A blowtorch is one of those things that is instantly recognized for what it is, even by those who haven't seen one before. Produced from the late 1800s into the 1950s, they show up in antique malls and flea markets, and have become highly collectible. Their enduring brass and bronze construction mean that even the oldest blowtorches can be cleaned and buffed to look like new. When shined they are real attention-getters, and as such they have a following of dedicated collectors. Here is information collectors want regarding blowtorches: who made them, how old they are, what they were used for, which are the rare and valuable ones, how to find and restore them, and how much they are worth. Illustrated with 296 beautiful color photographs, this book will be cherished by tool collectors and everyone with an appreciation for the inventive imagination.

For undergraduate courses in International Financial Management, International Business Finance, or International Finance. Real-world examples introduce students to global financial management strategy
Fundamentals of Multinational Finance helps prepare tomorrow's business leaders to comprehend global markets and lead organizations through a constantly changing global environment. Via illuminating case studies and real-world examples, students are introduced to the fundamental concepts and tools necessary to implement an effective global financial management strategy. The 6th Edition reflects the juxtaposed forces of an increasingly digital global marketplace and a resurgence of nationalist culture and identity. Financial forces, markets, and management are in many ways at the crux of this challenge. This edition reflects a business world trying to find a new balance between business startups like the micro-multinational, a maturing China, a separatist Britain (Brexit), and an attempt by governments globally to channel, regulate (and tax) multinational firms that continue to grow in stature and strength. MyLab™ Finance not included. Students, if MyLab is a recommended/mandatory component of the course, please ask your instructor for the correct ISBN and course ID. MyLab should only be purchased when required by an instructor. Instructors, contact your Pearson rep for more information. MyLab is an online homework, tutorial, and

assessment product designed to personalize learning and improve results. With a wide range of interactive, engaging, and assignable activities, students are encouraged to actively learn and retain tough course concepts.

Company News and Notes Legare Street Press

T'fadalou, a Lebanese expression meaning, aptly captures Abla Amad's approach to food. This title moves seamlessly from the restaurant kitchen of her famous Carlton eatery to the kitchen table at home.

Abla's Lebanese Kitchen Lantern

In his best-selling book *Japanese Manufacturing Techniques*, Richard J. Schonberger revolutionized American manufacturing theory and, more important, practice. In that breakthrough book, he revealed that Japanese manufacturing excellence was not culturally bound. Offering the first demystified explanation of the simple techniques that fueled Japan's industrial success, he demonstrated how the same methods could be put to work as effectively in U.S. plants.
