 Leta Austin Foster is among House Beautiful's most influential interior designers of the 20th century, and has been hailed by House and Garden as one of the "100 Greatest Interior Decorators." Whether it's a 19th-century Virginia family home or a modern South Florida country club, Foster believes that any space can be beautiful and comfortable at the same time. This philosophy has inspired the design of countless homes across the country. With an eye to fine detail, Foster (headquartered in Palm Beach) and two of her daughters, Sallie Giordano (New York City) and India Foster (Palm Beach), have created comfortable, gorgeous living spaces. BRIAN D. COLEMAN is the author of Farrow & Ball, Scalamantré, Fortuny Interiors, and Inner Spaces: Paul Vincent Wiseman & The Wiseman Group, and other home design books. He divides his time between New York and Seattle. ERIK KVALSVIK is has been the principal photographer Fortuny Interiors and Barry Dixon Inspirations. He lives in Washington, DC. *The Artful Parent* Createspace Independent Publishing Platform Morris the Magpie feels so lucky when the humans drop some shiny gifts in the forest!  Border clearance processes by customs and other agencies are among the most important and problematic links in the global supply chain. Delays and costs at the border undermine a country's competitiveness, either by taxing imported inputs with deadweight inefficiencies or by adding costs and reducing the competitiveness of exports. This book provides a practical guide to assist policy makers, administrators, and border management professionals with information and advice on how to improve border management systems, procedures, and institutions. *Needle Painting Embroidery* Twinkl

 "The influential artist Hedi Kyle and renowned architecture graduate Ulla Warchol shows you how to create their unique designs using folding techniques. From creating flag books and fishbones, to blizzards and nesting boxes, you'll gain an

invaluable insight into the work of two skilled artists with this fun read! With the help of their thorough instructions and simple illustrations, you'll be on your way to becoming a pro paper crafter in no time at all" - Sew magazine "A wonderful insight into the work of a truly skilled artist" - PaperCrafter The renowned and influential book artist Hedi Kyle shows you step-by-step how to create her unique designs using folding techniques in *The Art of the Fold*. Bookbinding and paper craft projects include flag books, blizzard books, the fishbone fold, and nesting boxes. Written by the doyenne of artists' books, Hedi Kyle, *The Art of the Fold* is a wonderful insight into the work of a truly skilled artist. Hedi will show you how to bind a book and fold paper to create over 35 of her cut-fold book designs. The book is beautifully illustrated with Hedi's finished works of art. An excerpt from the book: 'I can still remember the thrill I experienced when my first folded book structure emerged from my fingers - how eager I was to explore its possibilities and to share it with whoever was interested. The Flag Book, as I now call it, is a simple accordion and has interlocking pages oriented in opposite directions. Little did I know that this simple structure would have legs and be the catalyst for the next forty-plus years of thinking about and making books. The common perception of the book today is fairly straightforward: a series of pages organized around a spine and protected on either side by two covers. This format allows for easy access, storage and retrieval of information. Yet what happens when the book is stripped away of centuries of preconceptions and is allowed to reveal something else: playfulness, utility, invention? Expanding the notion of the book is what the structures in the following chapters of *The Art of the Fold* attempt to do. Exploring its tactile, sculptural form, primarily through folding methods, the book as a structural object is celebrated while content is considered in a new and unconventional way. My range in this medium has always been broad. In part this is due to my introduction to the world of bookbinding and some chance encounters. In the 1970s in New York City, the art and craft of hand bookbinding and papermaking were experiencing an unprecedented revival. I was fortunate to arrive in the city at just this moment. With an art-school background and an impulse to make things, I was naturally drawn to pursue this new opportunity. The Center for Book Arts, the famous forerunner of so many centers yet to come, was located in a small storefront just down the street from where I lived on the Lower East Side of Manhattan. Under the direction of founder Richard Minsky, it had a radical mission: to push concept, materials, printing and making of artist books in a new direction. When Richard dared me to teach at the Center one evening a week, I was hooked. My career as a book conservator and a book artist has now spanned over 45 years. As head conservator at the American Philosophical Society in Philadelphia, I've had the opportunity to handle some of the rarest volumes and manuscripts in the world. I have also dealt with decrepit books, torn maps and countless curiosities discovered in stacks and archives. All were endless sources for ideas and provided a

springboard for a departure from tradition. Leading book-arts workshops around the world and a 25 year tenure teaching in the graduate program for Book Arts and Printmaking at the University of the Arts in Philadelphia have shown me, in retrospect, that the more I taught, the more I learned.

Seven experienced craft authors show how to make simple and stunning greetings cards in a rich variety of themes: fairy cards, art nouveau, clear stamped, Celtic, oriental, Victorian, rustic, paper pierced and paper lace cards. The techniques simply explained and demonstrated include pen and wash, 3D decoupage, using pressed flowers, glass painting, using embossing powder, metal embossing, using polymer clay, rubber stamping and using clear stamps, using craft stickers, using chalks or alcohol inks, sewing beads on to cards, origami, using craft punches and quilling. The resulting projects are stunning, but the clear step by step photographs, templates for the designs and simple instructions make them achievable for card makers of all skill levels and there are dozens of beautifully photographed variations for more inspiration. Card makers looking for all kinds of different techniques will find something to inspire them here.

(a) Design and construction. (1) Each facility or part of a facility constructed by, on behalf of, or for the use of a public entity shall be designed and constructed in such manner that the facility or part of the facility is readily accessible to and usable by individuals with disabilities, if the construction was commenced after January 26, 1992. (2) Exception for structural impracticability. (i) Full compliance with the requirements of this section is not required where a public entity can demonstrate that it is structurally impracticable to meet the requirements. Full compliance will be considered structurally impracticable only in those rare circumstances when the unique characteristics of terrain prevent the incorporation of accessibility features. (ii) If full compliance with this section would be structurally impracticable, compliance with this section is required to the extent that it is not structurally impracticable. In that case, any portion of the facility that can be made accessible shall be made accessible to the extent that it is not structurally impracticable. (iii) If providing accessibility in conformance with this section to individuals with certain disabilities (e.g., those who use wheelchairs) would be structurally impracticable, accessibility shall nonetheless be ensured to persons with other types of disabilities, (e.g., those who use crutches or who have sight, hearing, or mental impairments) in accordance with this section.
