The War We Won By: L W Swartz At the age of twenty, L W Swartz enlisted in the United States Army. He was motivated by a desire to become a pilot and to serve and protect his country. Little did he know that he would be thrust into the middle of the Viet Nam War, a conflict condemned by the public and neglected by politicians. After saying goodbye to his family, unsure if he would ever see them again, L W set out for training and his eventual deployment. His experiences in the war are described in raw detail: from the few moments of humor and companionship to the all too frequent moments of sorrow that come from losing a fellow soldier. The War We Won sheds light on what the Viet Nam War was really like for the young men who fought in it and gave their lives for it.

Ordnance McFarland Soldiers and Civilization covers the history of the military profession in the Western World from the ancient Greeks to the present day. Drawing from military history, sociology, and other disciplines, it goes beyond traditional insights to locate the military profession in the context of both literary and cultural history. Reed Bonadonna maintains that

soldiers have made an unacknowledged contribution to the theory and practice of civilization, and that they will again be called upon to do so in important ways. The comprehensive nature of the book and the extent to which Bonadonna draws on the disciplines of the humanities to make his points set this volume apart from others on the subject. The military profession, in its broadest consideration, might be viewed as an interdisciplinary branch of the humanities. A soldier is made of the words of history, poetry, and the laws and language of his calling. With each new conflict, the military may be called upon to preserve the values of civilization. To fulfill its future role, the military professionals of today must know, heed, and apply the examples and narratives of the most successful and exemplary military professionals of the past at their best.

[The United States Army and Navy Journal and Gazette of the Regular and Volunteer Forces](#) Publications Division Ministry of Information & Broadcasting The Army recruiter's professional magazine. *The Black Soldiers Who Built the Alaska Highway* Naval Institute Press This is the first detailed account of the 5,000 black troops who were reluctantly sent north by the United States Army during World War II to help build the Alaska Highway and install the companion Canol pipeline. They were the first black regiments deployed

outside the lower 48 states during the war. The enlisted men, most of them from the South, faced racial discrimination from white officers, were barred from entering any towns for fear they would procreate a "mongrel" race with local women, and endured winter conditions they had never experienced before. Despite this, they won praise for their dedication and their work. Congress in 2005 said that the wartime service of the four regiments covered here contributed to the eventual desegregation of the Armed Forces. *Navy and Army Illustrated* Publications Division Ministry of Information & Broadcasting "The 22nd is very much a part of my life and had it not been for your journal I would have had no idea of its destiny and its ending. I am very grateful to you for this experience."—John Cheever Scores of combat incidents and fascinating insights are to be found in "A Soldier's Journal." Rothbart provides unusual details of the 4th Division's, and especially the 22nd Regiment's, achievements and obstacles in the Allied advance from Normandy to Germany; D-Day

Normandy, the breakthrough at St. Lo, the liberation of Paris, the German counterattack in the Ardennes and the Battle of the Bulge, and the bloody Hurtgen Forest battle.—The Trenton Times (NJ) “Rothbart’s meticulously- kept journal is an ‘I was there’ record of World War II. It is a valuable piece of American history.”—The Huntsville Times (AL) “From the day he was drafted in 1942...Rothbart did what many people plan but rarely follow up. He kept a journal, tightly pencilled entries in little notebooks that somehow caught history roaring by, and in remarkably readable style.”—Pittsburgh Tribune Review (PA) “Compelling reading . . . made more so by the many ‘slice of life’ portraits. . . of his time in the U.S. Army.”—John Gresham, bestselling co-author (with Tom Clancy) of *Submarine* and *Special Forces*.
