Scientific Publishers -  
Competition Tutor  
SGN. The eBook Human Anatomy  
Multiple Choice Objective Questions  
Covers Previous Years' Papers Of Various  
Exams With Answers. The eBook Is Very  
Useful For Medical PG Entrance And  
Recruitment Exams.

**SURGERY SIXER FOR NBE** Springer  
This second edition provides 2400  
multiple choice questions on human  
anatomy and physiology, and some  
physical science, separated into 40  
categories. The answer to each question  
is accompanied by an explanation. Each  
category has an introduction to set the  
scene for the questions to come.  
However, not all possible information is  
provided within these Introductions, so  
an Anatomy and Physiology textbook is  
an indispensable aid to understanding  
the answers. The questions have been  
used in end-of-semester examinations  
for undergraduate anatomy and  
physiology courses and as such reflect  
the focus of these particular courses and  
are pitched at this level to challenge  
students that are beginning their  
training in anatomy and physiology. The  
question and answer combinations are  
intended for use by teachers, to select  
questions for their next examinations,

and by students, when studying for an  
upcoming test. Students enrolled in the  
courses for which these questions were  
written include nursing, midwifery,  
paramedic, physiotherapy, occupational  
therapy, nutrition and dietetics, health  
sciences, exercise science, and students  
taking an anatomy and physiology  
course as an elective.

In this book, four new sections have been added in this edition containing multiple choice questions (MCQs), problem oriented case studies, very

short question with answer and Biochemistry course curriculum of different Universities. MCQ will definitely be useful to the students appearing for PG entrance examinations later.

Problems relating to biochemical case studies have recently been introduced in question papers of many medical universities and in this context, these will be of immense help to the students for diagnostics analysis. In this new edition very recent questions have been incorporated, some short questions with answers and new case history are added. Guide line of Medical Council of India (MCI) for Biochemistry course curriculum is appended, so the students will be aware about the must know and desirable to know area in the subject. Through separate chapters have been earmarked for paper I & II in the courses of study of different Universities, sometimes the question setters do not strictly adhere to the instructions laid down in it, while setting questions. Although it happens occasionally the students have to bear this anomaly as there is no remedy for it.
