The Social History of Crime and Punishment in America: A-De

Red Wheel/Weiser
Doing well with money isn't necessarily about what you know. It's about how you behave. And

behavior is hard to teach, even to really smart people. Money—investing, personal finance, and business decisions—is typically taught as a math-based field, where data and formulas tell us exactly what to do. But in the real world people don't make financial decisions on a spreadsheet. They make them at the dinner table, or in a meeting room, where personal history, your own unique view of the world, ego, pride, marketing, and odd incentives are scrambled

together. In *The Psychology of Money*, award-winning author Morgan Housel shares 19 short stories exploring the strange ways people think about money and teaches you how to make better sense of one of life's most important topics.

Tales Ridiculous and Sublime

Penguin
An “artfully presented [and] engaging” look at the insidious effects of financialization on our lives and politics by the author of *Treasure Islands* (The Boston Globe). How did the banking sector

grow from a supporter of business to the biggest business in the world? Financial journalist Nicholas Shaxson takes us on a terrifying journey through the world economy, exposing tax havens, monopolists, megabanks, private equity firms, Eurobond traders, lobbyists, and a menagerie of scoundrels quietly financializing our entire society, hurting both business and individuals. Shaxson shows how we got here, telling the story of how finance re-engineered the

global economic order in the last half-century, with the aim not of creating wealth but extracting it from the underlying economy. Under the twin gospels of “national competitiveness” and “shareholder value,” megabanks and financialized corporations have provoked a race to the bottom between states to provide the most subsidized environment for big business, encouraged a brain drain into finance, fostered instability and inequality, and turned a blind eye to

the spoils of organized crime. From Ireland to Iowa, he shows the insidious effects of financialization on our politics and on communities who were promised paradise but got poverty wages instead. We need a strong financial system—but when it grows too big it becomes a monster. The Finance Curse is the explosive story of how finance got a stranglehold on society, and reveals how we might release ourselves from its grasp. Revised with new

chapters “[Discusses] corrupt financiers in London and New York City, geographically obscure tax havens, the bizarre realm of wealth managers in South Dakota, a ravaged newspaper in New Jersey, and a shattered farm economy in Iowa . . . A vivid demonstration of how corruption and greed have become the main organizing principles in the finance industry.”

Freedom from Work
Penguin
New in paperback from the author of *Outrageous Openness*: a witty and spirited guide to radically releasing the burdens of financial fears. It's natural to crave prosperity. Some seek to manifest it in myriad ways--using anything from vision boards to writing a pretend check for a million dollars from the Bank of Divinity. Yet whatever comes, or doesn't, the mind always seems to want more. But what if there was a whole

other way? Instead of grasping and chasing, what if we offered everything--our money (or lack of it), our triumphs, our problems, our desires--fully back to Love? What if this offering itself was actually the secret to abundance? Tosha Silver, internationally beloved spiritual guide, has created a practical and powerful financial book unlike any other. Leading you through a deeply transformative eight-week process, she shares the mental, emotional, and spiritual steps that

anyone can take to learn to fully receive and prosper. Her step-by-step guidance is filled with prayers, meditations, and stories to help you find and heal the source of these fears and unworthiness. As you come to know you are part of something larger--something that you serve and that longs to serve you--you begin to feel a new sense of freedom and abundance. You yourself become a vehicle for Divine Flow.

The 30-Day Money Cleanse Penguin

“A refreshing and rigorous analysis of financial self-help that gets to the heart of identity formation in neoliberalism . . .

sociology at its best.”

—Peter Miller, London School of Economics

In this era where dollar value signals moral worth, Daniel Fridman paints a vivid portrait of Americans and Argentinians seeking to transform themselves into people worthy of millions. Following groups who practice the advice from financial success bestsellers, Fridman illustrates how the neoliberal emphasis on responsibility, individualism, and entrepreneurship binds people together with the

ropes of aspiration. *Freedom from Work* delves into a world of financial self-help in which books, seminars, and board games reject “get rich quick” formulas and instead suggest to participants that there is something fundamentally wrong with who they are, and that they must struggle to correct it. Fridman analyzes three groups who exercise principles from Rich Dad, Poor Dad by playing the board game Cashflow and investing in cash-generating assets with the

goal of leaving the rat race of employment. Fridman shows that the global economic transformations of the last few decades have been accompanied by popular resources that transform the people trying to survive—and even thrive. “A gifted observer, Fridman’s ethnographic account uncovers a unique blend of morality and economics in self-help groups pursuing their dream of financial freedom. This book contributes to economic and cultural sociology but

will also fascinate general readers.” —Viviana A. Zelizer, Lloyd Cotsen ’50 Professor of Sociology, Princeton University “A wonderful portrait of how financial technologies of the self work in modern culture.” —Marion Fourcade, University of California, Berkeley

It's Not Your Money
Penguin

“Blood-boiling...with quippy analysis...Taub proposes straightforward fixes and ways everyday people can get involved in taking white-collar criminals to task.”—San Francisco Chronicle
How ordinary Americans suffer when the rich and powerful use tax dodges or break the law to get richer and more powerful—and how we can stop it. There is an elite crime spree happening in America, and the privileged perps are getting away with it. Selling loose cigarettes on

a city sidewalk can lead to a choke-hold arrest, and death, if you are not among the top 1%. But if you're rich and commit mail, wire, or bank fraud, embezzle pension funds, lie in court, obstruct justice, bribe a public official, launder money, or cheat on your taxes, you're likely to get off scot-free (or even win an election). When caught and convicted, such as for bribing their kids' way into college, high-class criminals make brief stops in minimum security "Club Fed" camps. Operate the

scam from the executive suite of a giant corporation, and you can prosper with impunity. Consider Wells Fargo & Co. Pressured by management, employees at the bank opened more than three million bank and credit card accounts without customer consent, and charged late fees and penalties to account holders. When CEO John Stumpf resigned in "shame," the board of directors granted him a \$134 million golden parachute. This is not victimless crime. Big Dirty

Money details the scandalously common and concrete ways that ordinary Americans suffer when the well-heeled use white collar crime to gain and sustain wealth, social status, and political influence. Profiteers caused the mortgage meltdown and the prescription opioid crisis, they've evaded taxes and deprived communities of public funds for education, public health, and infrastructure. Taub goes beyond the headlines (of which there is no shortage) to track

how we got here (essentially a post-Enron failure of prosecutorial muscle, the growth of "too big to jail" syndrome, and a developing implicit immunity of the upper class) and pose solutions that can help catch and convict offenders.

This Eleventh Book of the Earth Manifesto is a compendium of thoughts and ideas that began in 2016 and evolved quickly in 2022 and 2023 in response to tumultuous events. It provides compelling understandings of the

challenges we face in the world today with growing reactionary movements that are creating global discord and unrest, and authoritarian governments, and it provides positive ideas on how we should best cope with these problems to make our societies fairer and healthier. This compilation is a work in process that also contains a lengthy analysis of Supreme Court Politics, Chicanery and Corruption, and a dated and provisional Film Script for the Earth Manifesto.

Big Dirty Money Grove Press
New York Times bestselling author Jen Sincero gets to the core of transformation: habits--breaking, making, understanding, and sticking with them like you've never stuck before. Badass Habits is a eureka-sparking, easy-to-digest look at how our habits make us who we are, from the measly moments that happen in private to the resolutions we loudly broadcast (and, erm, often don't keep) on social media. Habit

busting and building goes way beyond becoming a dedicated flosser or never showing up late again--our habits reveal our unmet desires, the gaps in our boundaries, our level of self-awareness, and our unconscious beliefs and fears. Badass Habits features Jen's trademark hilarious voice and offers a much-needed fresh take on the conventional wisdom and science that shape the optimism (or pessimism?) around the age-old topic of habits. The book includes enlightening

interviews with people who've successfully strengthened their discipline backbones, new perspective on how to train our brains to become our best selves, and offers

a simple, 21 day, step-by-step guide for ditching habits that don't serve us and developing the habits we deem most important. Habits shouldn't be impossible to reset--and

with healthy boundaries, knowledge of--and permission to go after--our desires, and an easy to implement plan of action, we can make any new goal a joyful habit.
