Award finalist in the mystery/suspense category of USA Book News Best Books 2010 awards When word reaches her in war-torn Afghanistan that her beloved Uncle Richard has been brutally murdered, globe-trotting photojournalist Abigale Portmann reluctantly abandons her assignment and returns to the rolling hills and rocky relationships of her past in the picturesque equestrian community of Middleburg, Virginia--a place she has painstakingly avoided for 17 years. While the sheriff thinks the murder is a random robbery gone bad, Abigale soon becomes convinced her uncle was slain by someone he knew. Suspicion swirls among colorful characters in the tweedy, foxhunting crowd, including a superficial nouveau riche social climber, the lazy heir to an old-money fortune, and, most painfully to Abigale, her former childhood sweetheart. As the gripping plot unfolds, friends become suspects and family ties are tested, until events spin out of control and the riveting tale races to a terrifying finish.

FinTech, especially digital payments, is a fascinating space. More than trillion dollars' worth of digital payments are done, and we are 'just getting started'. Online payments space is attractive and intriguing to many. A young graduate wants to build a career in this domain, a user wants to know how payments are done and a merchant wants to know the processes. Just like India, full of diversity, even India's payments ecosystem is full of different types of payment instruments, payment service providers, and solutions that adhere to complex processes while getting constantly shaped and re-shaped by Government, RBI, new business models, and other market forces. One can refer RBI website or read Visa documents or NPCI's product specs to learn. But those documents are far too technical and loaded with heavy jargons. The blogs of the FinTech companies are more like sales pitches than giving neutral understanding about the topic. How can one go about learning about this domain? I had that question when I started my career in FinTech. Over the years, I learnt from others and from experience. Based on my learnings, I started a blog 'Auth n Capture'. After more than 2 years and ~60 articles later, here I am writing this book. This book is a beginner's guide for FinTech enthusiasts and professionals to understand the basics of India's payments ecosystems.

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

About the Book The book talks about the legal structure of a foundation, governance process, delegation of authority, how to develop a business plan, how to arrange funding plan, how to set up and handle operations of these foundations including setting up financial systems, budgeting, forecasting, internal controls and risk management, human resources and information technology systems. All the systems and processes highlighted in the book have been practically implemented and are based on real life experiences of laying down strategies and execution of processes implemented. Endorsement The not for profit world is a large and growing segment of economic activity globally. As economies grow and wealth accumulates, the urge to make a lasting, intergenerational contribution to human welfare is a deep part of our nature. Many enter this new world without a firm grasp of the financial structures that underpin the not for profit world. Into this gaps steps Biswajeet Chatterjee, with his new book Best Practices for a Global Not for Profit Organization. The book describes in clear and simple terms the fundamental accounting principles and regulatory requirements of the not for profit world. Best Practices for a Global Not for Profit Organization offers, in one place, in clear a simple language, a badly needed guide for all those new and established in this world. Not only does the book provide an outline of what is needed financially, it also provides a clear description how to navigate through the regulatory requirements that are often much different from those of the for profit world. Biswajeet Chatterjee is uniquely qualified to write this text. He is currently the Chief Financial officer of ACCESS Health International, a not for profit organization which is active in Asia, South Asia, Europe, the Middle East and the Americas. He has written more than ten books on finance and accounting covering a wide range of topics including (International Finance Reporting Standards, Corporate Financial Reporting, Corporate Governance, risk management, financial analysis for decision making and Business Valuation, to name a few). I am pleased to recommend Best Practices for a Global Not for Profit Organization enthusiastically and without reservation. William A Haseltine PhD

Familiarity with guarantees and how they function under various national jurisdictions are essential for principals, guarantors, and beneficiaries of international contracts. This enormously useful handbook provides a practical overview of the guarantee regimes in twenty-eight European countries, with country-by-country contributions from regional expert practitioners and academics. For easy comparison, each country report follows the same structure, from preliminary discussion on the provisions of a guarantee to its negotiation, drafting, and enforcement. Focusing on specific issues to consider at every stage, each chapter provides detailed information and guidance on such aspects as the following: . who can issue guarantees; . limitations as to the type of obligations which may be subject to a guarantee; . issues relating to the protection of the contracting parties; . formal requirements which need to be complied with; . stamp duties or other tax payable; . presence of implied terms; . legal framework applicable to joint and several obligations; . modification of the situation; . conditions for release and actions to be taken to ensure a valid release; . opening of bankruptcy proceedings against the principal; . court enforcement; and . incorporation of uniform rules. Each chapter includes references and model guarantee forms that readers can use to draft their own documents. Invaluable to corporate counsel and law firms with an international practice, this peerless handbook will prove the first order of business in trade negotiations across Europe, among European nations themselves as well as with their global partners.

The Asian Infrastructure Investment Bank, first opened in 2016, is a 100 billion dollar multilateral development bank purpose-built to support infrastructure projects that enhance regional economic productivity. Its arms reach far: in its first two years, AIIB has financed transport systems such as national motorways in

Pakistan, railways in Oman, and rural roads in India; energy projects including natural gas pipelines in Azerbaijan and hydropower plants in Tajikistan; and the redevelopment of impoverished areas in Indonesia. Initiated by China, its membership is global, with regional powers from Korea to Saudi Arabia, and key players from Europe, Africa, and Latin America. In a text that will appeal to general readers and legal specialists alike, Natalie Lichtenstein examines the Bank's mandate, investment operations, finance, governance, and institutional set up, as well as providing detailed analyses of the similarities and differences it has with other development banks - charting AIIB's story so far and anticipating its future.
