The Alchemist (Classic Reprint) Simon and Schuster

Over a thousand years ago, the Persian physician and chemist Abu Bakr Muhammad ibn Zakariya al-Razi presented his students with a book of alchemy instructions called the Kitab al-Asrar or Book of Secrets. For over seven hundred years this systematic text on managing chemicals, equipment, and procedures was copied and imitated throughout Europe. Using historian Julius Ruska's authoritative German translation, this book presents al-Razi's Book of Secrets in English for the first time and analyzes it from the perspective of a modern scientific laboratory. The Kitab al-Asrar offers a view into the understanding of chemistry and procedure organization in the tenth-century Islamic world. Yet a careful reading yields even more than that. As a laboratory manual, it gives intriguing clues into Persian culture under the Abbasid caliphate: the relationship of teacher and student; attitudes toward safety, labor, and quantification; tools and logical problem-solving;

commerce and the availability of luxury goods; and the value of the written word. This is the Kitab al-Asrar.

The Alchemist has long been admired as one of Ben Jonson's best dramas; its satiric cleverness and metatheatricality have delighted audiences from its first performance to the present day. Audiences are swept up in the schemes of a fake alchemist and other determined fraudsters whose scams appear to offer easy wealth and immortality. While no characters emerge unscathed by Jonson's satire, and while alchemy itself is revealed as most likely a sham, the play is nonetheless a tribute to the transformative—indeed, the alchemical—powers of the theater. This edition features a helpful introduction to the play, thorough annotations, and contextual materials including a selection of Jonson's sources, further materials on alchemy, and an example of “rogue” or “coney-catching” literature.

"...impressive...fast-paced...The high calibre of writing, together with the thoroughly researched historical detail, make *The Alchemist's Dream* a compelling read." Quill & Quire In the fall of 1669, the Nonsuch returns to London with a load of fur from Hudson Bay. It brings something else, too--the lost journal from Henry Hudson's tragic search for a passage to Cathay in 1611. In the hands of a greedy sailor, the journal is merely an object to sell. But for Robert Bylot--a once-great maritime explorer--the book is a painful reminder of a past he'd rather forget. As Bylot relives his memories of a plague-ridden city, of the mysterious alchemist John Dee, and of mutiny in the frozen wastes of Hudson Bay, an age-old mystery is both revealed and solved. A finalist for the 2007 Governor

General's Literary Award, the jury said, "In this engrossing historical adventure, John Wilson paints a vivid picture of a bygone era involving Henry Hudson's fateful search for the elusive Northwest Passage, an alchemist, mysterious passengers, and enigmatic maps. The Alchemist's Dream fascinates from start to finish. Set against the thrilling backdrop of the quest for the Northwest Passage, The Alchemist's Dream is a riveting tale of exploration, ambition, and betrayal."

Lovewit has left for his hop-yards in London, and he has left Jeremy, his butler, in charge of his house in Blackfriars. Jeremy, whose name in the play is Face, lives in the house with Subtle, a supposed alchemist, and Dol Common, a prostitute. The three run a major con operation. The play opens with an argument that continues throughout the play between Subtle and Face. It concerns which of them is the most essential to the business of the con, each claiming his own supremacy. Dol quells this argument and forces the conmen to shake hands. The bell rings, and Dapper, a legal clerk, enters, the first gull of the day. Face takes on the role of "Captain Face", and Subtle plays the "Doctor."

The Alchemist (Spanish Edition) Harper Collins

This study traces the figure of the alchemist in Western literature from its first appearance in Dante down to the present. From the beginning alchemy has had two aspects: exoteric or

operative (the transmutation of baser metals into gold) and esoteric or speculative (the spiritual transformation of the alchemist himself). As scholarly interest in alchemy intensified, writers were attracted to the figure of the alchemist and his quest for power. The figure of the alchemist in literature provides a seismograph for major shifts in intellectual and cultural history.

In this provocative and dreamy parable, a young man disillusioned by the corruption of his homeland sets out on a quest to find Gebel, the land of perfection, from which no one has ever returned. On his way, Ibn Fattouma passes through a series of very different lands--realms where the moon is worshipped, where marriage does not exist, where kings are treated like gods, and where freedom, toleration, and justice are alternately held as the highest goods. All of these places, however, are inevitably marred by the specter of war, and Ibn Fattouma finds himself continually driven onward, ever seeking. Like the protagonists of A Pilgrim's Progress and Gulliver's Travels, Naguib Mahfouz's hero travels not through any recognizable historical landscape, but through timeless aspects of human possibility.

A 400-year history of the development of alchemy in England that brings to light the evolution of the practice. In medieval and early modern Europe, the practice of alchemy promised extraordinary physical transformations. Who would not be amazed to see base metals turned into silver and gold, hard iron into soft water, and deadly poison into elixirs that could heal the human body? To defend such claims, alchemists turned to the past, scouring ancient books for evidence of a lost alchemical heritage and seeking to translate their secret language and obscure imagery into replicable, practical effects. Tracing the development of alchemy in England over four hundred years, from the beginning of the fourteenth century to the end of the seventeenth, Jennifer M. Rampling illuminates the role of alchemical reading and experimental practice in the broader context of national and scientific history. Using new manuscript sources, she shows how practitioners like George Ripley, John Dee, and Edward Kelley, as well as many previously unknown alchemists, devised new practical approaches to alchemy while seeking the support of English monarchs. By reconstructing their alchemical ideas, practices, and disputes, Rampling reveals how English alchemy was continually reinvented over the space of four centuries, resulting in changes to the science itself. In so doing, The Experimental Fire bridges the intellectual history of chemistry and the wider worlds of early modern patronage, medicine, and science.

Differentiated book- It has a historical context with research of the time-An outbreak of plague in London forces the gentleman Don Agudo to flee temporarily to the countryside, leaving his house in charge of his servant, Jeremiah. He takes advantage of the situation to use the house as a place to commit misdeeds, calling himself "Captain Cara" and using Sutil, a scammer, and Dol Ramplona, a prostitute. His first client is Gallardo, the secretary of a lawyer, who wants Sutil to use his supposed necromantic powers to invoke a spirit that helps him in his bets. The second victim is Droguis, a tobacco seller who wants to start a profitable business. After this, comes a wealthy nobleman, Sir Epicurus Mammon, who wants to get the philosopher's stone for himself because he believes it will bring him great material and spiritual wealth. He is accompanied by Frowning, a skeptic who discredits the idea of alchemy, who suspects that Sutil is a thief.Mammon, by chance,

sees Dol for what they say is the insane sister of a nobleman. For his part, Sutil manages to get mad at Ananias, an Anabaptist, and demands that he return with a member of greater rank in his sect, such as Tribulation. Droguis returns and receives false advice about how to set up his business. It also brings the news that a young and rich widow (lady Docil) and her brother Mochete have arrived in London. At that moment, Sutil and Cara, blinded by greed and ambition, go out in their search to win over the widow. Later, the Anabaptists return and agree to pay for the goods, which are actually Mammon's, to turn them into gold. Droguis takes Mochete there, who upon

learning that Sutil is a talented matchmaker, rushes to bring his sister; while Droguis is implied that with a good payment he could secure his wedding with the widow. Mammon knows Dol and, although he had been told that she was the sister of a nobleman who had gone crazy, this does not throw him back and, therefore, makes him compliments of the most extravagant.
