Creating the Work You Love Rowman & Littlefield

Academic theology is in need of a new genre. In "Transgressive Devotion" Natalie Wigg-Stevenson articulates a theological vision of that genre as performance art. She argues that theology done as performance art stops trying to describe who God is, and starts trying to make God appear. Recognising that the act of studying theology or practicing ministry is always a performance, where the boundaries between what we see, feel, experience and learn are not just blurred but potentially invisible, Wigg-Stevenson brings together ethnographic theological fieldwork, historical and contemporary Christian theological traditions, and performance artworks themselves. A

daring vision of theology which will energise anybody feeling 'boxed in' by the discipline, Transgressive Devotion blurs borders between orthodoxy, heterodoxy and heresy to reveal how the very act of doing theology makes God and humanity vulnerable to each other. This is theology which is a liturgy of Divine incantation. In other words: this is theology which is also prayer.

Clinical Practice of Cognitive Therapy with Children and Adolescents, Second Edition Simon and Schuster

Why do children play? What can children learn from playing? What have psychologists learned from 150 years of studying play – usually a bit too seriously? The Development of Play explores the central role of play in childhood development. David Cohen examines how children play with objects, with language, and most importantly with each other and their parents. He explains how play enables children to learn how to move, think, speak and imagine, as well as to develop emotionally and socially. Incorporating much of the recent research in this area, including that of John Flavell, Henry

Wellman and others, *The Development of Play* shows how play encourages children to grasp the difference between appearance and reality. This new edition updates and builds on the previous two editions, to include new research on pretending and the theory of mind, autism and how parents can play creatively with their children. Play therapy, the history of play and how play is dealt with in the media are also covered. The book addresses the often ignored subject of adult games and why adults sometimes find it difficult to play. *The Development of Play* offers a fascinating review of the importance of play in all our lives.

 From a highly regarded feminist cultural critic and professor comes a polemic arguing that the stifling sense of sexual danger sweeping American campuses doesn't empower women, it impedes the fight for gender equality. Feminism is broken, argues Laura Kipnis, if anyone thinks the sexual hysteria overtaking American campuses is a sign of gender progress. A committed feminist, Kipnis was surprised to find herself the object of a protest march by student activists at

her university for writing an essay about sexual paranoia on campus. Next she was brought up on Title IX complaints for creating a "hostile environment." Defying confidentiality strictures, she wrote a whistleblowing essay about the ensuing seventy-two-day investigation, which propelled her to the center of national debates over free speech, "safe spaces," and the vast federal overreach of Title IX. In the process she uncovered an astonishing netherworld of accused professors and students, campus witch hunts, rigged investigations, and Title IX officers run amuck. Drawing on interviews and internal documents, *Unwanted Advances* demonstrates the chilling effect of this new sexual McCarthyism on intellectual freedom. Without minimizing the seriousness of

campus assault, Kipnis argues for more honesty about the sexual realities and ambivalences hidden behind the notion of "rape culture." Instead, regulation is replacing education, and women's hard-won right to be treated as consenting adults is being repealed by well-meaning bureaucrats. *Unwanted Advances* is a risk-taking, often darkly funny interrogation of feminist paternalism, the covert sexual conservatism of hook-up culture, and the institutionalized backlash of holding men alone responsible for mutually drunken sex. It's not just compulsively readable, it will change the national conversation. Summersdale Widely regarded as the definitive practitioner reference and teaching text, this book provides a complete

Teaching Parents to be the Primary Sexuality Educators of Their Children

Jonathan Lethem is the first full-length study dedicated to the work of an exciting, genre-busting contemporary

writer with an increasingly high profile in American literature. Examining all of Lethem's novels, as well as a number of his short fictions, essays and critical works, this study shows how the author's prolific output, his restlessness and his desire always to be subverting literary forms and genres, are consistent with his interest in subcultural identities. The human need to break off into small groupings, subcultures or miniature utopias is mirrored in the critical tendency to enforce generic boundaries. To break down the boundaries between genres, then, is partly to make a nonsense of critical distinctions between 'high' and 'low' literature, and partly to reflect the wider need to recognise difference, to appreciate that other people, no matter how outlandish and

alien they may appear, share similar desires, experiences and problems. With this in mind, James Peacock argues that Lethem's experiments with genre are not merely games or elaborate literary jokes, but ethical necessities, particularly when viewed in the light of the losses and traumas that shadow all of his writing. Jonathan Lethem, therefore, makes an important contribution not just to Lethem studies, but also to debates about genre and its position in postmodern or 'post-postmodern' literature. It will be of interest to all scholars and students of contemporary American writing, as well as those interested in genre fiction and literature's relationship with subcultures. In this unique and provocative look at work, career counselor Rick Jarow argues for a return to the concept of vocation--finding a "calling" instead of a job. Traditional career guides inventory the individual skills, talents, and abilities

that correlate to specific existing jobs. Creating the Work You Love presents a unique alternative approach, using self-reflective exercises based on the seven chakras, to help you determine the elements you need to create a life filled with meaning and purpose. Jarow believes that it is possible to live and act from the most authentic part of ourselves, and to express our strongest values, energies, and talents through our work in the world. Concentrating on the attributes associated with each of the body's energy centers, or chakras, Dr. Jarow helps us form a bridge between our personal priorities and the external activities of the work world. Once this bridge is established, strategies are developed to find a career that nourishes all aspects of our lives.
