The World Guide to
Special Libraries lists
about 35,000 libraries
world wide categorized by
more than 800 key words
- including libraries of
departments, institutes,
hospitals, schools,

companies, administrative bodies, foundations, associations and religious communities. It provides complete details of the libraries and their holdings, and alphabetical indexes of subjects and institutions.

World Agricultural Economics and Rural Sociology Abstracts

Jonathan Ball Publishers
Two remarkable tales woven together - the story of the Kaokoveld, an arid eden in the remote north-west of Namibia, so nearly lost, but regained to become one of Africa's

iconic wildlife tourism destinations, and also the story of a young man's search for an African way to do conservation in Africa. Garth Owen-Smith first visited the Kaokoveld in 1967. It was a life-changing experience. His unconventional ideas challenged both the conservation establishment and the former South African regime. Despite this, community-based conservation was pioneered in the Kaokoveld and today Namibia is a world leader

in this field. But the early years - when the foundation for this ground-breaking approach to conservation was laid - are largely forgotten and untold. An Arid Eden: A Personal Account of Conservation in the Kaokoveld brings those years alive through the eyes of Owen-Smith, spanning four-and-a-half decades of extraordinary dedication, passion and achievement. The author and his partner Dr Margaret Jacobsohn have won some of the world's most prestigious

conservation awards for their work in Namibia, which has always challenged conventional wisdom. The NGO they founded continues to break conservation, agricultural and rural development paradigms. Durban Museum Novitates Stockton Press

World List of Universities is the twenty-first edition of a biennial publication providing key information on higher educational institutions worldwide. Produced in conjunction with the International Association of

Universities, this ensures that all 12,000 institutions are recognised by major national educational bodies. This directory gives critical contact information for higher education institutions (not just universities), as well as giving basic structures for each.

Debates of Parliament

Walter de Gruyter

The increasing deployment of bioenergy frequently raises issues regarding the use of land and raw materials, infrastructure and logistics. In light of these

sometimes conflicting interests Advances in Bioenergy provides an objective and wide-ranging overview of the technology, economics and policy of bioenergy. Offering an authoritative multidisciplinary summary of the opportunities and challenges associated with bioenergy utilization, with international researchers give up-to-date and detailed information on key issues for biomass production and conversion to energy. Key features: *Discusses different bioenergy uses

such as transportation fuels, electricity and heat production. *Assesses emerging fields such as bio-based chemicals and bio-refineries. *Debates conditions for the mobilization of sustainable bioenergy supply chains and outlines governance systems to support this mobilization. * Dedicated chapters to sustainability governance and emerging tools such as certification systems and standards supporting growth of a sustainable bioenergy industry. *Considers the political,

environmental, social and cultural context related to the demand for energy resources, the impact of this demand on the world around us, and the choices and behaviours of consumers. This book will be a vital reference to engineers, researchers and students that need an accessible overview of the bioenergy area. It will also be of high value for politicians, policymakers and industry leaders that need to stay up to date with the state-of-the-art science and technology in this area.

An Introduction to C. B. Alexander Agricultural College John Wiley & Sons

A comprehensive, multidisciplinary volume on biofuels in developing countries for academics, practitioners and policy makers.
