## **SHYANN WARREN**

---

*Rethinking  
Globalization* David C  
Cook  
Wendy B. Sharer  
explores the rhetorical

and pedagogical  
practices through  
which two prominent  
postsuffrage  
organizations—the  
League of Women  
Voters and the  
Women's International  
League for Peace and  
Freedom—challenged

the conventions of male-dominated political discourse and trained women as powerful rhetors. *Vote and Voice* is the first book-length study to address the writing and speaking practices of members of women's political organizations in the decade after the suffrage movement. During those years, women still did not have power within deliberative and administrative organs of politics, despite their recent enfranchisement. Because they were largely absent from diplomatic circles and political parties, post-suffrage women's organizations developed rhetorical practices of public discourse to push for reform within traditional politics.

*Vote and Voice* is historically significant as well as pedagogically beneficial for instructors who connect rhetorical education with public participation by integrating writing and speaking skills into a curriculum that aims to prepare educated students and active citizens.

*Education for Cross-cultural Enrichment*  
Liverpool University Press

With more than 50 inquiry-based and child-centered activities and exercises, *A Little Drama* will help teachers (including those with no theater experience of their own) develop the body, voice, mind, and heart of young children. Use these activities to help

children navigate daily transitions, to calm children when it's time to quiet, and to develop children's creativity, sense of self, and social-emotional, physical, and literacy skills (and have a lot of fun along the way).

**What If Everybody Did That?**

Child Labor and the Industrial Revolution

Sarup & Sons

It's the 1800s, and you are a child from a poor family. You have to go to work to keep from starving. Will you:

Work as a pauper apprentice in an English factory?

Emigrate from Ireland in order to work in the New England cloth mills? Make your living on the streets of New York City selling newspapers?

Everything in this book happened to real people. And YOU CHOOSE what you do next. The choices you make could lead you to opportunity, to wealth, to poverty, or even to death.

A Little Drama Teacher Created Materials  
The Future Of Any Nation Depends Upon The Sound

Development Of Children. For Construction Of Civilized, Cultural And Happy Society, We Have To Educate And Train Our Children Properly Because Tomorrow They Would Take The Nation Towards Prosperity. The Elimination Of Child Labour And Their Rehabilitation Has Emerged As An Important Area Of Scientific Work. It Has Been Seen That A Large Number Of Child Labour Are Surviving Under Great Health And Safety Hazards. Above All The Workplace Trauma Is Widespread, Stunting The Growth Of The Child Both Physically And Mentally. Hence, Considering The Problem In Its Totality, An Effort Has Been Made To Cover The

Diverse Aspects Of The Subject. All The Articles Are Judiciously Selected From Authoritative Sources. *Ergonomics for Children* Wayne State University Press This revamped second edition provides several play interventions designed to address a variety of common mental health needs that neurodivergent children face, such as social navigation, regulation, relationship development, anxiety issues, identity struggles, and self-advocacy. Completely reorganized and with the addition of several new chapters, the book begins with a thorough presentation of how and why structured interventions are used with neurodivergent children. Special focus

is given to understanding neurodivergence, relationship and rapport building, therapy planning and goal setting, how to create a structured play intervention, the therapeutic powers of play, the role and level of involvement of the therapist, theory integration, avoiding ableist practices, and parent involvement. The second half of the book covers a wide selection of play therapy interventions for use with neurodivergent children and adolescents. The structured interventions focus on need areas related to social navigation, emotional expression, regulation, sensory processing, connection and relationship

development, executive functioning, strengths, self-advocacy, and identity. These structured play therapy interventions designed uniquely for neurodivergent children and adolescents will be valuable resources for any mental health professional working with neurodivergent youth.

### **Play and Recreation**

CRC Press

“Saath ensured communities understood not just their rights when it came to basic services but also their responsibilities. With three decades of experience in partnerships for equitable and rights-based urban development, Saath is well positioned not just to be a player,

important as that is, but to also be a resource agency, a teacher and a guru, sharing its successes and failures to other institutions who are treading a similar path.” Mr Shankar Venkateswaran, Former Chief, TATA Sustainability Group and former Country Head, American India Foundation “This book not only highlights the good work done by Saath, but also provides food for thought in terms of what needs to be done to make our cities a much better place to live than what they are today. This book will certainly help inspire people to join NGOs in their own ways and help create an atmosphere for social change that will lead to a more inclusive

growth.” Mr Dilip Chenoy, Secretary General, Federation of Indian Chamber of Commerce and Industries “Urban India needs a large number of initiatives like those taken by SAATH to solve its large and diversified problems.” Prof Chetan Vaidya, former Director of the National Institute of Urban Affairs and School of Planning and Architecture, Delhi, Trustee of Saath

**Blackness Is Burning**

Marshall Cavendish

This book is a powerful portrayal of class inequalities in the United States. It contains insightful analysis of the processes through which inequality is reproduced, and it frankly engages with methodological and analytic dilemmas usually glossed over in academic texts.

In *Child Labor and the Industrial Revolution*, two sisters work in a linen mill under horrible conditions. Years later, the girls, now women, are about to receive an honor for an interview with the

National Child Labor Committee.

**The Working**

**Children** Cambridge Scholars Publishing

In this book, Hanna Kende uses her wealth of experience to explain how psychodrama can allow psychotherapists to fundamentally change their relationships with children presenting with psychosocial, mental, or behavioral problems. Based on Kende's extensive and wide-ranging knowledge, *Psychodrama with Children* explores the origins and roots of psychodrama, and uses detailed case studies to show how psychodramatists can encourage groups of children to draw upon their natural creativity as a force for healing. The method draws on a

rich theoretical base starting from the foundational work of Moreno and Adler. The method is applicable to a wide range of children with varied symptoms (psychosomatic problems, distractibility, hyperactivity, inhibition, capable children performing poorly at school, etc.). By creating a warm climate of reciprocal tolerance and acceptance, psychodramatists allow children to express themselves freely in a group of their peers and to reshape their negative self-image. Psychodrama lets children use their natural language of play to mobilize their creative imagination, and to express their anxieties, conflicts and

problems in a symbolic mode. This approach helps children heal through their own creativity.

Psychodrama with Children will be of interest to psychodramatists, dramatherapists and child psychotherapists, as well as psychologists, psychiatrists and other child and adolescent mental health professionals.

#### Seasonal Pageants and Skits Hunter House

Students will act out the story of two young girls, Roberta and Pauline, who work at a linen mill in North Carolina in 1919. The girls must work to help support their family, so they cannot go to school. At the mill, they are treated unfairly, working in harsh, unsafe conditions. In

this script, two workers from the National Child Labor Committee (NCLC) hear the girls' story and decide to work to improve child labor laws and to make school compulsory for children. See how these efforts in the 20th Century secured a better future for upcoming generations. This Reader's Theater script features roles written to match multiple reading levels. Teachers can assign specific roles to their readers based on each student's current reading level, allowing all students to get involved in the same activity and feel successful! Students will gain confidence in their reading fluency through performance, regardless of their current reading ability. While performing with

others, students will practice performance, interacting cooperatively, reading aloud, and using expressive voices and gestures to better tell the story. These drama scripts for students are a great way to teach literacy and engage all learners!

*The Home on Gorham Street and the Voices of Its Children* Redleaf Press

For over thirty-five years, Gorman John Ruggiero trained child actors. The many productions are represented in this collection of his plays. These works include folktales, mythology, religious stories, and original works that can help children learn some of life's lessons by acting them out on stage. Ruggiero spent many years working

with children on the autism spectrum, and many of these plays were performed jointly with typically developing children to great success. This process truly enhanced the communication skills of the child actors, as well as helped develop in them an understanding of autism. Many friendships were created during the rehearsal and performance process as children learned about one another's differences and commonalities. In a world where communication is sorely lacking, Ruggiero believes that physical, emotional, and intellectual expression, found in the performing arts, is crucial for the success in personal and

professional relationships. Helping children perform these plays will advance that notion.

### **Play Interventions for Neurodivergent Children and Adolescents**

Teacher Created Materials

A play about child labor in the early twentieth century is

accompanied by a crossword puzzle.

*Smart Cities* Univ of California Press

Presents lessons and activities covering the topics of social justice and globalization.

*All Work and No Play* Springer

"Text first published in 1990 by Children's Press, Inc."

*After-School Prevention Programs for At-Risk*

*Students* University of Alabama Press

Providing guidance on a broad range of issues

for young children and adolescents, *Ergonomics for Children: Designing Products and Places for Toddlers to Teens* give you a deep understanding of how children develop and how these developmental changes can influence the design of products and places for children. Copiously illustrated with photos and other images, the book helps you quickly find answers to your questions, grasp concepts, and apply them. Its subsections are organized to help you locate and understand the content you need. Edited by experts with contributions from an international panel, the book is both broad in coverage and international in

perspective. The contributors review the ways in which children develop physically, perceptually, cognitively, and socially and then use this information to provide practical guidelines for the design of places and products for children.

**Consciousness, Theatre, Literature and the Arts 2011**

Free Spirit Publishing Here Anne Neuberger offers fifty-five wonderful stories from around the world to help young Catholics connect with the social, environmental, and economic problems of children around the globe. It encourages them to accept and think of these children as family, as sisters and brothers. This is great resource for catechetical leaders,

catechists, parents, and Catholic school teachers.
