**Hearing on National Defense Authorization Act for Fiscal Year 2004, H.R. 1588, and Oversight of Previously Authorized Programs Before the Committee on Armed Services, House of Representatives, One Hundred Eighth Congress, First Session** R & L Education Apprenticeship education and training programs for today's youth and tomorrow's workers have become increasingly important in today's schools. This guide provides examples and tools for designing and developing apprenticeship education and training programs. Industry, labor, education, and government leaders are concerned with strategies to improve the skills of America's current and future workers. A key to the solution is shared responsibility for worker preparation based upon industry derived training standards, which this guide outlines.
