Sudan Bradt Travel Guides

This new, thoroughly updated fifth edition of Bradt's Serbia remains the most acclaimed guide available to a country which in recent years has welcomed an increasing number of foreign tourists to discover its attractive rolling countryside, lively cities, excellent food and friendly people. Development of tourism infrastructure continues apace in Serbia and this new edition reflects all the changes and trends of recent years, including Belgrade's increasing popularity as a weekend break destination, the continued evolution and rising quality of accommodation across all price brackets in both the capital and beyond, the development of Belgrade's Savamala riverfront area, the rise in popularity of bird-watching holidays, the possibilities for wine tours, and the increase in visitors to the EXIT festival held annually in Novi Sad and to the Guca trumpet festival in central Serbia. Particularly notable since the previous edition is Serbia's dramatic improvement in English-language facilities for visitors, with many towns and cities now having tourist information centres with helpful staff, all of which are detailed in this guide. Written by an expert author, the Bradt guide to Serbia offers up-to-date background information on the country's geography, history, economy, politics and people, as well as a strong emphasis on culture and the arts - music, literature, cinema and art - and on natural history, including a thorough overview of Serbia's best wildlife sites. Comprehensive and up-to-date listings of the best places to stay and eat according to budget are covered, along with reliable public transport information to enable you to travel independently with confidence. This guide recommends facilities and places of interest that will hold appeal for all types of visitor - from impecunious young travellers seeking a fun-filled city break to older visitors who prefer a slower pace and wish to immerse themselves in local tradition. Despite burgeoning interest, Serbia remains one of the least known corners of Europe. Belgrade and second city Novi Sad are lively, cosmopolitan and welcoming, while rural Serbia, with its hidden monasteries and gorgeous countryside, is an undiscovered gem. With the Bradt guide you will be able to discover all this intriguing country has to offer.

A new, thoroughly updated 12th edition of Bradt's Madagascar, the leading and most comprehensive guide to this unique island nation, written by Hilary Bradt, who first visited in 1976 and has returned roughly 35 times, and Daniel Austin, who has visited 12 times and continues to travel there annually. Bradt's Madagascar is by far the most thorough guide to the country in English and is written and updated by established experts whose unparalleled knowledge of Madagascar combines with contributions from over 50 experts in a book which has been the most authoritative guide to the country for three decades. It covers national parks and protected areas and includes itineraries to suit all interests and budgets, plus details of around 1,000 hotels and restaurants. Madagascar is like nowhere else on earth. It is fascinating not only zoologically and botanically, but culturally, linguistically, historically and geologically. This vast island is the fourth largest in the world and also the oldest. This is part of the reason why it has evolved into an incredible hotspot for biodiversity, with a truly unique flora and fauna that is more than 80% endemic to the island, and with new species being described virtually on a daily basis. Madagascar is also the only place where you can

see wild lemurs. Almost a quarter of the world's 450-or-so primates exist only here. With Bradt's Madagascar you can visit tropical rainforest and seek out its incredible flora and fauna; explore the otherworldly eroded limestone spires, most famously at Tsingy de Bemaraha National Park - Madagascar's most striking landscape; discover the beach-fringed islands around Nosy Be with their fabulous scuba diving, snorkelling, kayaking, whale-watching and fishing opportunities; and make the most of a host of adventuring and sporting possibilities, including surfing, windsurfing, kitesurfing, rock climbing, tree climbing, caving, river trips, mountain biking, distance running, quad biking, trekking and hiking. Also covered are the UNESCO World Heritage Site of Ambohimanga; the renowned Avenue des Baobabs, one of the country's most photographed scenes, and information on the best birdwatching spots: Madagascar has almost 300 avian species, with a high proportion of endemics, including five whole endemic families.

This is the first volume of the Biographical Dictionary of South Sudan, an ongoing research project begun in July 2001. As the subtitle of the book, the Notable Firsts, suggests, this volume is primarily concerned with historically significant South Sudanese personalities, deceased and contemporary alike, and their illustrious careers. Luminaries from all walks of life are featured, including politics, traditional leadership, civil service, academia, and sports. This book has several main aims. Its primary aim is historical. It presents biographical profiles or accounts of the entrants and highlights the accomplishments and contributions of entrants in their respective fields of expertise or in the public sphere. But the aim of this study is not only to preset entrants biographies. It is mostly to place the entries in a broader historical perspective. The biographical dictionary, though concerned about personal accounts of entrants, it discusses pivotal events that shaped the history of South Sudan. The biographies are essentially linked to historical events that shaped or influenced the country's trajectory throughout the period in question. Central to understanding the history of South Sudan is the biographical information of personalities who have taken part in major events or who have assumed important offices in the country.

This new second edition of Suffolk, part of Bradt's distinctive Slow series of regional UK guides, remains the only full-blown standalone guide to this gentle but beguiling county. Written by expert local author Laurence Mitchell, this is the guide of choice for anyone wanting to get under the skin of the region and discover what makes it tick. This new edition offers a very personal view of the county, providing up-to-date information on the best places to visit, stay and eat, covering not just popular sights but focusing also on those places beyond the usual tourist trail. Suffolk's popularity as a destination is not waning, and events such as the Latitude festival in July or the Aldeburgh Music Festival at Britten's Snape Maltings, not to mention the use of the RSPB's Minsmere Reserve as a base for BBC's Springwatch, are all helping to keep the county's profile raised. Southwold, Aldeburgh, Orford, Walberswick and Dunwich are all covered, as is the great variety of landscapes, from undulating farmland and sandy heaths to extensive forests such as Rendlesham and Thetford in the Brecks, important nature reserves and the soft, dreamy coastal landscapes of river estuaries, remote marshes, reed-beds, beaches, shingle banks, sand spits and dunes. Also included are Constable Country and the Stour valley, Bury St Edmunds, Framlingham, Bungay, Beccles and Halesworth, plus information on Suffolk's wealth of medieval churches and its Anglo-Saxon heritage, notably the royal ceremonial burial site at Sutton Hoo and the reconstructed Anglo-Saxon village at West Stow. Bradt's Suffolk makes a virtue of being selective and pointing the reader to the cream of the area. It is organised into locales to encourage 'stay put' tourism, with the opportunity to explore each locale thoroughly. There are also plenty of options for car-free travel: walking, cycling, river boats and local buses and trains. Written in an entertaining style, and offering a personal narrative,

authoritative information and interesting anecdotes, Bradt's Suffolk is the ideal companion with which to discover this charming corner of England.

Almost everyone on safari hopes for a glimpse of the charismatic and elusive leopard. Chui was the first of a new generation of leopards Jonathan Scott watched and photographed in Kenya's Masai Mara Game Reserve in the 1970s and 1980s. He spent every available moment watching and photographing Chui and her cubs, Light and Dark, aware that he was only privileged to do so for as long as they chose to remain visible. His classic account tells the story of the mother leopard as a solitary hunter providing for herself and her offspring. He records encounters with baboon, hyaena and man, hazards facing the cubs as they learn to fend for themselves and periods of play and relaxation. Some years after Chui disappeared, a young female appeared, Half-Tail. Jonathan and Angela have followed her and her daughter Zawadi, stars of the BBC's Big Cat Diary, for the past twenty years, bringing the story up to date. Nobody has studied leopards more closely or known them more intimately. Jonathan says: 'The update is based on our work with Half-Tail and Zawadi from both the pictures and text perspective - Angie worked with us on Big Cat Diary as the stills photographer from 1996 and before that we both worked with Half-Tail from the time she first appeared around Leopard Gorge and Fig Tree Ridge - our kids grew up on safari with Half-Tail and

Zawadi as stars of their own Mara adventures.'

Written by long-term resident, adventurer and experienced travel writer Oscar Scafidi, this brand new Bradt publication is the most up-to-date, comprehensive travel guidebook to Tunisia produced by a mainstream publisher. Taking account of this North African country's recent political and social flux, and covering each of the nation's 24 governorates, the book's listings for hotels, restaurants and activities cater for all types of travellers and budgets. Complemented by 80 detailed maps and advice on navigating bureaucracy, this guide provides all the practical information you need to visit or explore here. The birthplace of the Arab Spring in 2010, Tunisia is readily accessible from European cities. From relaxing on Mediterranean beaches to camel-trekking or quad-biking in the Sahara Desert and marvelling at the moonscapes of Chott el Djerid salt lake, this fascinating nation crams much excitement and interest into a small area. In the 2,000-year-old capital of Tunis, originally a Berber settlement, you can haggle in the ancient Medina, browse artefacts at the Bardo National Museum or enjoy fresh seafood at waterfront restaurants. Archaeology aficionados will hardly know where to begin in Africa's fourth-richest country for UNESCO World Heritage Sites: the remnants of Ancient Carthage, perhaps, or superbly preserved Roman ruins, such as the world's second-largest amphitheatre of El Jem? Djerba, where Berbers, Muslims and the world's oldest Jewish community have co-existed for centuries, is a world-renowned kitesurfer's paradise. Sunseekers have over 1,000km of coastline on which to bask - why not sip cocktails at the upmarket resort of Gammarth, just north of Tunis - while hedonists can party at a mammoth 30-hour rave in the desert at Ong Jmal. Meanwhile, film buffs can make pilgrimages to sets used in the Star Wars movies or explore canyons used by Steven Spielberg for an Indiana Jones film, and culture vultures can visit Islamic sites such as the Ribat of Monastir fort or 7th-century city of Kairouan. With a language appendix covering Tunisian Arabic and French, detailed context that helps visitors travel with awareness and sensitivity, and in-depth travel information, Bradt's Tunisia is an indispensable practical companion to exploring this exciting country.

The Bradt guide to Svalbard (Spitsbergen), including Franz Josef Land and Jan Mayen, is a unique, standalone guidebook to this evocative Arctic archipelago, a place that is plunged into darkness for four months each year and where there are 4,000 snow scooters for a population of just 2,500. This new sixth edition has been thoroughly updated throughout and offers new material on everything from adventure tours to accommodation, environmental change to restaurants. Also covered are the restoration of Barentsburg and the opening of Svalbard's historic mines to visitors. Newly updated and amended, this edition reflects important recent changes in the archipelago, making it the perfect guide to a quintessential bucket-list destination. Possibly the most remote destination in the developed world, Svalbard is as off the beaten track as you can get in Europe today. A destination where there are more polar bears than people, Svalbard is the planet's most northerly settled land and the top (if not the end) of the world. It was on and around Svalbard that most of David Attenborough's 'Frozen Planet' was filmed. A trip to Svalbard easily lends itself to notching up geographic superlatives (most northerly kebab, most northerly souvenir shop, etc) and adventurous travellers seek out experiences such as husky driving and hikes across the permafrost, charmed by the island law that requires everyone to carry a rifle anywhere outside of Longyearbyen, a constant reminder of Svalbard's 3,000-strong polar bear population. The main tourist period falls in Svalbard's brief summer, from June to August, when it's light around the clock and not very cold. However, increasingly popular for winter sports - especially because the next few years will enjoy unusually high Northern Lights activity - are the so-called 'light winter' months (March-May), when there is both sunlight and snow. The winter season itself (November/December-March) offers many possibilities for outdoor adventure - and the polar night is an experience in itself. Despite winter temperatures that can drop to over 40 below zero, Svalbard's glorious mountains, majestic fjords and sprawling valleys are the perfect setting for adventurous journeys out to the back of beyond, giving visitors a unique vantage point on a unique tourist destination. This brand-new edition of Svalbard provides all of the practical and background information you'll need to explore this wild place, turning the hostile into the hospitable. Bradt's Svalbard is written by Roger Norum, an expert in the region who writes regularly on northern Norway for the press and who teaches Norwegian language and translation at University College London. He is also a Research Fellow at the University of Leeds, where he carries out research on the links between tourism, travel writing and environmental change in the European Arctic.
