The Book of the Moon Penguin

A richly illustrated real-time reading guide that brings to life the world created by Deborah Harkness in the All Souls series, retracing the events of the bestselling novels with illuminating behind-the-scenes details. Look for the hit series "A Discovery of Witches," now streaming on AMC+, Sundance Now, Shudder, and Max! A world of witches, vampires, and daemons. A manuscript that holds the secrets of their past and the key to their future. Diana and Matthew—the forbidden love at the heart of the adventure. The All Souls Trilogy began with A Discovery of Witches. It continued with Shadow of Night. Now, as The Book of Life has brought Deborah Harkness's #1 New York Times bestselling trilogy to its conclusion, re-immense yourself in the enchanting fantasy world she has created and enrich your experience of the heart-stopping finale.

Exploring the Night Sky Turtleback Books
 "Mary Robison's short stories are short, subtle, and substantial . . . Her ironic sense of detail bursts from every sentence." —Vogue
 An Amateur's Guide to the Night stands as a perfect example of Mary Robison's beloved narrative style: purposeful, clipped, and devastating in its restraint. Reflecting on the life of disaffected youth, these stories speculate on how they often manage to remain deferent towards the rest of society—and document how spectacularly they often fail. "These thirteen stories are glimpses from a moving train into lit parlors, dinettes, bedrooms and dens . . . Think of Robison as the engineer, blowing the whistle, calling the stops and starts; invisible when you want to ask her why we're stalled here in the middle of nowhere, between stations, jobs, relationships and decisions." —Los Angeles

What I Found in a Thousand Towns

Penguin

Bold and inventive in style, *City of Night* is the groundbreaking 1960s novel about male prostitution. Rechy is unflinching in his portrayal of one hustling 'youngman' and his search for self-knowledge among the other denizens of his neon-lit world. As the narrator moves from Texas to Times Square and then on to the French Quarter of New Orleans, Rechy delivers a portrait of the edges of America that has lost none of its power. On his travels, the nameless narrator meets a collection of unforgettable characters, from vice cops to guilt-ridden married men eaten up by desire, to Lance O'Hara, once Hollywood's biggest star. Rechy describes this world with candour and understanding in a prose that is highly personal and vividly descriptive.

A Night to Remember Createspace

Independent Publishing Platform

Winner of the 1987 New York Academy of Sciences Children's Science Book Award, *Exploring the Night Sky* is aimed at novice star gazers anxious to expand their astronomical repertoire beyond the Big and Little Dippers. Dickinson has designed a superb introduction to astronomy that is clear, concise, and very "user friendly" no matter what the child's age. 50 color photographs and illustrations.

The Night I Followed the Dog National

Geographic Books

A Morris Award Finalist Longlisted for the National Book Award For fans of *The Book Thief* and *The Boy in the Striped Pajamas* comes a lushly illustrated novel about a teen Holocaust survivor who must come to terms with who she is and how to rebuild her life. "A tour de force. This powerful story of love, loss, and survival is not to be missed." --KRISTIN HANNAH, #1 New York Times bestselling author of *The Nightingale* After losing her family and everything she knew in the Nazi concentration camps, Gerta is finally liberated, only to find herself completely alone. Without her papa, her music, or even her true identity, she must move past the task of surviving and on to living her life. In the displaced persons camp where she is staying, Gerta meets Lev, a fellow teen survivor who she just might be falling for, despite her feelings for someone else. With a newfound Jewish identity she never knew she had, and a return to the life of music she thought she lost forever, Gerta must choose how to build a new future. "What the Night Sings is a book from the heart, of the heart, and to the heart. Vesper Stamper's *Gerta* will stay with you long after you turn the last

page. Her story is one of hope and redemption and life--a blessing to the world." --Deborah Heiligman, award-winning author of *Charles and Emma* and *Vincent and Theo* A WALL STREET JOURNAL BEST CHILDREN'S BOOK OF 2018 A KIRKUS REVIEWS BEST BOOK OF 2018 *The World of All Souls* Createspace Independent Publishing Platform Specifically written for absolute beginners and casual stargazers without a telescope, this guide highlights over 125 astronomical events in 2018 - all of them visible with just your eyes. Written by a former freelance writer for *Astronomy* magazine, every event has a full color depiction of the sky and a description that's jargon-free and easy to understand. The guide showcases events visible in both the evening and pre-dawn sky and includes: *Pairings of the Moon with the planets, bright stars and star clusters *The best opportunities to see Mercury, Venus, Mars, Jupiter and Saturn *Meteor showers *Bright stars and constellations You don't need to be an expert. You don't need to know the jargon. You just need a calendar, clear skies and a desire to explore the universe above and beyond you!

BONUS Buy the paperback and get the Kindle edition FREE Praise for previous editions: "Fantastic information on all things visible in the night sky." - Eric Barnett, March 17th, 2017 "If you are interested in what is in the night sky this is a great resource especially for beginners. A nice introduction to astronomy without using a telescope." - S. White, November 16th, 2015 "This is my third book from Mr. Bartlett and this one is as good as the others. I recommend it to all the beginners in my astronomy club." - Darren C. Bly, August 15th, 2015

If On A Winter's Night A Traveler New World Library

The BBC's "face of space" explores all things lunar in this comprehensive guide to the folklore, facts, and possible futures of our only natural satellite. Have you ever wondered if there are seasons on the moon or if space tourism will ever become

widely accessible? So has Dr. Maggie Aderin-Pocock, astronomer and host of the BBC's docuseries, The Sky at Night. In this lucidly written guide, Aderin-Pocock takes readers on a fascinating lunar journey. Aderin-Pocock begins with a basic overview—unpacking everything from the moon's topography and composition to its formation and orbit around the Earth. She examines beliefs held by ancient civilizations, the technology that allowed for the first moon landing, a brief history of moon gazing, and how the moon has influenced culture throughout the years. Looking to the future, she delves into the pros and cons of continued space travel and exploration. Throughout the book are sidebars, graphs, and charts to enhance the facts as well as black-and-white illustrations of the moon and stars.
