For the first time ever, the complete
Away saga (Volume 1: Beginnings and
Volume 2: Keepers of the Alliance) is
now available in one book. Spanning
over fifty years, Away chronicles the
adventures of quantum physicist Alberto
Rys. Stumbling upon a scientific
breakthrough that could revolutionize
the transportation of people, resources,
goods and even information around the
globe, Dr. Rys begins a quest to realize
the discovery's full potential. He's
eventually joined by a group of equally
brilliant and idiosyncratic souls, who help
him to rapidly develop the technology.
However, as they near their goal, they
find themselves suddenly entangled in a
web of deceit that shatters their team
and inadvertently brings Dr. Rys to the
faraway world of Onav. There he
encounters the ghostly remnants of a
once mighty interstellar alliance and
learns of the invincible race of predators
who almost destroyed it, the Grell. Dr.
Rys is then asked to make a choice that
will reverberate throughout humanity:
Will Earth join the struggle against the
Grell or will the disembodied spirits of

Onav forever be all that remains of the
Alliance?

The Handbook of Police Psychology features contributions from over 30 leading experts on the core matters of police psychology. The collection surveys everything from the beginnings of police psychology and early influences on the profession; to pre-employment screening, assessment, and evaluation; to clinical interventions. Alongside original chapters first published in 2011,

this edition features new content on deadly force encounters, officer resilience training, and police leadership enhancement. Influential figures in the field of police psychology are discussed, including America's first full-time police psychologist, who served in the Los Angeles Police Department, and the first full-time police officer to earn a doctorate in psychology while still in uniform, who served with the New York Police Department. The Handbook of Police Psychology is an invaluable resource for police legal advisors, policy writers, and police psychologists, as well as for graduates studying police or forensic psychology.
