Sometimes the past
just won't stay buried.
DC Gary Goodhew is on
a pub crawl when he
smells smoke. He
rushes to the scene
and finds a raging
house fire, too far gone
to stop. The blaze
leaves two corpses, but
a young boy—who was
also inside—is now
missing. As the
investigation deepens,
it becomes clear that

the boy's mother,
Kimberley, knows
much more than she is
letting on. With the
clock ticking on a
child's life, Goodhew
begins to sift through
the ruins of Kimberley's
past—and uncovers an
unsettling picture of
deceit, murder, and
accelerating danger.

Print Editions
The 18th century was a
wealth of knowledge,
exploration and rapidly
growing technology
and expanding record-

keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. Western literary study flows out of eighteenth-century works by Alexander Pope, Daniel Defoe, Henry Fielding, Frances Burney, Denis Diderot, Johann Gottfried Herder, Johann

Wolfgang von Goethe, and others. Experience the birth of the modern novel, or compare the development of language using dictionaries and grammar discourses. ++++ The below data was compiled from various identification fields in the bibliographic record of this title. This data is provided as an additional tool in helping to insure edition identification: ++++ British Library T040935 Purporting to be vol. 3 of the work by Sterne, but in fact a spurious continuation by John Carr. There was nothing simple about what Brody Carter needed to do... With any other woman, it would be. But not with Michaela Doucet. He barely knew the provocative beauty and already her face haunted his dreams. Yet he could not let that affect him.

A colourful tribute to one of the UK's most iconic cities with a foreword by Sir Paul McCartney. With its historic port and unique docks next to the mighty river Mersey, Liverpool enchants tourists and locals alike. Its bustling

music scene, past and present, defines the city. Pictures of The Beatles and Cilla Black, stars of the 60's, quickly turn a pub visit into a trip down memory lane. The city's vibrancy shines through every page of drawings, illustrations and paintings. They take us to Liverpool's grand cathedral and characteristic waterfront, up St Johns Beacon, the city's radio and observation tower, into quirky antique shops and busy pubs. Liverpool's very own artists highlight the city's personality so uniquely, that it will inspire visits to all its secret corners.

Petrol & Diesel Steidl *There I Was* marks a shift in medium and a conceptual departure for Collier Schorr. She is best known for her photographic studies of a real and imagined town in southern Germany, works which tease the accepted artifice of photography to forge an appropriated remembrance of

German histories. Schorr found drawing a more acute medium to describe events that took place in the neighbourhoods of her childhood, specifically the muscle car counter culture of the 1960s in Long Island and Queens, NY. This history is related through the short but spectacular life of charismatic 19 year-old drag car racer Charlie Astoria Chas Snyder and his 67 Ko-Motion Corvette. At the age of four Schorr accompanied her father, an automotive photographer and journalist, to a local race track where she watched Astoria Chas work on his car. A subsequent article followed, with the now eerie headline While Astoria Chas is doing his thing in Vietnam his

friends are racing his L-88. By the time the article was published, Charlie Snyder had died in action in Vietnam. There I Was is Snyder's story and Schorr's dilemma. He was there, she was not. The project examines the role of the photograph as proof of the photographer's presence, territory and view, and the difficulty of representing any past without the theatricality of re-staging it. Based entirely on photography, the book engages with the medium and simultaneously challenges the role of the photograph as document of the past. Using a collision of source materials for the drawings, beginning with her

fathers images and Snyders own snapshots taken in Vietnam, Schorr then draws from professional reportage pictures, so as to describe, literally sketch out, one monumental trip from Queens to Vietnam and back. These drawings are contrasted by reproductions of vintage car magazine articles and Schorrs own photograph portraits. *There I Was* is a complex and multi-faceted look at escape, culture, dreams and mortality, conjuring up an expressionistic portrait of the dichotomies of the late 1960s in a fractured wartime America.

This book is about Trauma-Informed Care (TIC) for people who have intellectual disabilities (ID). The provision of health and social care services is becoming more trauma informed, including in services for people with ID, where the experience of trauma is being increasingly acknowledged. This book addresses a gap in resources to guide those supporting people with ID by showing how services can work in a trauma informed way.

Including contributions from authoritative professionals in the field, and a powerful account of abuse from

an expert by experience, the book provides an overview of the history which underpins the importance of trauma and TIC, and the impact of trauma on people who have ID. The second part of the book looks at trauma informed services and a growing and diverse range of therapeutic interventions, including positive behavioural support, intensive interaction, cognitive behavioural psychotherapy, dyadic interpersonal psychotherapy, developmental and psychodynamic approaches.
