The Spectator Elise Faber

Annalise Sutter is a newly Turned shifter determined to get her life back on track. The problem? Her inner panther is a monster that attacks anything that breathes. She's had to let go of her old life completely to protect the people she loves, and the one thing that has kept her steady through this transition is Jaxon Barns. They've been texting for months, but he's anti-shifter and she can't tell him what she has become. When a spot on a notoriously private panther crew comes up, she jumps at the opportunity to pledge in desperation to get her animal under control. Too bad that means leaving Jaxon behind, because what human is going to put up with an out of control shifter who lives way out in the boonies? Jaxon Barns is harboring two things—a massive grizzly in his middle and an equally big chip on his shoulder about being born a shifter. He grew up in the Gray Back Crew, but can't seem to settle down long enough to stay in one place. The only thing that eases the ache of being a rogue are the text messages that come from Annalise. She feels like the only real thing in his life, and when she disappears mysteriously one day, he knows something has gone really wrong. Now he'll have to track her to panther territory to save her from herself. But maybe the panther inside of her isn't the biggest danger to Annalise's safety anymore. Perhaps now, the biggest threat to her future...is him. Content Warning: Explicit love scenes, naughty language, and piles of sexy shifter secrets. Intended for mature audiences.

'Fabulous' Eloisa James 'Smart, sexy, and always romantic' Julia Quinn 'For a smart, witty and passionate historical romance, I recommend anything by Sarah MacLean' Lisa Kleypas She lives for passion. Bold, impulsive, and a magnet for trouble, Juliana Fiori is no simpering English miss. She refuses to play by society's rules: she speaks her mind, cares nothing for the approval of the ton, and can throw a punch with remarkable accuracy. Her scandalous nature makes her a favorite subject of London's most practiced gossips . . . and precisely the kind of woman the Duke of Leighton wants far far away from him. He swears by reputation. Scandal is the last thing Simon Pearson has room for in his well-ordered world. The Duke of Disdain is too focused on keeping his title untainted and his secrets unknown. But when he discovers Juliana hiding in his carriage late one evening - risking everything he holds dear - he swears to teach the reckless beauty a lesson in propriety. She has other plans, however; she wants two weeks to prove that even an unflappable duke is not above passion. Resistance and Persuasion is the first book to analyze the nature of resistance and demonstrate how it can be reduced, overcome, or used to promote persuasion. By examining resistance, and providing strategies for overcoming it, this new book generates insight into new facets of influence and persuasion. With contributions from the leaders in the field, this book presents original ideas and research that demonstrate how understanding resistance can improve persuasion, compliance, and social influence. Many of the authors present their research for the first time. Four faces of resistance are identified: reactance, distrust, scrutiny, and inertia. The concluding chapter summarizes the book's theoretical contributions and establishes a resistance-based research agenda for persuasion and attitude change. This new book helps to establish resistance as a legitimate sub-field of persuasion that is equal in force to influence. Resistance and Persuasion offers many new revelations about persuasion: *Acknowledging resistance helps to reduce it. *Raising reactance makes a strong message more persuasive. *Putting arguments into a narrative increases their influence. *Identifying illegitimate sources of information strengthens the influence of legitimate sources. *Looking ahead reduces resistance to persuasive attempts. This volume will appeal to researchers and students from a variety of disciplines including social, cognitive, and health psychology, communication, marketing, political science, journalism, and education.

In Paradise Pines, real men didn't read romance much less write it. That is until Liam O'Toole comes to town. Unfortunately using a woman's identity to write under might get him hung. Because of a misunderstanding, a murder charge could put a rope around his neck for his own murder. Margaret Hennessey's homemade biscuits have homesick miners flocking to her table. To her utter frustration a misguided thief is stealing her biscuits only to pay with a romantically written IOU. When the town cook dies, the townsfolk need her to take over the cafe kitchen. An intrigue involving hidden gold and a band of renegade outlaws drives Liam to become the hero he's always written in his books. How else can he save not only his muse but the fiery redheaded biscuit maker who's not only his

muse but the woman he just might call his happily ever after.

First published in Germany in 1929, *The End and the Beginning* is a lively personal memoir of a vanished world and of a rebellious, high-spirited young woman's struggle to achieve independence. Born in 1883 into a distinguished and wealthy aristocratic family of the old Austro-Hungarian Empire, Hermynia Zur Muhlen spent much of her childhood travelling in Europe and North Africa with her diplomat father. After five years on her German husband's estate in czarist Russia she broke with both her family and her husband and set out on a precarious career as a professional writer committed to socialism. Besides translating many leading contemporary authors, notably Upton Sinclair, into German, she herself published an impressive number of politically engaged novels, detective stories, short stories, and children's fairy tales. Because of her outspoken opposition to National Socialism, she had to flee her native Austria in 1938 and seek refuge in England, where she died, virtually penniless, in 1951. This revised and corrected translation of Zur Muhlen's memoir - with extensive notes and an essay on the author by Lionel Gossman - will appeal especially to readers interested in women's history, the Central European aristocratic world that came to an end with the First World War, and the culture and politics of the late nineteenth and early twentieth centuries.

The first comprehensive textbook on political psychology, this user-friendly volume explores the psychological origins of political behavior. Using psychological concepts to explain types of political behavior, the authors introduce a broad range of theories and cases of political activity to illustrate the behavior. The book examines many patterns of political behaviors including leadership, group behavior, voting, race, ethnicity, nationalism, political extremism, terrorism, war, and genocide. Text

boxes highlight current and historical events to help students see the connection between the world around them and the concepts they are learning. Examples highlight a variety of research methodologies used in the discipline such as experimentation and content analysis. The "Political Being" is used throughout to remind the reader of the psychological theories and concepts to be explored in each chapter. Introduction to Political Psychology explores some of the most horrific things people do to one another for political purposes, as well as how to prevent and resolve conflict, and how to recover from it. The goal is to help the reader understand the enormous complexity of human behavior and the significant role political psychology can play in improving the human condition. Designed for upper division courses on political psychology or political behavior, this volume also contains material of interest to those in the policymaking community.

Black Morocco: A History of Slavery, Race, and Islam chronicles the experiences, identity and achievements of enslaved black people in Morocco from the sixteenth century to the beginning of the twentieth century. Chouki El Hamel argues that we cannot rely solely on Islamic ideology as the key to explain social relations and particularly the history of black slavery in the Muslim world, for this viewpoint yields an inaccurate historical record of the people, institutions and social practices of slavery in Northwest Africa. El Hamel focuses on black Moroccans' collective experience beginning with their enslavement to serve as the loyal army of the Sultan Isma'il. By the time the Sultan died in 1727, they had become a political force, making and unmaking rulers well into the nineteenth century. The emphasis on the political history of the black army is augmented by a close examination of the continuity of black Moroccan identity through the musical and cultural practices of the Gnawa.

Why economists' attempts to help poorer countries improve their economic well-being have failed. Since the end of World War II, economists have tried to figure out how poor countries in the tropics

could attain standards of living approaching those of countries in Europe and North America. Attempted remedies have included providing foreign aid, investing in machines, fostering education, controlling population growth, and making aid loans as well as forgiving those loans on condition of reforms. None of these solutions has delivered as promised. The problem is not the failure of economics, William Easterly argues, but the failure to apply economic principles to practical policy work. In this book Easterly shows how these solutions all violate the basic principle of economics, that people—private individuals and businesses, government officials, even aid donors—respond to incentives. Easterly first discusses the importance of growth. He then analyzes the development solutions that have failed. Finally, he suggests alternative approaches to the problem. Written in an accessible, at times irreverent, style, Easterly's book combines modern growth theory with anecdotes from his fieldwork for the World Bank.

Revised and relocated, this second edition of the sixth book in the popular *Loving a Rancher* Series retains the original plot and central characters. Vanessa Worthington didn't know her late husband

had lost their home until the notice came to vacate within six hours. Desperate for a place for her and her children, she travels from Atlanta to Montana Territory as a mail-order bride. She hopes to find a protective and kind man to help parent her children. One thing she'd certain--she will never again trust a man. Travis Boyd has overcome horrific difficulties and carved out a ranch for himself. His two cowboy hands are like family, but he's lonely. He longs for a loving wife and children to make his house a home. He's eager for his bride to arrive and looking forward to home-cooked meals and a tidy house. When Travis learns Vanessa has always had servants and doesn't know how to cook, do laundry, or any household chores, he is disappointed but decides to make the best of the situation. He meant his marriage vows. Vanessa can't believe he won't soon lose patience with her and change from kind to domineering like the other men in her life had been.
