This book is a historical study of modern Gujarat, India, addressing crucial questions of language, identity, and power. It examines the debates over language among the elite of this region during a period of significant social and political change in the late nineteenth and early twentieth centuries. Language debates closely reflect power relations among different sections of society, such as those delineated by nation, ethnicity, region, religion, caste, class, and gender. They are intimately linked with the process in which individuals and groups of people try to define and project themselves in response to changing political, economic, and social environments. Based on rich historical sources, including official records, periodicals, literary texts, memoirs, and private papers, this book vividly shows the impact that colonialism, nationalism, and the process of nation-building had on the ideas of language among different groups, as well as how various ideas of language competed and negotiated with each other. Language, Identity, and Power in Modern India: Gujarat, c.1850-1960 will be of particular interest to students and scholars working on South

Asian history and to those interested in issues of language, society, and politics in different parts of the modern world.

"In recent decades anthropologists have learned to think of themselves as prisoners of text. In the new orthodoxy, ethnography is best viewed as a certain kind of literary genre, textual criticism provides a master theory for understanding all manner of social and cultural phenomena, and young anthropologists show a reluctance to leave the comfort zone of the archive and the library where, whatever else happens, no unruly interlocutor is going to do something unseemly like answering back. This brilliant and humane volume promises to put paid to all that. Anthropology is the product of an encounter with the world we call fieldwork, and fieldwork is an edgy business in which researchers necessarily put themselves at intellectual, political and ethical risk. This volume restores that edgy business to the heart of our concerns, and reminds anthropologists that their distinctive way of engaging the world can be the source of real intellectual excitement, and as worthy of sophisticated theoretical reflection as anything they do."--Jonathan Spencer, University of Edinburgh
