The Whisky Distilleries of the United Kingdom JHU Press

An imaginative natural history survey of the wide world of spirits, from whiskey and gin to grappa and moonshine In this follow-up book to A Natural History of Wine and A Natural History of Beer, authors Rob DeSalle and Ian Tattersall

yet again use alcoholic beverages as a lens through which to gain a greater appreciation of natural history. This volume considers highly alcoholic spirits in the context of evolution, ecology, history, primatology, molecular biology, physiology, neurobiology, chemistry, and even astrophysics. With the help of illustrator Patricia Wynne, DeSalle and Tattersall address historical and cultural aspects and ingredients, the distillation process, and spirits and their effects.

They also call on an international group of colleagues to contribute chapters on brandy, vodka, tequila, whiskies, gin, rum, eaux-de-vie, schnapps, baiju, grappa, ouzo, and cachaça. Covering beverages from across the globe and including descriptions of the experience of tasting each drink, this book offers an accessible and comprehensive exploration of the scientific dimensions of spirits.

Moral Standards of the Scotch-Irish
... Macmillan

Describes the history of the Bryson families of North Carolina, Tennessee and Texas, starting with Scotch-Irish immigration to the US in the 1700s, through to Davis and Gladys Bryson in the 20th century. Includes extensive photos of original documents,

illustrations of life during each generation, discussions of what life was like for each family, and coverage of many different branches of the family. The author writes of the old photographs, letters, clippings, and historic information that he and two of his cousins collected: "I realized that many of these items resided with a single individual and might soon be gone. The idea of a way to make this information available to a wider range of friends and relatives started to form. Thus, I felt inspired to write this book." "It was surprising to me to see the large number of our ancestors who in every sense of the word were true pioneers and moved to the very edge of a new frontier. Hence, the title of this book: The Bryson Ancestors--On the Edge of New

Frontiers."

Uncle Sam's Fact Book of the World War
University of Georgia Press

This book examines the role of the Scots in the development of Canadian sport. The evidence from the wide range of primary and secondary sources cited by the author proves that the Scottish contribution was significant.

Northern Ireland, the United States and the Second World War University of Georgia Press

In 1885, Alfred Barnard was charged with the task of visiting and reporting on every active Whisky distillery throughout Scotland, Ireland and England. It took him two exhaustive years. In this book you will see the distilleries through his eyes. His detailed descriptions of every step in the distilling process is work that

remains unparalleled to this day. But that's only part of the story. As he and his companions traveled the countryside, he fell in love with Scotland and all its grandeur as well as the lush landscapes of Ireland. As you read through this book - presented as an ebook for the very first time - you'll fall in love, as well. Part technical document and part travelogue, you're almost getting two books in one intertwined volume. Granted, this text lacks the visual beauty and splendor of the fine print editions, but the words stand up on their own and will transport you to a Victorian adventure that was, is and always will be one of a kind. This edition does not contain the additional writings of Alfred Barnard that are found in recent print editions, just the text of his original book. There are two

additional chapters from his writings giving added detail for Glenglassaugh and Glenfarclas.

The Scots-Irish in the Hills of Tennessee

John Wiley & Sons

Linguists have sporadically noted peculiarities of pronunciation, lexis and morphosyntax in the speech of European Americans in the Pittsburgh area, and Pittsburgh speech, locally known as “Pittsburghese”, has been a topic of discussion in the Pittsburgh area for decades. This variety has never before been systematically documented, however. The first and only scholarly book to describe Pittsburgh-area varieties of English, Pittsburgh Speech and Pittsburghese is an essential reference tool for anyone studying the dialect of the Pittsburgh area and the

only textbook choice for anyone teaching about it.

Getting ready to tackle the AP U.S.

History exam? AP U.S. History For

Dummies is a practical, step-by-step guide that will help you perfect the skills and review the knowledge you need to achieve your best possible score!

Discover how to identify what the questions are really asking and find out how to combine your history knowledge with context clues to craft thoughtful essays. Try your hand at two true-to-life AP exams, complete with detailed answer explanations and scoring guides. You’ll find out how to put together a game plan, develop a study strategy, decode the Political – Economic – Social

(PES) answer secret, and understand exactly what's going to be on the stress. This easy-to-understand guide reviews all periods of U.S. history, from the country's earliest inhabitants to the present day. Ease your mind on stress day and feel completely prepared by completing the two practice exams with answers and explanations. Find out how to: Prepare a study plan for the time leading up to the exam Decode your score and learn how to get the best score Put your knowledge to work Approach the different types of questions: multiple choice, document-based, and essay questions Navigate all exam topics, from the Native Americans to the present day Analyze and connect political, economic, and social themes Recognize trick words Complete with

lists of ten monster event topics AP wants you to know, ten unstoppable cultural trends, and ten key court decisions, AP U.S. History For Dummies will help you ace this test!
Family Life in 17th- and 18th-Century America Aaron Barker Publishing
With an array of cocktails both classic and cutting edge, this brightly illustrated guide proves whiskey is for everyone. Oaky, smoky, young, or old, whiskey is a versatile and lively spirit that's been the backbone of cocktails since the old-fashioned was new. From the highlands of Scotland to Bourbon County, Kentucky, whiskey distilleries have spread across the world, and today there are multitudes of styles and flavors to complement any manner of mixer. This beautifully illustrated book will introduce

you to the wider world of malts while showcasing the true potential of whiskey and bourbon. Author Lance Mayhew, award-winning mixologist and Certified Specialist of Spirits, explains everything you need to know: how to choose the right spirit, mix the ultimate Manhattan, and find the perfect cocktail for any occasion. From grown-up scotch and sodas, celebratory mint juleps, or playful picklebacks, *Whiskey Made Me Do It* has recipes here for any mood, any event, and any drinker.

... Abstracts of Reports... Wythe Avenue Press

The Scotch-Irish began emigrating to Northern Ireland from Scotland in the seventeenth century to form the Ulster Plantation. In the next century these Scottish Presbyterians migrated to the

Western Hemisphere in search of a better life. Except for the English, the Scotch-Irish were the largest ethnic group to come to the New World during the eighteenth century. By the time of the American Revolution there were an estimated 250,000 Scotch-Irish in the colonies, about a tenth of the population. Twelve U.S. presidents can trace their lineage to the Scotch-Irish. This work discusses the life of the Scotch-Irish in Ireland, their treatment by their English overlords, the reasons for emigration to America, the settlement patterns in the New World, the movement westward across America, life on the colonial frontier, Scotch-Irish contributions to America's development, and sites of Scotch-Irish interest in the north of Ireland.

Appalachian Folkways Fairleigh Dickinson Univ Press
In Northern Ireland, The United States and the Second World War, Simon Topping analyses the American military presence in Northern Ireland during the war, examining the role of the government at Stormont in managing this 'friendly invasion', the diplomatic and military rationales for the deployment, the attitude of Americans to their posting, and the effect of the US presence on local sectarian dynamics. He explores US military planning, the hospitality and entertainment provided for American troops, the renewal and reimagining of historic links between Ulster and the United States, the importation of 'Jim Crow' racism, 'Johnny Doughboys' marrying 'Irish Roses', and

how all of this impacted upon internal, transatlantic and cross-border politics. This study also draws attention to influential and understudied individuals such as Northern Ireland's Prime Minister Sir Basil Brooke and offers a reassessment of David Gray, America's minister to Dublin. As a result, it provides a comprehensive examination of largely overlooked aspects of the war and Northern Ireland more generally, and fills important gaps in the history of both. Northern Ireland, The United States and the Second World War is essential for students and scholars interested in the history of Northern Ireland, American-Irish relations, the Second World War on the UK home-front, and wartime transatlantic diplomacy. *The Bryson Ancestors on the Edge of*

New Frontiers Bloomsbury Publishing

This volume brings together work by linguists and linguistic anthropologists not only on southern varieties of English, but also on other languages spoken in the region. The contributors, who often draw from their own involvement in language maintenance or linguistic heritage movements, engage several of the fields' most pressing issues as they relate to the southern speech communities: tension between linguistic scholarship and linguistic activism; discourse genres; language contact; language ideology; and the relationship between language shift, language maintenance, and cultural reproduction. Acknowledging the role of immigration and settlement in shaping southern

linguistic and cultural diversity, the volume covers a range of Native American, African American, and Euro-American speech communities. One essay explores the implementation of "dialect awareness programs" and the ethics of the relationship between researchers and North Carolina's Lumbee and Ocracoke communities. Another essay focuses on a single Appalachian community to explore the interplay between linguistic variables commonly associated with Appalachian speech and others commonly associated with African American speech. Other essay topics include Creek language preservation efforts by the Seminole Tribe of Florida, the history of language contact and linguistic diversity in the Carolinas, and the changing relationship

between English and Mvskoke in Oklahoma. Also covered are the stereotypes, varied realities, and language ideologies associated with Appalachian speech communities; the mobilization of dialect by Cajun English speakers for creating humor, expressing solidarity, and setting boundaries; and the creative use of academic and religious discursive models in the construction of Melungeon and Appalachian Scotch-Irish discourses and identities.

Three Dobbins Generations at Frontiers CRC Press

Dispelling much of what he terms the 'mythology' of the Scotch-Irish, James Leyburn provides an absorbing account of their heritage. He discusses their life in Scotland, when the essentials of their

character and culture were shaped; their removal to Northern Ireland and the action of their residence in that region upon their outlook on life; and their successive migrations to America, where they settled especially in the back-country of Pennsylvania, Virginia, the Carolinas, and Georgia, and then after the Revolutionary War were in the van of pioneers to the west.

Scottish Emigration to Colonial America, 1607-1785 Elsevier

This book is a backstage pass into the world of small-scale distilling of whiskies, gins, vodkas, brandies, and more. The reader, the ultimate spirits aficionado, will learn how water and grain are transformed into the full range exquisite, timeless liquors. There are few books available that explore the actual craft of

distilling in such detail. Most of the other spirits books chronicle the historical side of the distilling world or focus on the flavors of various vintages. Our book will be the consummate insider's guide to distilling techniques. Bill Owens' original photography, the result of two cross-country road trips, offers comprehensive illustration of the microdistilling world.

Northern Ireland Britannica Educational Publishing

In his first work of nonfiction, bestselling novelist James Webb tells the epic story of the Scots-Irish, a people whose lives and worldview were dictated by resistance, conflict, and struggle, and who, in turn, profoundly influenced the social, political, and cultural landscape of America from its beginnings through the present day. More than 27 million

Americans today can trace their lineage to the Scots, whose bloodline was stained by centuries of continuous warfare along the border between England and Scotland, and later in the bitter settlements of England's Ulster Plantation in Northern Ireland. Between 250,000 and 400,000 Scots-Irish migrated to America in the eighteenth century, traveling in groups of families and bringing with them not only long experience as rebels and outcasts but also unparalleled skills as frontiersmen and guerrilla fighters. Their cultural identity reflected acute individualism, dislike of aristocracy and a military tradition, and, over time, the Scots-Irish defined the attitudes and values of the military, of working class America, and even of the peculiarly populist form of

American democracy itself. *Born Fighting* is the first book to chronicle the full journey of this remarkable cultural group, and the profound, but unrecognized, role it has played in the shaping of America. Written with the storytelling verve that has earned his works such acclaim as “captivating . . . unforgettable” (the *Wall Street Journal* on *Lost Soliders*), Scots-Irishman James Webb, Vietnam combat veteran and former Naval Secretary, traces the history of his people, beginning nearly two thousand years ago at Hadrian’s Wall, when the nation of Scotland was formed north of the Wall through armed conflict in contrast to England’s formation to the south through commerce and trade. Webb recounts the Scots’ odyssey—their clashes with the

English in Scotland and then in Ulster, their retreat from one war-ravaged land to another. Through engrossing chronicles of the challenges the Scots-Irish faced, Webb vividly portrays how they developed the qualities that helped settle the American frontier and define the American character. *Born Fighting* shows that the Scots-Irish were 40 percent of the Revolutionary War army; they included the pioneers Daniel Boone, Lewis and Clark, Davy Crockett, and Sam Houston; they were the writers Edgar Allan Poe and Mark Twain; and they have given America numerous great military leaders, including Stonewall Jackson, Ulysses S. Grant, Audie Murphy, and George S. Patton, as well as most of the soldiers of the Confederacy (only 5 percent of whom owned slaves, and who

fought against what they viewed as an invading army). It illustrates how the Scots-Irish redefined American politics, creating the populist movement and giving the country a dozen presidents, including Andrew Jackson, Teddy Roosevelt, Woodrow Wilson, Ronald Reagan, and Bill Clinton. And it explores how the Scots-Irish culture of isolation, hard luck, stubbornness, and mistrust of the nation's elite formed and still dominates blue-collar America, the military services, the Bible Belt, and country music. Both a distinguished work of cultural history and a human drama that speaks straight to the heart of contemporary America, *Born Fighting* reintroduces America to its most powerful, patriotic, and individualistic cultural group—one too often ignored or

taken for granted.

The Sporting Scots of Nineteenth-century Canada Bloomsbury Publishing Northern Ireland, Scotland, and Wales—storied lands that have sparked the global imagination through their legends and centuries-old traditions—often seem to be eclipsed by the neighboring England. While there are many similarities between them, each is culturally distinct, with languages, traditions, and identities not shared by the others. But even as Northern Ireland, Scotland, and Wales each work to safeguard their unique heritages, they have also worked together and with England, despite the often tense relationships between them that have at times made coexistence difficult and independence movements frequent. The

histories, peoples, and traditions of these remarkable lands are the subjects of this comprehensive volume.

Scotch Irish Foodways in America

Quarry Books

Country music in the Carolinas and the southern Appalachian Mountains owes a tremendous debt to freedom-loving Scotch-Irish pioneers who settled the southern backcountry during the eighteenth and nineteenth centuries. These hardy Protestant settlers brought with them from Lowland Scotland, Northern England and the Ulster Province of Ireland music that created the essential framework for "old-time string band music." From the cabins of the Blue Ridge and Great Smoky Mountains to the textile mills and urban centers of the Carolina foothills, this

colorful, passionate, heartfelt music transformed the culture of America and the world and laid the foundation for western swing, bluegrass, rockabilly and modern country music. Author Michael Scoggins takes a trip to the roots of country music in the Carolinas.

Linguistic Diversity in the South

University Press of America

This "sophisticated guide for fans of Irish whiskey" explores the history, distilleries, and pubs—and includes twelve original cocktails (The Wall Street Journal). An Irish whiskey guru, two bartender behemoths, and an adept writer combine forces to create this comprehensive guide to Irish whiskey. Starting with an introduction to the history of whiskey in Ireland, the authors explain what makes each style unique.

An illustrated tour of the four Irish provinces features twenty-two distilleries and some of Ireland's most iconic bars and pubs. From Barley to Blarney links rich historic heritage with today's whiskey boom and a look ahead at the future for Irish whiskey producers. Then the fun really begins as the masterminds behind 2016's "World's Best Bar," Dead Rabbit Grocery and Grog, share twelve original mixed-drink recipes tailor-made for Irish spirits.

The Scotch-Irish Jim Bryson

In *The Changing Nature of Racial and Ethnic Conflict in United States History*, Leslie Tischauser examines racial and ethnic violence throughout the history of the United States, from the arrival of Christopher Columbus, to the presidency of George W. Bush. Tischauser focuses

on racial and ethnic violence independent of other historical themes. His aim is to provide discussion of an issue that many are normally reluctant to talk about- race and its impact on the development of American society. Many ethnic and racial groups are included in this study, from Native Americans, Spaniards, Hispanics, Aleuts, Asians, and Africans to Germans, Scotch-Irish, Irish, French Canadians and other European immigrants. According to Tischauser, viewing history from the point of view of what happened to these groups, over time, forces us to rethink the story of the American past, and what we think we know.

The Official Harvard Student Agencies Bartending Course, 3rd Edition Andrews McMeel Publishing

This fascinating multivolume set provides a unique resource for learning about early American history, including thematic essays, topical entries, and an invaluable collection of primary source documents. In 1783, just months after the United States achieved independence from Great Britain, General George Washington was compelled to convince his officers not to undertake a military coup of the Congress of Confederation. Had the planned mutinous coup of the Newburgh Conspiracy gone forward, the American experiment may have ended before it even began. The pre-colonial and colonial periods of early American history are filled with accounts of key events that established the course of our nation's development. This expansive

three-volume set provides entries on a wide variety of topics and themes in early American history to elucidate how the United States came to be. Written in straightforward language, the encyclopedic entries on social, political, cultural, and military subjects from the pre-Columbian period through the creation of the Constitution (roughly 1400–1790) will be useful for anyone wishing to deeply investigate the who, what, where, when, and why of early America. Additionally, the breadth of primary documents—including personal diaries, letters, poems, images, treaties, and other legal documents—provides readers with firsthand sources written by the men and women who shaped American history, both the famous and the less well known. Each of the three

volumes also presents thematic essays on highlighted topics to fully place the individual entries within their proper historical context and heighten readers' comprehension.

The Changing Nature of Racial and Ethnic Conflict in United States History
Yale University Press

Explains how to mix a variety of cocktails and provides advice on methods for serving alcoholic beverages, throwing a cocktail party, and finding a bartending job.

Dictionary of races of peoples Walter de Gruyter GmbH & Co KG

James Dobbins'(b. 1740, Ireland) story begins in Augusta Co., Va. James and Elizabeth (Stephenson) Dobbins spent their formative years, were married, and began their family. Their sons, Robert

Boyd and John, were b. 1783 &'85. The family migrated to Abbeville & Pendleton, SC. James & Elizabeth had seven children. Four daughters and their husbands were: Mary w/John H. Morris (emigrated to Franklin Co., TN), Elizabeth w/George H. Hillhouse (emig. to Giles Co. & Lawrence Co., TN), Sarah w/Hugh F. Callaham (emig. to St. Clair Co., Ala.), Jane w/George Liddell (emig. to Noxubee Co. & Winston Co., MS). Their last-born, James, Jr., b. 1790, died young at home. They & their spouses' families were Scotch-Irish settlers in backcountry of SC. Ten families representing two generations were pioneers and products of history, geography, and culture of frontiers in SC. Six children migrated west, north, & south to new frontiers. Grandchildren of James & Elizabeth

became the third Dobbins generation at farther frontiers.
