For Hermes said of this Science: Alchemy is a Corporal Science simply composed of one and by one, naturally conjoining things more precious, by knowledge and effect, and converting them by a natural commixtion into a better kind. A certain other said: Alchemy is a Science, teaching how to transform any kind of metal into another: and that by a proper medicine, as it appeared by many Philosophers' Books. Alchemy therefore is a science teaching how to make and compound a certain medicine, which is called Elixir, the which when it is cast upon metals or imperfect bodies, does fully perfect them in the very projection.

Maurizio è un quarantenne in crisi con la moglie e con le sue quattro amanti. Vuole un figlio ma ha paura di impegnarsi seriamente nel rapporto di coppia e considera la sua vita tutta un gioco, fino a quando, come spesso accade, sarà una donna a costringerlo a una scelta. Il libro affronta in maniera divertente il tema della crisi degli uomini italiani tra i trenta e i quarant'anni (potremmo dire i Bridget Jones al maschile) che non vogliono crescere e, magari inconsciamente, aspettano che qualcuno faccia delle scelte per loro conto. È un libro rivolto a tutti gli uomini che può essere utile anche a tante donne per riuscire a comprendere un po' meglio la psiche dell'altro sesso.
