Cupid and Psyche Apuleius - Cupid and Psyche is a story from the Latin novel *Metamorphoses*, also known as *The Golden Ass*, written in the 2nd century AD by Apuleius. It concerns the overcoming of obstacles to the love between Psyche (Soul or Breath of Life) and Cupid (Desire), and their ultimate union in a sacred marriage.

"As the psalms are a microcosm of the Old Testament, so the Expositions of the Psalms can be seen as a microcosm of Augustinian thought. In the Book of Psalms are to be found the history of the people of Israel, the theology and spirituality of the Old Covenant, and a treasury of human experience expressed in prayer and poetry. So too does the work of expounding the psalms recapitulate and focus the experiences of Augustine's personal life, his theological reflections and

his pastoral concerns as Bishop of Hippo."--Publisher's website.

This is the extended and annotated edition including \* an extensive annotation of almost 10,000 words about the oracles in religion \* an interactive table-of-contents \* perfect formatting for electronic reading devices THE Sibyls occupy a conspicuous place in the traditions and history of ancient Greece and Rome. Their fame was spread abroad long before the beginning of the Christian era. Heraclitus of Ephesus, five centuries before Christ, compared himself to the Sibyl "who, speaking with inspired mouth, without a smile, without ornament, and without perfume, penetrates through centuries by the power of the gods." The ancient traditions vary in reporting the number and the names of these weird prophetesses, and much of what has been handed down

to us is legendary. But whatever opinion one may hold respecting the various legends, there can be little doubt that a collection of Sibylline Oracles was at one time preserved at Rome. There are, moreover, various oracles, purporting to have been written by ancient Sibyls, found in the writings of Pausanias, Plutarch, Livy, and in other Greek and Latin authors. Whether any of these citations formed a portion of the Sibylline books once kept in Rome we cannot now determine; but the Roman capitol was destroyed by fire in the time of Sulla (B. C. 84), and again in the time of Vespasian (A. D. 69), and whatever books were at those dates kept therein doubtless perished in the flames. It is said by some of the ancients that a subsequent collection of oracles was made, but, if so, there is now no certainty that any fragments of them remain.

Friedrich Hölderlin's only novel, *Hyperion* (1797-99), is a fictional epistolary autobiography that juxtaposes narration with critical reflection. Returning to Greece after German exile, following his part in the abortive uprising against the occupying Turks (1770), and his failure as both a lover and

a revolutionary, *Hyperion* assumes a hermitic existence, during which he writes his letters. Confronting and commenting on his own past, with all its joy and grief, the narrator undergoes a transformation that culminates in the realisation of his true vocation. Though Hölderlin is now established as a great lyric poet, recognition of his novel as a supreme achievement of European Romanticism has been belated in the Anglophone world. Incorporating the aesthetic evangelism that is a characteristic feature of the age, *Hyperion* preaches a message of redemption through beauty. The resolution of the contradictions and antinomies raised in the novel is found in the act of articulation itself. To a degree remarkable in a prose work of any length, what it means is inseparable from how it means. In this skilful translation, Gaskill conveys the beautiful music and rhythms of Hölderlin's language to an English-speaking reader.

The author of *Impact* uses this compilation of inspiring stories of disabled people to convey ten important life lessons to help anyone. This book reveals that people with disabilities are the invisible force that has shaped history. They have been instrumental in the growth of freedom and birth of democracy. They have produced heavenly music and exquisite works of art. They have unveiled the scientific secrets of the universe. They are among our most popular comedians, poets, and storytellers. And at 1.2 billion, they are also the largest minority group in the world. Al Etmanski offers ten lessons we can all learn from people with disabilities, illustrated with short, funny, inspiring, and thought-provoking stories of one hundred individuals from twenty countries. Some are familiar, like Michael J. Fox, Greta Thunberg, Stephen Hawking, Helen Keller, Stevie Wonder, and Temple Grandin. Others deserve to be, like Evelyn Glennie, a virtuoso percussionist who is deaf—her mission is to teach the world to listen to improve communication and social cohesion. Or Aaron Philip, who has revolutionized the runway as the first disabled, trans woman of color to become a professional model. The time has come to recognize people with disabilities for who they really are: authoritative sources on creativity, love, sexuality, resistance, dealing with adversity, and living a good life. “This book reminds us of what we have in common: the power to create a good life for ourselves and for others, no matter what the world has in store for us.” —Michael J. Fox “Hopefully the universal lessons in this book will not only empower all of us to trampoline to our highest potential but also move the global disability rights movement to achieve the success it fully deserves—so we can all live in a more just and equitable world.” —Susan Sygall, disability activist and MacArthur fellow “Etmanski engages every reader, whether new to the world of disability or an old hand, with thoughtful insights on the value of difference. This book made me laugh, made me cry, made me proud.” —Yasmine Laroche, former chair, Muscular Dystrophy Canada
