Comics Beyond the Page in Latin America is a cutting-edge study of the expanding worlds of Latin American comics. Despite lack of funding and institutional support, not since the mid-twentieth century have comics in the region been so dynamic, so diverse and so engaged with pressing social and cultural issues. Comics are being used as essential tools in debates about, for example, digital cultures, gender identities and political

disenfranchisement.

This book proposes an innovative conceptual framework to explore cultural organizations at a multilateral level and cultural mediators as key figures in cultural and institutionalization processes. Specifically, it analyzes the role of Ibero-American mediators in the institutionalization of Hispanic and Lusophone cultures in the first half of the 20th century by means of two institutional networks: PEN (the non-governmental writer's association) and the International Institute of Intellectual Cooperation (predecessor to UNESCO). Attempting to combine cultural and global history, sociology, and literary studies, the book uses an analytical focus on intercultural networks and cultural transfer to investigate the multiple activities and roles that these mediators and cultural organizations set in motion. Literature has traditionally studied major figures and important centers of cultural production, but other regions and localities also played a crucial role in the development of intellectual cooperation. This book

reappraises the place of Ibero-America in international cultural relations and retrieves the lost history of key secondary actors. The book will appeal to scholars from international relations, global and cultural history, sociology, postcolonial Studies, world and comparative literature, and New Hispanisms. In 1633, at age eleven, Bankei Yotaku was banished from his family's home because of his consuming engagement with the Confucian texts that all schoolboys were required to copy and recite. Using a hut in the nearby hills, he wrote the word Shugyo-an, or "practice hermitage," on a plank of wood, propped it up beside the entrance, and settled down to devote himself to his own clarification of "bright virtue." He finally turned to Zen and, after fourteen years of incredible hardship, achieved a decisive enlightenment,

whereupon the Rinzai priest traveled unceasingly to the temples and monasteries of Japan, sharing what he'd learned. "What I teach in these talks of mine is the Unborn Buddha-mind of illuminative wisdom, nothing else. Everyone is endowed with this Buddha-mind, only they don't know it." Casting aside the traditional aristocratic style of his contemporaries, he offered his teachings in the common language of the people. His style recalls the genius and simplicity of the great Chinese Zen masters of the T'ang dynasty. This revised and expanded edition contains many talks and dialogues not included in the original 1984 volume.

include cell signaling, various risk factors, the pathophysiology of disease instigation and distribution, mechanistic insights into metal and nanoparticle toxicity, neural toxicity, nongenotoxic carcinogenicity, immune and idiosyncratic toxicity, prevention, biomarkers related to disease progression and therapeutic strategies. In particular, this book provides valuable insight for researchers, pathologists, and clinicians with an interest in toxicological research and cellular impairments with special emphasis on therapeutic advancement.

The Geography of the Imagination

University of Hawaii Press

The first comprehensive English translation of poetry from the renowned Portuguese author of *The Book of Disquiet*: “An arresting . . . body of work” (Newsday). Born in 1888, Fernando Pessoa is widely considered Portugal’s greatest modern poet and author. With an introduction that illuminates the life and work of this elusive literary giant, *Fernando Pessoa & Co.* is the most comprehensive and elegantly translated edition of Pessoa’s poetry available in English. Pessoa was as much a creator of

personas as he was of poetry, prose, and criticism. He wrote under what he referred to as “heteronyms,” numerous alter egos with fully fleshed identities and writing styles, who supported and criticized each other’s work in the margins of his drafts and in the literary journals of the time. Ranging widely over the possibilities of language, Pessoa’s poetry echoes symbolist verse, Portuguese folk song, and futurist manifesto. From spare minimalism to a revolutionary exuberance that recalls Walt Whitman’s *Leaves of Grass*, Pessoa’s oeuvre was radically new and anticipated contemporary literature to an unnerving degree. *Fernando Pessoa & Co.* is “a beautiful one-volume course in the soul of the twentieth century” (Booklist). *The Routledge Portuguese Bilingual Dictionary (Revised 2014 edition)* San Francisco : R & E Research Associates *Freedom in the World*, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 195 countries and fifteen territories are used by policymakers, the media,

international corporations, civic activists, and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. The *Freedom in the World* political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development. *Portuguese-English Bilingual Visual Dictionary* Zondervan For a more encompassing and stimulating picture of Modernism seen as a movement of the 20th century, a broad spectrum of work across many countries we must

explore its diversity. Portuguese Modernism manifested itself both in visual art and in literature, and made a vigorous contribution to this time of profound cultural change. Indeed, the sociocultural transformations that marked the early 20th century in Portugal are still current. This volume provides a critical guide for students and teachers, contributed by an array of scholars with unparalleled knowledge of the period, its artists and its writers. Steffen Dix is Research Fellow at the Institute of Social Science, University of Lisbon; Jeronimo Pizarro is Research Fellow at the Linguistics Centre, University of Lisbon.

Poetry from *Beyond the Grave* is the first English publication of a large selection of poems by the Brazilian medium and Spiritist leader Francisco Cândido “Chico” Xavier. These poems, originally collected in the volume *Parnaso de Além-Túmulo*, were dictated to Xavier by a variety of spirits of Brazilian poets from the afterlife, as journeying souls or as witnesses of the spiritual city *Nosso Lar*, “our house.” Poetry from *Beyond the Grave* is a veritable collection of haunted writing, in which poets present their posthumous work as if they were alive. The brilliant translation by Vitor Pequeno is supplemented by an extensive afterword by Jeremy Fernando, who traces what it means to speak through the other.

The Colour and Colour Naming conference, held in 2015 at the University of Lisbon, offered a chance to explore colour naming processes from a cross-linguistic approach. The conference was an initiative of the working group Lexicography And Lexicology from a Pan-European Perspective, itself part of the COST action

European Network of Lexicography. The working group investigates the various ways by which vocabularies of European languages can be represented in dictionaries and how existing information from single language dictionaries can be displayed and interlinked to better communicate their common European heritage. The proceedings gather together a selection of studies originally presented at the conference. The first section of the volume outlines a Pan-European perspective of colour names; the second section is devoted to the categorisation and lexicographic description of colour terms.

Elizabeth DeLoughrey invokes the cyclical model of the continual movement and rhythm of the ocean (“tidialectics”) to destabilize the national, ethnic, and even regional frameworks that have been the mainstays of literary study. The result is a privileging of alter/native epistemologies whereby island cultures are positioned where they should have been all along—at the forefront of the world historical process of transoceanic migration and

landfall. The research, determination, and intellectual dexterity that infuse this nuanced and meticulous reading of Pacific and Caribbean literature invigorate and deepen our interest in and appreciation of island literature. —Vilsoni Hereniko, University of Hawai'i "Elizabeth DeLoughrey brings contemporary hybridity, diaspora, and globalization theory to bear on ideas of indigeneity to show the complexities of 'native' identities and rights and their grounded opposition as 'indigenous regionalism' to free-floating globalized cosmopolitanism. Her models are instructive for all postcolonial readers in an age of transnational migrations." —Paul Sharrad, University of Wollongong, Australia *Routes and Roots* is the first comparative study of Caribbean and Pacific Island literatures and the first work to bring indigenous and diaspora literary studies together in a sustained dialogue. Taking the "tidalectic" between land and sea as a dynamic starting point, Elizabeth DeLoughrey foregrounds geography and history in her exploration of how island writers inscribe the complex relation between routes and roots. The first section looks at the sea as history in literatures of

the Atlantic middle passage and Pacific Island voyaging, theorizing the transoceanic imaginary. The second section turns to the land to examine indigenous epistemologies in nation-building literatures. Both sections are particularly attentive to the ways in which the metaphors of routes and roots are gendered, exploring how masculine travelers are naturalized through their voyages across feminized lands and seas. This methodology of charting transoceanic migration and landfall helps elucidate how theories and people travel, positioning island cultures in the world historical process. In fact, DeLoughrey demonstrates how these tropical island cultures helped constitute the very metropolises that deemed them peripheral to modernity. Fresh in its ideas, original in its approach, *Routes and Roots* engages broadly with history, anthropology, and feminist, postcolonial, Caribbean, and Pacific literary and cultural studies. It productively traverses diaspora and indigenous studies in a way that will facilitate broader discussion between these often segregated disciplines. [Anarchism in Latin America](#) Penguin

"A readable and up-to-date introduction to a most fascinating culture" from a world-renowned Sumerian scholar (American Journal of Archaeology). The Sumerians, the pragmatic and gifted people who preceded the Semites in the land first known as Sumer and later as Babylonia, created what was probably the first high

civilization in the history of man, spanning the fifth to the second millenniums B.C. This book is an unparalleled compendium of what is known about them. Professor Kramer communicates his enthusiasm for his subject as he outlines the history of the Sumerian civilization and describes their cities, religion, literature, education, scientific achievements, social structure, and psychology. Finally, he considers the legacy of Sumer to the ancient and

modern world. "An uncontested authority on the civilization of Sumer, Professor Kramer writes with grace and urbanity." —Library Journal
