ODONNELL HEATH

Where the World Ended Profile Books

James Mark Baldwin left a legacy that has yet to be fully examined, one with profound implications for science and the humanities. In some sense it paralleled that of his friend Charles Sanders Peirce, whose semiotics became understood only a century later. Baldwin was trying to make sense of complex biological and social processes which only now have come into the limelight as biological sciences, and slowly but surely, have re-emerged in psychology. Baldwin's focus on development, based on the observation of his own children and extrapolated to his general theoretical scheme, is fully in line with where our contemporary biological sciences are heading. This is exemplified by the bounded flexibility of the work of the genetic system. The general principle of persistent exploration of the environment with the result of creating novelty, which was the core of Baldwin's theoretical system, has since the 1960s become the guiding idea in genetics. Contemporary developmental science is rooted in Baldwin's thinking. In his new introduction, Jaan Valsiner shows that Baldwin's Genetic Theory of Reality demonstrates how human beings are in their nature social beings, establishes an alternative conceptualization of evolutionary theory, and formulates a system of developmental logic, all of which serve as the foundation for developmental psychology as a whole. Th is is a work of social science rediscovery long overdue.

Zweite Heimat Berghahn Books

Focusing on the re-unification of Germany, this text asks what happens when a political and economic system collapses overnight. It concentrates especially on how these changes have affected certain "border zones" of daily life - including social organization, gender and religion.

How the Specter of Communism Is Ruling Our World Volume 1 Springer-Verlag

Hier ist sie nun, unsere E-Bibel, die kleine digitale Schwester der Freienbibel von Freischreiber, dem Berufsverband für freie Journalistinnen und Journalisten. Die beliebte Rubrik "Wie machst du das?" aus der Freienbibel, dem Handbuch für freie Journalistinnen und Journalisten wird in diesem eBook fortgeführt. 96 Autorinnen und Autoren haben Antworten gegeben und Tipps und Tricks aus ihrem Arbeitsalltag verraten. Denn ab und zu tauchen Fragen auf, die die Routine durchbrechen. Eine gute Antwort wäre da Gold wert: Müsste ich bei diesem Auftrag nicht besser eine Berufshaftpflicht haben? Warum stehen Arbeitsaufwand und Honorar bei mir in keinem guten Verhältnis? Und was mache ich, wenn mein Interviewpartner ein seltsamer Vogel ist? Antworten auf diese Fragen und noch viele mehr gibt es in diesem E-Book. Viel Spaß beim Lesen !

Das deutsche Alibi BoD – Books on Demand

In the 1960s and 70s, a new youth consciousness emerged in Western Europe which gave this period its distinct character. This volume demonstrates how international developments fused with national traditions, producing specific youth cultures that became leading trendsetters of emergent post-industrial Western societies.

[Francia, Band 45](#) Little Brown GBR

Dass der Staatssicherheitsdienst der DDR die Menschen in Ostdeutschland umfassend observierte, kontrollierte und schikanierte, ist bekannt. Weitgehend unbekannt ist, in welchem Maße das Klima aus Misstrauen, Angst und Kontrolle auch die eigenen Familien der Stasi-Mitarbeiter betraf. Die Journalistin Ruth Hoffmann zeigt auf der Grundlage zahlreicher Interviews und intensiver Recherchen erstmals, wie sich die beklemmende Atmosphäre der Totalüberwachung auf den Familienalltag der Stasi-»Hauptamtlichen«, vor allem auf die betroffenen Kinder ausgewirkt hat. Was wussten, was ahnten diese Kinder von der Tätigkeit ihrer Eltern? Welche Auswirkungen hatte deren geheime Mission auf das Familienleben? Wie gingen sie mit der Tatsache um, dass ihr Vater bei der Stasi war? Diesen Fragen geht Ruth Hoffmann in ihrem bewegenden Buch nach. Ausführlich kommen Betroffene zu Wort. Dabei wird deutlich, wie nachhaltig diese Kinder von der Stasi-Tätigkeit eines Elternteils oder Familienmitglieds geprägt wurden. Von Verdrängung über den Bruch mit den Eltern bis zu schweren psychischen Störungen reichen die Folgen. Es ist Ruth Hoffmanns Verdienst, dieses leidvolle Thema auf behutsame Weise öffentlich zu machen.

[The Art of Silence and Human Behaviour](#) V&R Unipress

Auf Grund der großen Nachfrage habe ich dieses Buch noch einmal veröffentlicht. Ich wurde 1960 geboren und bin in einem sehr linientreuen Elternhaus aufgewachsen. Im Alter von 2 bis 7 Jahren wurde ich in einem Wochenheim in Ostberlin betreut und somit von frühester Kindheit an, sehr sozialistisch erzogen. Ich beendete die 10. Klasse der POS mit sehr gutem Abschluss und erlernte den Beruf: Facharbeiterin für Fernschreibverkehr. Obwohl ich eigentlich Kindererzieherin werden wollte, folgte ich brav den Wünschen meiner Eltern und wechselte in den Staatsdienst der DDR. So wurde ich Zivilbeschäftigte bei der Kriminalpolizei. Nach zwei gescheiterten Ehen, dem Wegfall der innerdeutschen Grenze und der Arbeitsstelle war ich psychisch am Boden. Es begann eine Psychotherapie und mit ihr die Reflektion meines Lebens.

Genetic Theory of Reality Springer Nature

This book examines the phenomenon of silence in relation to human behaviour from multiple perspectives, drawing on psychological and cultural-philosophical ideas to create new, surprising connections between silence, quiet and rest. Silence and being quiet are present in everyday life and in politics, but why do we talk about it so rarely? Silence can be cathartic and peaceful, but equally oppressive and unbearable. In the form of communication, we keep secrets to protect ourselves and others, but on the other hand subjects can be silenced with dictatorial posturing - a communicative display of power - and something can be literally 'hushed up' that needs to be disclosed. In unique and engaging style, Theodor Itten explores the multi-layered internal conversation on silence in relation to the self and emotions, demonstrating why it is sometimes necessary in our modern society. Describing and analyzing human behaviour in relation to silence, the book also draws on psychoanalytic ideas by outlining the power of silence in processing our emotions and relationships and hiding innermost feelings. With rich narrative signposts providing thought-provoking and amusing insights, and interpersonal communication examined in relation to everyday life, this is fascinating reading for students and academics in psychology, philosophy, cultural studies, and related areas.

Sustainability Rating Agencies vs Credit Rating Agencies Praeger

Seit 2011 stehen Wendekinder, als letzte partiell in der DDR sozialisierte Gruppe, welche sich in Teilen selbst als Dritte Generation Ostdeutschland bezeichnen, im Fokus der Öffentlichkeit. Mit diesem Band liegt eine transdisziplinäre Betrachtung des Phänomens vor. Dabei wird das Forschungsfeld in den Dimensionen Diskurs, Typen und Positionierung(en) kartiert. Im zweiten Moment ist durch die Bildung eines Analyserasters, dem Rostocker-Generationen-Modell, eine Betrachtung der Frage nach dem „Zusammenwachsen“ der beiden deutschen Staaten gelungen. Die Vielfalt der Beiträge verdeutlicht eine initiale Erkenntnis: Es handelt sich bei den Wendekindern um eine hochgradig diverse Generation, welcher jedoch aufgrund ihrer doppelten Sozialisation eine ausgleichende triangulierende Vermittlerposition zukommt.

Film Im Zeitalter Neuer Medien II Central European University Press

The legendary CBS news journalist's selection of iconic World War II radio broadcasts from countries throughout Europe. William L. Shirer was the first journalist hired by CBS to cover World War II in Europe, where he continued to work for over a decade as a news broadcaster. This book compiles two and a half years' worth of wartime broadcasts from Shirer's time on the ground during WWII. He was with Nazi forces when Hitler invaded Austria and made it a part of Germany under the Anschluss; he was also the first to report back to the United States on the armistice between France and Nazi forces in June of 1940. His daily roundup of news from Paris, Vienna, Berlin, Rome, and London, which documented Nazi Germany and the conditions of countries under invasion and at war, became famous for its gripping urgency. Shirer brought a sense of immediacy to the war for listeners in the United States and worldwide, and his later books, including the seminal Rise and Fall of the Third Reich, became definitive works on World War II history. This collection of Shirer's radio broadcasts offers all the original suspense and vivid storytelling of the time, bringing World War II to life for a modern audience.

E-Bibel: Wie machst du das? Ch. Links Verlag

This future history of the next thirty years, imagined by bestselling author Thomas Harding, is a compelling and startling call to action. In 2020, a researcher is shocked to find a set of notebooks detailing the history of the next thirty years. Is this a hoax? Or could it be real? The notebooks, written in the year 2050, contain interview transcripts between teenage Billy and Gran Nancy. We learn about the great climate SHOCK, when global temperatures rise much faster than anticipated, resulting in catastrophic consequences for humanity. We learn about a shift away from democracy, toward unelected "ethnarchs" — heads of corporations who use their access to our personal data to competently run the world. We learn about the giant city towers where most people live, work and play inside — where it's safe from natural disasters and viral outbreaks. And between these interviews, we learn more about Billy, whose interest in the history that has been erased from the official record is causing trouble in 2050. Is it too late to change the past to save the future? Key Text Feature glossary

[Music of the Common Tongue](#) Univ of California Press

Rewriting German History offers striking new insights into key debates about the recent German past. Bringing together cutting-edge research and current discussions, this volume examines developments in the writing of the German past since the Second World War and suggests new directions for scholarship in the twenty-first century.

[Die Generation der Wendekinder](#) Groundwood Books Ltd

When someone very close to you dies your whole life changes. Everything is different. Alice is the central figure in these five inter-connected narratives, which tell of her life at times of loss. Suddenly it is no longer possible to say what the person looked like, how he spoke, cursed, smiled, how he lived his life. Objects are left behind, books, letters, pictures and every now and again you think you can see them in a crowd. Judith Hermann tells of days of transition, of waiting, of holding on and letting go-and of how clear and dazzling such days can sometimes be. Alice is a book of extraordinary power and great literary beauty from one of Europe's finest writers Alice is translated by Margot Bettauer Dembo.

[Rewriting German History](#) Berghahn Books

The brilliant second collection of stories from Germany's answer to Zadie Smith. Judith Hermann's first collection, 'The Summer House, Later', sold 250,000 hardbacks in Germany, and was shortlisted for both the IMPAC award and the Independent Foreign Fiction Prize.

Warum war ich so blind? Transaction Publishers

NEW YORK TIMES BESTSELLER • A must-read owner's manual for every body. Take a head-to-toe tour of the marvel that is the human body in this "delightful, anecdote-propelled read" (The Boston Globe) from the author of A Short History of Nearly Everything. With a new Afterword. "You will marvel at the brilliance and vast weirdness of your design." —The Washington Post Bill Bryson once again proves himself to be an incomparable companion as he guides us through the human body—how it functions, its remarkable ability to heal itself, and (unfortunately) the ways it can fail. Full of extraordinary facts (your body made a million red blood cells since you started reading this) and irresistible Brysonesque anecdotes, The Body will lead you to a deeper understanding of the miracle that is life in general and you in particular. As Bill Bryson writes, "We pass our existence within this wobble of flesh and yet take it almost entirely for granted." The Body will cure that indifference with generous doses of wondrous, compulsively readable facts and information. As addictive as it is comprehensive, this is Bryson at his very best.

[Alice](#) Thorbecke

Ohne die Motive des Handelns zu kennen, sollte nicht über Menschen geurteilt werden. Dies ist aber im Verlauf der Wiedervereinigung Deutschlands geschehen und betraf Aussagen über diejenigen, die sich mit der DDR identifiziert hatten. Der Autor befragte Anfang 1990 SED-Mitglieder und Angehörige der Staatssicherheit zu ihrem Resümee des Lebens in der DDR. Die Befragten gaben Auskunft, verzichteten in dieser Situation der unsicheren Zukunft auf klischeehafte Antworten. Fünfundzwanzig Jahre lang wurden die Texte nicht veröffentlicht. Erst jetzt scheint die Zeit reif, dass eine ruhige Rezeption solcher biografischer Selbstreflexionen möglich wird. Nun – mit größerem zeitlichen Abstand – scheint das Verstehen einer historischen Epoche möglich zu werden.

Between Marx and Coca-Cola Routledge

The fall of the Berlin Wall, and the chain of events leading up to it, arguably constitute one of the most thoroughly documented episodes in recent history. Nonetheless, most accounts have focused predominantly on high-level politics and diplomacy along with the most dramatic and photogenic public displays. End Game, a rich, sweeping account of the autumn of 1989 as it was experienced "on the ground" in the German Democratic Republic, powerfully depicting the desolation and dysfunction that shaped everyday life for so many East Germans in the face of economic disruption and political impotence. Citizens' frustration mounted until it bubbled over in the form of massive demonstrations and other forms of protest. Following the story up to the first free elections in March 1990, the volume combines abundant detail with sharp analysis and helps us to see this familiar historical moment through new eyes.

The Legacies of Two World Wars Springer Nature

In clear and elegant prose, Music of the Common Tongue, first published in 1987, argues that by any reasonable reckoning of the function of music in human life the African American tradition, that which stems from the collision between African and European ways of doing music which occurred in the Americas and the Caribbean during and after slavery, is the major western music of the twentieth century. In showing why this is so, the author presents not only an account of African American music from its origins but also a more general consideration of the nature of the music act and of its function in human life. The two streams of discussion occupy alternate chapters so that each casts light on the other. The author offers also an answer to what the Musical Times called the "seldom posed though glaringly obtrusive" question: "why is it that the music of an alienated, oppressed, often persecuted black minority should have made so powerful an impact on the entire industrialized world, whatever the color of its skin or economic status?"

So eine richtige Diktatur war das nicht... Vorstellungen Jugendlicher von der DDR Rosetta Books

Das Abhören von Telefongesprächen gehört zur Geschichte der Telefonkommunikation. Auch das Ministerium für Staatssicherheit (MfS) hat trotz eines unterentwickelten Telefonnetzes in der DDR eifrig Telefonate abgehört, mitgeschnitten und die daraus gewonnenen Informationen für die geheimpolizeiliche und geheimdienstliche Tätigkeit verwendet. Dafür unterhielt die Staatssicherheit eigene Abteilungen, die im Auftrag anderer MfS-Dienststellen gezielt Telefongespräche in der DDR, in der Bundesrepublik und auch im grenzüberschreitenden Telefonverkehr überwachten. Einer historischen Beschäftigung mit den Ergebnissen dieser Abhörpraxis sind aus datenschutzrechtlichen Gründen sehr enge Grenzen gesetzt. In diesem Buch werden erstmals Quellen veröffentlicht, die auf Telefonüberwachungsmaßnahmen zurückgehen. Neben der wissenschaftlichen Edition von rund 150 Quellen werden der zeithistorische Kontext beleuchtet, der Quellenwert diskutiert und in einem Essay aus Zeitzeugensicht die Abhörpraxis und die Folgen dargestellt. Außerdem wird die technische Arbeitsweise der Stasi-Abhörspezialisten beleuchtet. Das Buch stellt somit eine bislang wenig bekannte Quellengruppe vor, entwirft neue Blickwinkel auf die Geschichte von SED-Diktatur, MfS und Opposition und enthält vielfältige Forschungsanregungen.

[Ich-Berichte](#) BoD – Books on Demand

This book details the difference between the two rating industries, but this difference is converging all the time. The concept of investing in a more responsible and sustainable manner is drawing in some of the world's leading investors and, with it, regulations and policies are developing at the highest levels. However, the market is not getting what it needs to fully submit to the concept of responsible investing. It has called for more to be done from those tasked with injecting information into their processes, and two industries in particular have been identified as being natural partners.

It has been suggested that they are on a collision course to serve the mainstream investor, and in this book, that collision course is contextualised, explained, presented, and finally its outcome predicted.
