad experimental

que situaba al arte en el

centro de una educación

liberal que pretendía

educar mejor a los

ciudadanos para

participar en la sociedad

democrática. La

educación era

interdisciplinaria y

concedía gran

importancia al debate, la

investigación y la

experimentación,

dedicando la misma

atención a las artes

visuales -pintura,

escultura, dibujo- que a

las llamadas artes

aplicadas -tejidos,

cerámica, orfebrería, así

como a la arquitectura, la

poesía, la música y la

danza.

*Cy Twombly* Forge Books

A dynamic look at how

artists used paper to

radically redefine the

relationship between the

body and its

surroundings, and to

propose new conceptions

of ecology From sketches

created inside pants

pockets to paper-strewn

performances that took

cues from protests and

riots, the work on paper in

the 1960s acted as a

mobile, flexible

connective tissue

between the body and the

world around it. In this

book, Katie Anania reveals

how artists Carolee

Schneemann, William

Anastasi, Richard Tuttle,

Robert Morris, and

Charles White harnessed

this historically intimate

medium during a period in

which Americans were

becoming urgently

concerned with identity,

consumer culture, the

overreach of state power,

and the rapidly

deteriorating natural

world. Her reexamination

of drawing shows how the

omnipresence of paper

facilitated artists' critiques

of dominant systems,

from modern throwaway

culture to bureaucracy to

colonial violence.

Engaging a wide range of

actions--such as recycling,

recording, cutting,

planning, and erasing--

Anania offers fresh

insights into paper's role

not merely as a

preparatory medium but

one essential to the

histories of performance,

minimalist, conceptual,

and land art. *Out of Paper*

uses materiality studies,

social history, and

feminist art historical

methods to situate paper

as a major conduit for

thought in the postwar

United States.

*Directory* Yale University

Press

Merleau-Ponty's

phenomenological

ontology engages deeply

with visual art, and this

aspect of his work

remains significant not

only to philosophers, but

also to artists, art

theorists, and critics. Until

recently, scholarly

attention has been

focused on the artists he

himself was inspired by

and wrote about, chiefly

Cézanne, Klee, Matisse,

and Rodin. Merleau-Ponty

at the Gallery expands

and shifts the focus to

address a range of artists

(Giorgio Morandi, Kiki

Smith, Cy Twombly, Joan

Mitchell, and Ellsworth

Kelly) whose work came

to prominence in the

second half of the

twentieth century and

thus primarily after the

philosopher's death.

Véronique M. Fóti does

not confine her analyses

to Merleau-Ponty's texts

(which now importantly

include his late lecture

courses), but also

engages directly with the art. Of particular concern to her is the art's ethical bearing, especially as related to animal and vegetal life. The book's concluding chapter addresses the still-widespread rejection of beauty as an aesthetic value.

### **The Boston Directory**

Yale University Press  
A renowned art critic of the 1960s, Carla Lonzi abandoned the art world in 1970 to found Rivolta Femminile, a pioneering feminist collective in Italy. Rather than separating the art world luminary from the activist, however, this book looks at the two together. It demonstrates that even as Lonzi refused art, she articulated how feminist spaces and communities drew strength from creativity. The eleven essays in this book

document the artistic and feminist circles of postwar Italy, a time characterised both by radical protest and avant-garde aesthetics, using primary and archival sources never before translated into English. They map Lonzi's deep connections to the influential Italian Arte Povera movement, and explore her complicated relationship with female artists of the time, such as Carla Accardi and Suzanne Santoro. Carla Lonzi's written work and activism represents a crucial, but previously overlooked, feminist intervention in traditional art history from beyond the Anglo-American canon. This book is a timely and urgent addition to our understanding of radical politics, separatist feminism and art criticism in the postwar period.
