MORGAN CANTRELL

Learned Ignorance in the Medicine Bow Mountains Routledge

Queer Italy is the first multi-methodological inquiry into the historical, political and representational contexts behind the current plea for civil unions that queers advocate in Italy. Concerned with the links between identity, subjectivity and sexuality in Italy, this book opens Italian studies to previously neglected discussion of queer and migrant subjectivities. The author applies Lacanian film analysis and auto-ethnographic passages to question the uses of queer politics in Italy. Accessible and comprehensive, this is an ideal text for undergraduate and graduate courses on Italian culture, cultural studies and film studies.

Migrant Cartographies Courier Corporation

An invaluable reference text for singers, teachers, and vocal and operatic coaches, this volume contains the complete song texts of the songs for voice and piano of Bellini, Donaudy, Donizetti, Puccini, Rossini, Tosti, and Verdi, with word-by-word and poetic translations. All these song texts are in an easy-to-read three-line format, giving the user an exact, accurate knowledge of each word as it is understood by a native-language singer.

Italian Made Simple Springer Nature

This book is a thorough quantitative and qualitative study of a typical phenomenon pertaining to the English spoken language; namely question tags (QTs) and invariant tags. More specifically, English tags are analysed on the syntactic, pragmatic and prosodic level, taking into account cross-varietal differences as well as both visual and auditory dimensions, in order to get a more precise interpretation of their communicative functions. This is made possible by examining film language, since films, being complex semiotic “texts”, provide a more complete set of parameters for analysis, especially in the case of QTs, where intonation is crucial for their interpretation. The study of their function is based not only on their formal properties, but is integrated with the use of spectrograms, which makes it possible to actually “visualise” the prosody of tags and to back up the results with material evidence. Moreover, tags are also examined from a translational perspective, with analysis focusing on the transposition of tags in Italian dubbing, a specific type of audiovisual translation, for two main reasons: firstly, to check how and to what extent tags are rendered in Italian, a language which does not have so structured a set of equivalent expressions, and secondly, to see how much space they are granted in a typically “constrained” translation like dubbing, which is severely influenced by the visual dimension. After this, the use of the various translating options in Italian dubbing is studied in Italian original film language and compared with spontaneous conversation in both languages, by analysing data in corpora of spontaneous speech both in English and Italian to ascertain whether the use of tags and their Italian counterparts in film language is natural or artificial. The present work is the first to study the syntactic and prosodic properties of English tags from an integrated pragmatic and translational perspective. The study also qualifies as contrastive in that the use of these conversational routines is analysed in two different languages (English and Italian), as well as in different genres and varieties, including film language, dubbese and spontaneous speech.

A Companion to Italian Cinema SUNY Press

This book establishes the role of French writer Charles Baudelaire in the formation of paradigms of modernity in Italian poetry between 1857, the year of publication of Baudelaire’s highly influential collection *Les Fleurs du Mal*, and 1912, when the first anthology of Futurist poetry, *I poeti futuristi*, was published in Milan. It focuses primarily on Baudelaire’s influence on the poetry of the Scapigliatura, a long-underrated movement which in the 1860s introduced a thematic and formal modernity into Italian literature, paving the way for Futurism and the twentieth-century avant-garde. This monograph also investigates Baudelaire’s and the Scapigliatura’s interrelated impacts on early Futurist poetry, demonstrating that Futurist poets turned to the works of Baudelaire and the Scapigliatura for inspiration on themes that were considered as distinctly unpoetic – and therefore modern – such as medical-anatomical examination, technological transformation, and abnormal sensuality.

The perceived lack of understanding of cultural diversity in the American learning community has led instructors to challenge assumptions and stereotypes while addressing misconceptions. Teachers of foreign languages and cultural studies, in particular, feel the need to redesign curricula and lesson plans to better serve the learning community of the twenty-first century. The common starting point resides in the paradox that exists in today’s connected world; while global access to information makes learners aware of the infinite variety of cultural diversity, it does not, however, make them critical thinkers. For this reason, there is opportunity to reshape critical thinking within a more global perspective, while enhancing the tools to identify, interpret, and compare the different cultural models that learners encounter. The book demonstrates the theories and practical applications by which instructors use contemporary film to provide insightful readings on diverse local communities, communities that form the basis of global culture. This collection of essays will serve as a pedagogical tool and resource, offering methods and examples of a communicative approach to analyze and integrate cultural diversities, similarities, and problems in the second language curricula, methods that expose students to different cultural models while scaffolding their critical approach to multiple layers of common and specific values. This work will encourage a dialogue and long-lasting conversation on methodologies and teaching strategies rethought, reapplied, and remolded to the new learning environments.

New Approaches to Teaching Italian Language and Culture fills a major gap in existing scholarship and textbooks devoted to the teaching of Italian language and culture. A much-needed project in Italianistica, this collection of essays offers case studies that provide a coherent and organized overview of contemporary Italian pedagogy, incorporating the expertise of scholars in the field of language methodology and language acquisition from Italy and four major countries where the study of Italian has a long tradition: Australia, Canada, Great Britain and the United States. The twenty four essays, divided into six main parts, offer a tremendous variety of up-to-date approaches to the teaching of Italian as a foreign language and L2, ranging from theoretical to more practical, hands-on strategies with essays on curricular innovations, technology, study abroad programs, culture, film and song use as effective pedagogical tools. Each case study introduces a systematic approach with an overview of theory, activities and assessment suggestions, collection of research data and syllabi. The book addresses the needs of instructors and teacher trainers, putting in perspective

different examples that can be used for more effective teaching techniques according to the ACTFL guidelines and the Common European Framework of Reference for Languages.

Tolstoy on Screen Northwestern University Press

With its roots deep in ancient narrative and in various reworkings from the late medieval and early modern period, Shakespeare's *Romeo and Juliet* has left a lasting trace on modern European culture. This volume aims to chart the main outlines of this reception process in the broadest sense by considering not only critical-scholarly responses but also translations, adaptations, performances and various material and digital interventions which have, from the standpoint of their specific local contexts, contributed significantly to the consolidation of *Romeo and Juliet* as an integral part of Europe's cultural heritage. Moving freely across Europe's geography and history, and reflecting an awareness of political and cultural backgrounds, the volume suggests that Shakespeare's tragedy of youthful love has never ceased to impose itself on us as a way of articulating connections between the local and the European and the global in cases where love and hatred get in each other's way. The book is concluded by a selective timeline of the play's different materialisations.

The power exercised by the mother on the son in Mediterranean cultures has been amply studied. Italy is a special case in the Modern Era and the phenomenon of *Mammismo italiano* is indeed well known. Scholars have traced this obsession with the mother figure to the Catholic cult of the Virgin Mary, but in fact, it is more ancient. What has not been adequately addressed however, is how *Mammismo italiano* has been manifested in complex ways in various modern artistic forms. Portrait of the Artist and His Mother in Twentieth-Century Italian Culture focuses on case studies of five prominent creative personalities, representing different, sometimes overlapping artistic genres (Luigi Pirandello, Pier Paolo Pasolini, Dino Buzzati, Carlo Levi, Federico Fellini). The author examines how the mother-son relationship not only affected, but actually shaped their work. Although the analysis uses mainly a psychological and psychoanalytical critical approach, the belief of the author, substantiated by historians, anthropologists and sociologists, is that historical and cultural conditions contributed to and reinforced the Italian character. This book concludes with an analysis of some examples of Italian film comedies, such as Fellini's and Monicelli's where *mammismo/vitellonismo* is treated with a lighter tone and a pointed self irony.

Colloquial Italian 2 (eBook And MP3 Pack) Taylor & Francis

This book is an edited collection of papers dealing with some of the main issues in audiovisual translation (AVT) today. As the title indicates, it proposes to take stock of where the discipline stands and to speak of the opportunities and challenges that an ever-changing environment poses to those involved in the field, whether in teaching, researching or working professionally within the industry. The selection of papers provides a detailed overview of the multidisciplinary richness that ch ...

Generation X Goes Global! University of Toronto Press

This volume explores the Italian contribution to the current global phenomenon of a "return to reality" by examining the country's rich cultural production in literature and cinema. The focus is particularly on works from the period spanning the Nineties to the present day which offer alternatives to notions of reality as manufactured by the collusion between the neo-liberal state and the media. The book also discusses Italy's relationship with its own cultural past by investigating how Italian authors deal with the return of the specter of Neorealism as it haunts the modern artistic imagination in this new epoch of crisis. Furthermore, the volume engages in dialogue with previous works of criticism on contemporary Italian realism, while going beyond them in devoting equal attention to cinema and literature. The resulting interactions will aid the reader in understanding how the critical arts respond to the triumph of hyperrealism in the current era of the virtual spectacle as they seek new ways to promote cognitive transformations and foster ethical interventions.

Speak the Culture: Italy offers a rich and engaging insight into the events, people and movements that have shaped Italy and the Italians. A guidebook can show you where to go, a phrase-book what to say, but only *Speak the Culture: Italy* will lead you to the nation's soul. The Italian character is complex, contradictory, alluring and infinitely variable: heirs to the greatest empire of the ancient world but almost ungovernable; cradle of western civilization as well as the Mafia; maestros of modern design, mired in old-fashioned bureaucracy; epicentre of the Catholic Church and exemplars of *la dolce vita*. Where do you start? Giotto? Caravaggio? Murky Etruscan tombs or the mighty Roman Pantheon? *Speak the Culture: Italy* sifts through a sprawling 3,000 year saga and makes sense of it, dissecting architecture, music, food, art, literature, cinema, family and much more. Culture is covered in its broadest sense, extending into every aspect of Italian life--food and drink, religion, politics, sport, manners, character and so on. While the Italian peninsula has its ancient history, it's been a unified nation for less than 150 years. *Lo Stivale*, or the famous Boot, is young: the nuances of strong, surviving regional identities are important and revealed. Taken as a whole, *Speak the Culture: Italy* gives you an insight into what it means to be Italian, but it's also a book to dip into, to learn, for instance, about Giuseppe Verdi, Sophia Loren or Umberto Eco. Easily read and

beautifully illustrated, this, the fourth in the *Speak the Culture* series, offers an intimate understanding of Italian life and culture for new residents, second home-owners, holidaymakers, business travelers, students and lovers of Italy everywhere.

In recent years, Europe has had to constantly rethink and redefine its attitude toward new flows of immigrations. Issues of boundaries and identity have been integral to this reflection. Through a magnificent collection of essays, *Migrant Cartographies* examines both sites and conflicts and the way in which forms of belonging and identity have been reinvented. With careful analysis and exceptional insight, this volume explores the most recent literature on migration as seen from different European viewpoints. This book fills a conspicuous void in migration literature, as there are no comprehensive books on migrant literatures in Europe that address the full range of complexities of colonial legacies and linguistic productions.

This book is an apologia for the rooted intellectual against the disdainful condescension of the cosmopolitan intellectual—an apology in the Socratic sense of the word. It reflects the author's Texas rootedness unapologetically and offers a polemical but thoughtful indictment of the intellectual prejudice against rootedness; but it is ultimately about the universal human struggle with origins.

In *Recent Italian Cinema*, two fundamental questions are asked: the first concerns whether Italian cinema, as national cinema, is in reality reduced to a niche market in its own territory. The second relates to what Italian audiences do with domestic films. For nearly two decades, most Italian films have been produced outside box office returns, through a practice of subsidy and co-financing between many institutional and private entities. Thus Italian cinema has had to define its mode of production and use-value of films in a different way. It is clear that it is no longer possible to separate national cinemas from the grip that the American film industry has on world markets, in terms of imagination and modes of production, distribution and exhibition. It is thus only by examining the multiple layers of description and analysis, which take into account the presence of Hollywood, that we can come to an understanding of what recent Italian cinema actually is.

Simple Italian Lessons BRILL

Classical and modern foreign language studies no longer have a well-defined subject area, and language and culture can no longer be defined according to nations and national identities. New approaches are being developed with theoretical and methodological points of departure in new areas of research: for example, culture studies, anthropology, sociology, pragmatics and conversation analyses. The aim of modern language studies must therefore be redefined, and be more open for variation and diversity, both in culture and communication. The book discusses the relation between language and culture and is a direct result of the conference *Culture in Language Learning*, organised under the auspices of the Danish Language and Culture Network, which assembles researchers from language disciplines in Denmark. The aim is to examine how culture comes into the actual language code; into the use of language; and not least, into the learning and teaching of language. One of the book's main problematic areas thus concerns the learning and teaching of foreign and second languages in a globalised world where languages play a new role, both for the individual person, by virtue of internationalisation of education and work-life, and for cooperation across national borders. The articles elucidate these problematic points in relation to the historic development of foreign language disciplines, the meeting of language and culture, teaching traditions and language appropriation theories.
