This Surgeon General's report details the causes and the consequences of tobacco use among youth and young adults by focusing on the social, environmental, advertising, and marketing influences that encourage youth and young adults to initiate and sustain tobacco use. This is the first time tobacco data on young adults as a discrete population have been explored in detail. The report also highlights successful strategies to prevent young people from using tobacco.

Principles of Management South Western Educational Publishing
“Dunhuang Manuscript Culture” explores the world of Chinese manuscripts from ninth-tenth century Dunhuang, an oasis city

along the network of pre-modern routes known today collectively as the Silk Roads. The manuscripts have been discovered in 1900 in a sealed-off side-chamber of a Buddhist cave temple, where they had lain undisturbed for almost nine hundred years. The discovery comprised tens of thousands of texts, written in over twenty different languages and scripts, including Chinese, Tibetan, Old Uighur, Khotanese, Sogdian and Sanskrit. This study centres around four groups of manuscripts from the mid-ninth to the late tenth centuries, a period when the region was an independent kingdom ruled by local families. The central argument is that the manuscripts attest to the unique cultural diversity of the region during this period, exhibiting—alongside obvious Chinese elements—the heavy influence of Central Asian cultures. As a result, it was much less ‘Chinese’ than commonly portrayed in modern scholarship. The book makes a contribution to the study of cultural and linguistic interaction along the Silk Roads.

Management W. W. Norton & Company

Existing narratives about how we should organize are built upon, and reinforce, a concept of 'good management' derived from what is assumed to be a fundamental need to increase efficiency. But this assumption is based on a presentist, monocultural, and

generally limited view of management's past. A New History of Management disputes these foundations. By reassessing conventional perspectives on past management theories and providing a new critical outline of present-day management, it highlights alternative conceptions of 'good management' focused on ethical aims, sustainability, and alternative views of good practice. From this new historical perspective, existing assumptions can be countered and simplistic views disputed, offering a platform from which graduate students, researchers, and reflective practitioners can develop alternative approaches for managing and organizing in the twenty-first century.

For at least 1500 years, temple design, construction and worship have followed the canon of the ?gama-s. Shouldn't temple management also follow the ?gama-s? Steeped in a history of more than two millennia, the real bequest of India's ancient temples is that they are still living sacred spaces. The gods that were invoked in these temples more than a thousand years ago, continue to reside in the sanctums and gaze benevolently upon their devotees. The bells ring for morning service as they did a thousand years ago. The ?c?rya waves the ?rati just as another ?c?rya did a thousand years ago. No other organization in the world can boast of such amazing continuity. The secret to this longevity lies in the ?gama-s. ?gama-s are the traditional canon

believed to be as old as the Vedas, with detailed manuals on temple-building, consecration and ritual worship. While the world outside the temples - a world of kings and kingdoms - has changed, temples continue to follow the ?gama-s in letter and spirit in their everyday religious function, notwithstanding the many changes in administrative formats. By studying the activities of the temple, material and manpower required, qualifications and roles prescribed for the temple professionals, this thesis attempts to reconstruct an ?gamic temple management framework, using the K?mik?gama as primary text with other ?gama-s, secondary literature and inscriptional evidence as required.

"Golway's revisionist take is a useful reminder of the unmatched ingenuity of American politics."—Wall Street Journal History casts Tammany Hall as shorthand for the worst of urban politics: graft and patronage personified by notoriously crooked characters. In his groundbreaking work *Machine Made*, journalist and historian Terry Golway dismantles these stereotypes, focusing on the many benefits of machine politics for marginalized immigrants. As thousands sought refuge from Ireland's potato famine, the very question of who would be included under the protection of

American democracy was at stake. Tammany's transactional politics were at the heart of crucial social reforms—such as child labor laws, workers' compensation, and minimum wages— and Golway demonstrates that American political history cannot be understood without Tammany's profound contribution. Culminating in FDR's New Deal, *Machine Made* reveals how Tammany Hall “changed the role of government—for the better to millions of disenfranchised recent American arrivals” (New York Observer).

Management practices and processes frequently differ across national and regional boundaries. What may be acceptable managerial behaviour in one culture may be counterproductive or even unacceptable in another. As managers increasingly find themselves working across cultures, the need to understand these differences has become increasingly important. This book examines why these differences exist and how global managers can develop strategies and tactics to deal with them. The text draws on recent research in anthropology, psychology, and management, to explain the cultural and psychological underpinnings that shape managerial attitudes and behaviours,

whilst introducing a learning model to guide in the intellectual and practical development of managers seeking enhanced global expertise. It offers user-friendly conceptual models to guide understanding and exploration of topics and summarizes and integrates the lessons learned in each chapter in applications-oriented 'Manager's Notebooks'. A companion website featuring comprehensive chapter-by-chapter PPT slides is available at www.cambridge.org/management_across_cultures.
