National Gang Report 2015 (U) The 2015 National Gang Report (NGR) presents an overview of current gang activities and trends in the United States. Intelligence in this report is derived primarily from a survey administered by the National Alliance of Gang Investigators' Associations (NAGIA) and from a second survey on Safe Streets and Gang Task Forces administered by the FBI Safe Streets and Gang Unit (SSGU). The quantitative data herein is supplemented by qualitative open source reports and reporting from federal, state, local, and tribal law enforcement from across the nation.

In the past few decades, scientists of human nature—including experimental and cognitive psychologists, neuroscientists, evolutionary theorists, and behavioral economists—have explored the way we arrive at moral judgments. They have called into question commonplaces about character and offered troubling explanations for various moral intuitions. Research like this may help explain what, in fact, we do and feel. But can it tell us what we ought to do or feel? In *Experiments in Ethics*, the philosopher Kwame Anthony Appiah explores how the new empirical moral psychology relates to the age-old project of philosophical ethics. Some moral theorists hold that the realm of morality must be autonomous of the sciences; others maintain that science undermines the authority of moral reasons. Appiah elaborates a vision of naturalism that resists both temptations. He traces an intellectual genealogy of the burgeoning discipline of "experimental philosophy," provides a balanced, lucid account of the work being done in this controversial and increasingly influential field, and offers a fresh way of thinking about ethics in

the classical tradition. Appiah urges that the relation between empirical research and morality, now so often antagonistic, should be seen in terms of dialogue, not contest. And he shows how experimental philosophy, far from being something new, is actually as old as philosophy itself. Beyond illuminating debates about the connection between psychology and ethics, intuition and theory, his book helps us to rethink the very nature of the philosophical enterprise.

Experiments in Ethics Createspace Independent Publishing Platform

The definitive collection of first-hand accounts of the world's outlaw motorcycle gangs, with contributions by Sonny Barger, Hunter S. Thompson, Ed Winterhalder, William Queen and many more Outlaw bikers consider themselves 'the last free people in society', unconstrained by the regulations that hem in ordinary citizens. And they guard their privacy jealously. Drawing on seventeen years of studying and participating in biker culture, the author has compiled this one-of-a-kind collection of original biker writing. Here are insider accounts of landmark incidents in biker folklore, including reprints of classic writing from biker-originated magazines, handouts, websites and books. Gangs featured include the Bandidos, the Hells Angels, Henchmen MC, the Outlaws, the Mongols, the Annihilators, the Diablos, the Gypsy Jokers, the Rebels, the Straight Satans and the Vagos. And with contributors such as Freewheelin' Frank (one-time secretary of the Hells Angels), Edward Winterhalder (among the most powerful members of the Bandidos) and Sonny Barger (founder of the Hells Angels). Also included are those rare accounts by outsiders who have succeeded in 'looking in' on the gangs: Hunter S. Thompson's *Hells Angels: A Strange and Terrible Modern Saga*; writing by William Queen, the undercover agent who infiltrated America's violent outlaw motorcycle gang the Mongols; and Daniel R. Wolf's account of riding with the Rebels.
