Dr. Nikola Independently Published

Live theatre was once the main entertainment medium in the United States and the United Kingdom. The preeminent dramatists and actors of the day wrote and performed in numerous plays in which crime was a major plot element. This remains true today, especially with the longest-running shows such as *The Phantom of the Opera*, *Les Misérables* and *Sweeney Todd*. While hundreds of books have been published about crime fiction in film and on television, the topic of stage mysteries has been largely unexplored. Covering productions from the 18th century to the 2013-2014 theatre season, this is the first history of crime plays according to subject matter. More than 20 categories are identified, including whodunits, comic mysteries, courtroom dramas, musicals, crook plays, social issues, Sherlock Holmes, and Agatha Christie. Nearly 900 plays are described, including the reactions of critics and audiences.

The first volume of the complete adventures of Dr. Nikola The dark, intense visage of Dr. Nikola is a clear indication of the nature of the man. This is a highly intellectual being whose life and studies have taken him far beyond the limits of conventional academia or the laws of normal society. This is a driven man, ruthless, dangerous, mysterious and a delver into mysteries-obsessed with discovering the secret of eternal life for himself. His own objectives govern all and sudden death is no stranger. Guy Boothby's Dr. Nikola adventures continue to fascinate readers and enthusiasts of crime and mystery fiction because-in the manner of Raffles, the gentleman cracksman-here is character far removed from the uncompromising goodness of Holmes and Watson or the uncompromising evil of Professor Moriarty. Nikola is a complex personality-an anti-hero to continually surprise us, to dislike, fear, intrigue and admire by turns. Leonaur have brought the complete Dr. Nikola stories together in two complementing volumes available in soft cover and hard cover with dust jacket. The two books in this first volume are *A Bid for Fortune* & *Dr Nikola Returns*.

The Lust of Hate McFarland

A thrilling and entertaining blend of romance, crime, and adventure, 'A Bid for Fortune; Or Dr Nikola's Vendetta' by Guy Newell Boothby follows the unlikely heroics of a down-to-earth Australian protagonist. Despite his unassuming nature, the hero possesses a keen detective mind, which comes in handy when he becomes embroiled in the sinister machinations of the nefarious Dr. Nikola. With elements of a classic Bond villain, including a cat and a convoluted plan, Dr. Nikola is a formidable foe. The story

takes readers on a rollicking ride through the mysteries of the protagonist's fiance's family, a Marquis, and a Chinese stick. Brimming with humor, wit, and moral upstandingness, this engaging novel is sure to delight readers.

Dr Nikola's Vendetta Simon and Schuster

Boothby was once well known for his series of novels about Doctor Nikola, an occultist anti-hero seeking immortality and world domination. The adventures of Nikola were launched with the first episode of *A Bid for Fortune* which was serialised in *The Windsor Magazine* (a rival to *The Strand Magazine*). Nikola is described as dressing in "faultless evening dress, slender, having dark peculiar eyes and dark hair, and white toad-coloured skin." He lives in a bungalow on the Rue de Lafayette in Shanghai. Stanley L. Wood often illustrated the Nikola stories and his portraits depict Dr Nikola in white cravat and fur coat, with his perennial companion, the black cat Apollyon (named after a dark angel) - huge, baleful, gleaming-eyed - perched on Nikola's shoulder. Nikola - cosmopolitan, cultivated, universally feared - is highly intelligent but unscrupulous. John Clute writes that "The heart of the series is devoted to the Doctor's convoluted search for a Tibetan process that will resuscitate the dead and ensure immortality in the living, and there are some hints that - unhampered by compunctions, armed with psi powers and blessed with a powerful experimental intellect - he may have reached his goal."

Sherlock Holmes Edwardian Parodies and Pastiches I: 1900-1904 Lindhardt og Ringhof

Thrill to the uncanny adventures of occult detective Dr Nikola and his companion William Bruce. This first story will be followed by further adventures in *A Bid For Fortune* and *Pharos - the Egyptian*.'

Get ready for the electrifying biography of Nikola Tesla--part creative genius, part mad scientist, and 100% innovator. When Nikola Tesla arrived in the United States in 1884, he didn't have much money, but he did have a letter of introduction to renowned inventor Thomas Edison. The working relationship between the two men was short lived, though, and the two scientist-inventors became harsh competitors. One of the most influential scientists of all time, Nikola Tesla is celebrated for his experiments in electricity, X-rays, remote controls, and wireless communications. His invention of the Tesla coil was instrumental in the development of radio technology.

Further adventures of Dr. Nikola. "Whoever wants dramatic interest let him read 'The Lust of Hate.'"--The Daily Graphic. Mr.

Boothby is at his best in this romance, which is characterized by unflagging interest and by most stirring adventures in which Dr. Nikola plays a leading part. "Dr. Nikola" was considered "one of the most thrilling stories ever published." Science-fiction, the Early Years McFarland

Welcome to 223B Baker Street! The debut of Sherlock Holmes in the pages of *The Strand* magazine introduced one of fiction's most memorable heroes. Arthur Conan Doyle's spellbinding tales of mystery and detection, along with Holmes' deep friendship with Doctor Watson, touched the hearts of fans worldwide, and inspired imitations, parodies, songs, art, even erotica, that continues to this very day. "Sherlock Holmes Edwardian Parodies and Pastiches: 1900-1904" collects more than 55 pieces — short stories, poems, newspaper clippings, and cartoons — all published during the opening years of Conan Doyle's literary career. Included are works by Mark Twain, P.G. Wodehouse, Bret Harte, and more. Also included are many of the original illustrations and more than 200 footnotes identifying obscure words, historical figures, and events that readers were familiar with at the time. *Peschel Press' 223B Casebook Series* is dedicated to publishing the fanfiction created by amateur and professional writers during Conan Doyle's lifetime. Each book covers a particular era, publication, or writer, and includes lively mini-essays containing insights into the work, Conan Doyle, and those who were inspired by him.

Dr. Nikola is a criminal mastermind with an occult twist and like much fiction of that era this book and the following are more about how others fall under his spell and into his web. Here we have an adventure and love story that sweeps us from Australia, the South Seas, the Middle East and rural Hampshire with our lovestruck hero constantly battling against Dr. Nikola and his cohorts. The sense of mystery and the exotic settings are exceptionally well portrayed and give the book a nostalgic appeal for the days of imperialists and hardened empire builders.

FIRST and foremost, my name, age, description, and occupation, as they say in the Police Gazette. Richard Hatteras, at your service, commonly called Dick, of Thursday Island, North Queensland, pearler, copra merchant, beche-de-mer and tortoise-shell dealer, and South Sea trader generally. Eight-and-twenty years of age, neither particularly good-looking nor, if some people are to be believed, particularly amiable, six feet two in my stockings, and forty-six inches round the chest; strong as a Hakodate wrestler, and perfectly willing at any moment to pay ten pounds sterling to the man who can put me on my back. And big shame to me if I were not so strong, considering the free, open-air, devil-may-care life I've led. Why, I was doing man's work at an age when most boys are wondering when they're going to be taken out of knickerbockers. I'd been half round the world before I was fifteen, and had been wrecked twice and marooned once before my beard showed signs of sprouting. My father was an Englishman, not very much profit to himself, so he used to say, but of a kindly disposition, and the best husband to my mother, during their short married life, that any woman could possibly have desired.

FIRST and foremost, my name, age, description, and occupation, as they say in the Police Gazette. Richard Hatteras, at your service, commonly called Dick, of Thursday Island, North Queensland, pearler, copra merchant, beche-de-mer and tortoise-shell dealer, and South Sea trader generally. Eight-and-twenty years of age, neither particularly good-looking nor, if some people are to be believed, particularly amiable, six feet two in my stockings, and forty-six inches round the chest; strong as a Hakodate wrestler, and perfectly willing at any moment to pay ten pounds sterling to the man who can put me on my back. And big shame to me if I were not so strong, considering the free, open-air, devil-may-care life I've led. Why, I was doing man's work at an age when most boys are wondering when they're going to be taken out of knickerbockers. I'd been half round the world before I was fifteen, and had been wrecked twice and marooned once before my beard showed signs of sprouting. My father was an Englishman, not very much profit to himself, so he used to say, but of a kindly disposition, and the best husband to my mother, during their short married life, that any woman could possibly have desired. She, poor soul, died of fever in the Philippines the year I was born, and he went to the bottom in the schooner *Helen of Troy*, a degree west of the Line Islands, within six months of her decease; struck the tail end of a cyclone, it was thought, and went down, lock, stock, and barrel, leaving only one man to tell the tale. So I lost father and mother in the same twelve months, and that being so, when I put my cabbage-tree on my head it covered, as far as I knew, all my family in the world. Any way you look at it, it's calculated to give you a turn, at fifteen years of age, to know that there's not a living soul on the face of God's globe that you can take by the hand and call relation. That old saying about "Blood being thicker than water" is a pretty true one, I reckon: friends may be kind--they were so to me--but after all they're not the same thing, nor can they be, as your own kith and kin. However, I had to look my trouble in the face and stand up to it as a man should, and I suppose this kept me from brooding over my loss as much as I should otherwise have done. At any rate, ten days after the news reached me, I had shipped aboard the *Little Emily*, trading schooner, for Papeete, booked for five years among the islands, where I was to learn to water copra, to cook my balances, and to lay the foundation of the strange adventures that I am going to tell you about in this book. After my time expired and I had served my Trading Company on half the mudbanks of the Pacific, I returned to Australia and went up inside the Great Barrier Reef to Somerset--the pearling station that had just come into existence on Cape York. They were good days there then, before all the new-fangled laws that now regulate the pearling trade had come into force; days when a man could do almost as he liked among the islands in those seas. I don't know how other folk liked it, but the life just suited me--so much so that when Somerset proved inconvenient and the settlement shifted across to Thursday, I went with it, and, what

was more to the point, with money enough at my back to fit myself out with a brand new lugger and full crew, so that I could go pearling on my own account.

A Bid for Fortune Or Dr Nikola's Vendetta by Guy Boothby (Original) Cambria Press

Who was Nikola Tesla? Find out in this comprehensive volume that includes Tesla's autobiography and scientific writings, as well as other works that examine his life and career in detail. Nikola Tesla came from a humble upbringing in what is now Croatia and reached the heights of science and technology in the United States at the turn of the twentieth century. The *Autobiography of Nikola Tesla and Other Works* gives readers a compelling insight into the man whose ideas revolutionized the fields of electrical and mechanical engineering, and who continues to be a source of inspiration for modern inventors. This volume includes Tesla's autobiography *My Inventions* (1919), articles and diagrams that he published in scientific magazines—including "The Problem of Increasing Human Energy," in which he discusses the potential of solar power—and Thomas Commerford Martin's *The Inventions, Researches, and Writings of Nikola Tesla*. A scholarly introduction examines Tesla's life and career, and the impact that he has had on generations of inventors up to the present day.

The appearance of Sherlock Holmes in *The Strand Magazine* in 1891 began a stampede of writers who wanted to emulate, build upon or even satirize Arthur Conan Doyle's work. This book explores the development of detective fiction during the critical period between Conan Doyle's creation of Holmes and the advent of the Golden Age of the detective story during World War I. Both British and American detective writers of the period are surveyed--as well as writers who turned to gentleman burglars and master criminals.
