This volume contains a careful selection of papers concerned with actual research questions on anaphoric reference, a subject of current interest with various linguistic subdisciplines. This is reflected in this book as it methodically covers broadly invested approaches from cognitive, neurolinguistic, formal and computational

perspectives, each contribution representing the respective 'state of the art' on a high theoretical and empirical level. The volume contains three thematic parts: Anaphors in Cognitive, Text- and Discourse Linguistics; The Syntax and Semantics of Anaphors; and Neurolinguistic Studies on the reception of anaphoric reference. The contributions investigate several Indo-European languages.

The first complete English translation of

Nadar's intelligent and witty memoir, a series of vignettes that capture his experiences in the early days of photography. Celebrated nineteenth-century photographer—and writer, actor, caricaturist, inventor, and balloonist—Félix Nadar published this memoir of his photographic life in 1900 at the age of eighty. Composed as a series of vignettes (we might view them as a series of “written photographs”), this intelligent and witty book offers stories of Nadar's experiences in the early years of photography, memorable character

sketches, and meditations on history. It is a classic work, cited by writers from Walter Benjamin to Rosalind Krauss. This is its first and only complete English translation. In *When I Was a Photographer* (Quand j'étais photographe), Nadar tells us about his descent into the sewers and catacombs of Paris, where he experimented with the use of artificial lighting, and his ascent into the skies over Paris in a hot air balloon, from which he took the first aerial photographs. He recounts his "postal photography" during the 1870-1871 Siege of Paris—an amazing scheme involving micrographic images and carrier pigeons. He describes technical innovations and important figures in photography, and offers a thoughtful consideration of society and culture; but he also writes entertainingly about such matters as Balzac's terror of being photographed, the impact of a photograph on a celebrated murder case, and the difference between male and female clients. Nadar's memoir captures, as surely as his photographs, traces of a vanished era.

The year 2014 saw the 200th anniversary of Napoleon's downfall - and the restoration of the French monarchy under the house of Bourbon. With this as a starting point, Volker Sellin shows how the European monarchies restored and prolonged their reigns by giving their countries constitutions. This new angle results in an astonishing history of the 19th century in Europe from Spain to Russia.

Recent scientific studies have brought significant advances in the understanding of basic mental functions such as memory, dreams, identification, repression, which constitute the basis of the psychoanalytical theory. This book focuses on the possibility of interactions between psychoanalysis and neuroscience:

emotions and the right hemisphere, serotonin and depression. It is a unique tool for professionals and students in these fields, and for operators of allied disciplines, such as psychology and psychotherapy.

A la question: $\langle \rangle$Qu'est-ce qu'un discours narratif? presque chaque discipline des sciences humaines apporte sa reponse. Avant d'ajouter la sienne, une perspective pragmatique peut deja commencer par modifier la question: qu'est-ce qu'un discours narratif $\langle \rangle$pour son destinataire? S'agit-il d'une propriete inscrite dans certains textes ou n'importe quel fragment est-il susceptible, sous certaines conditions, de le devenir? Que nous apprennent a cet egard des echantillons varies de discours, une fois sortis de leur contexte d'origine? En observant le statut de textes ouvertement -importes- comme le document authentique dans l'interaction pedagogique, la lettre reelle ou fictive, l'interaction orale -rapportee- dans l'article scientifique, le roman, le sketch ou la piece de theatre, l'analyse en vient a

proposer de modifier le modele enonciatif afin de mieux rendre compte des rapports que la narration entretient avec les - discours representes-.
 Inspiree par l'approche modulaire du discours elaboree a Geneve autour d'Eddy Roulet, cette recherche s'inscrit dans son enquete sur le fonctionnement des interactions langagieres. Elle est plus particulierement centree sur les aspects polyphoniques et sequentiels des discours."

This book introduces novel thinking and techniques to the control of robotic manipulation. In particular, the concept of teleimpedance control as an alternative method to bilateral force-reflecting teleoperation control for robotic manipulation is introduced. In teleimpedance control, a compound reference command is sent to the slave robot including both the desired motion trajectory and impedance profile, which are then realized by the remote controller. This concept forms a basis for the development of the controllers for a robotic arm, a dual-arm setup, a synergy-driven robotic hand, and a compliant exoskeleton for improved interaction

performance.

This book is about two things: tax and power. The processes through which tax law is formulated, involve more than the formal legislative and judicial processes which result in statute and case law. Tax law is an expression of tax policy, which is subjective and a heterogeneous product of states, cultures and politics. Regarding taxation as a branch of either black letter law or orthodox economics ignore, or even deny, this subjectivity. This book explores the complex dynamics of the debates which inform tax policy, the interaction between tax and power and how power relations between various groups in society and between individuals and the state are manifested through tax system. This helps to explain why the rules, procedures and practices are all formulated to suit their interests of the most powerful groups in society. Taxation is a powerful lens through which to analyse relationships between individuals and the state, since history has shown that there is a longstanding power relationship between rulers and subjects, which is

articulated through tax regimes. Tax can therefore be seen as a technology which mediates such tensions and relationships and the way that choices are made and conflicts are resolved can give valuable insights into societal power relationships.

This book represents the physical outcome of the symposium "Academic Voices in Contrast", organised at the University of Bergen, Norway, in May 2006. The symposium, focusing on recent research within the field of academic discourse, was initiated and organised by the KIAP project (Cultural Identity in Academic Prose; see www.uib.no/kiap/). In this project, a special focus has been put on the study of the voice(s) of the academic author, in the doubly contrastive perspective of language and discipline. A narrow selection of distinguished scholars were invited to participate at the symposium. They were asked to address issues related to "traditional" linguistic versus contextual approaches or to interlingual and interdisciplinary similarities and differences in academic discourse. By the papers of the following, the symposium

and the present book constitute a clear advancement of the research on academic discourse: M. A. A. Ariza, L. Berge, M. Bondi, S. V. Bonn, S. Carter-Thomas, T. Dahl, K. Fløttum, A. M. Gjesdal, F. Grossmann, K. Hyland, T. Kinn, L. Lundquist, A. Mauranen, M. Pabón, E. Rowley-Jolivet, F. Salager-Meyer, P. Shaw, J. M. Swales, J.L. Tønnesson, E. T. Vold, F. Wirth.

Exploring autobiographical texts written by European urban craftsmen from the 15th to the 18th centuries, this book studies memoirs, diaries, family chronicles, travel narratives, and other forms of personal writings from Spain, France, Italy, Germany, and England. In the process, it reveals the significance of written self-expression in early modern popular culture.

Edited by Mary Louise Lord after the author's death, *The Singer Resumes the Tale* focuses on the performance of stories and poems within settings that range from ancient Greek palaces to Latvian villages. Lord expounds and develops his approach

to oral literature in this book, responds systematically for the first time to criticisms of oral theory, and extends his methods to the analysis of lyric poems. He also considers the implications of the transitional text - a work made up of both oral and literary components. Elements of the oral tradition - the practice of storytelling in prose or verse, the art of composing and transmitting songs, the content of these texts, the kinds of songs composed, and the poetics of oral literature - are discussed in the light of several traditions, beginning in the ancient world, through the Middle Ages, to the present. Throughout, the central figure is always the singer. Homer, the Beowulf poet, women who perform lyric songs, tellers of folktales, singers of such ballads as "Barbara Allen", bards of the Balkans: all play prominent roles in Lord's book, as they have played central roles in the creation of this fundamental literature.

Due (classics, U. of Houston) examines the figure of Briseis, the concubine of Achilles in the Iliad, arguing that her role in the Iliad is greatly compressed, both in relation to the Iliad and the entire tradition

of the epic cycle. Her close reading of the text shows how the Iliad refers to expanded and alternative traditions about Briseis even while asserting its own version of her story. Annotation copyrighted by Book News, Inc., Portland, OR

La pragmatique Harrassowitz
 "Reads like a novel. A fast-paced page-turner, it has everything: sex, wit, humor, and adventures. But it is an impressively researched and important story." —David Fromkin, author of *Europe's Last Summer*
Vienna, 1814 is an evocative and brilliantly researched account of the most audacious and extravagant peace conference in modern European history. With the feared Napoleon Bonaparte presumably defeated and exiled to the small island of Elba, heads of some 216 states gathered in Vienna to begin piecing together the ruins of his toppled empire. Major questions loomed: What would be done with France? How were the newly liberated territories to be divided? What type of restitution would be offered to families of the deceased? But this unprecedented gathering of kings, dignitaries, and diplomatic leaders unfurled a seemingly endless stream of personal vendettas, long-simmering feuds,

and romantic entanglements that threatened to undermine the crucial work at hand, even as their hard-fought policy decisions shaped the destiny of Europe and led to the longest sustained peace the continent would ever see. Beyond the diplomatic wrangling, however, the Congress of Vienna served as a backdrop for the most spectacular Vanity Fair of its time. Highlighted by such celebrated figures as the elegant but incredibly vain Prince Metternich of Austria, the unflappable and devious Prince Talleyrand of France, and the volatile Tsar Alexander of Russia, as well as appearances by Ludwig van Beethoven and Emilia Bigottini, the sheer star power of the Vienna congress outshone nearly everything else in the public eye. An early incarnation of the cult of celebrity, the congress devolved into a series of debauched parties that continually delayed the progress of peace, until word arrived that Napoleon had escaped, abruptly halting the revelry and shrouding the continent in panic once again. *Vienna, 1814* beautifully illuminates the intricate social and political intrigue of this history-defining congress—a glorified party that

seemingly valued frivolity over substance but nonetheless managed to drastically reconfigure Europe's balance of power and usher in the modern age.

How could early modern Venice, a city renowned for its political freedom and social harmony, also have become a center of religious dissent and inquisitorial repression? To answer this question, John Martin develops an innovative approach that deftly connects social and cultural history. The result is a profoundly important contribution to Renaissance and Reformation studies. Martin offers a vivid re-creation of the social and cultural worlds of the Venetian heretics—those men and women who articulated their hopes for religious and political reform and whose ideologies ranged from evangelical to anabaptist and even millenarian positions. In exploring the connections between religious beliefs and social experience, he weaves a rich tapestry of Renaissance urban life that is sure to intrigue all those involved in anthropological, religious, and historical studies—students and scholars alike.

LA PRAGMATIQUE étudie les termes et les procédures qui, dans le discours de chaque individu, traduisent directement la représentation qu'il a de lui-même et du monde. Parmi les diverses modalités linguistiques qui assument de telles fonctions, ce manuel d'initiation a privilégié celles qui ont particulièrement contribué à l'essor de la pragmatique dans les dernières années. Après une introduction qui rappelle l'origine de la discipline et en précise l'objet, seront étudiés : les pronoms de 1^{re} et de 2^e personnes, qui reflètent la conscience de soi et de l'autre qu'a celui ou celle qui parle (première partie) ; les noms propres, dont le sens et les référents varient considérablement selon la connaissance du monde de celui ou de celle qui les emploie (deuxième partie) ; les formes

verbales et les adverbes qui traduisent directement la représentation du temps du sujet parlant (troisième partie) ; et les démonstratifs, qui manifestent quant à eux la représentation de l'espace, que ce soit un espace concret, ou un " espace mental " (quatrième partie). Tout au long de l'ouvrage, l'exposé des bases fondamentales de la discipline et de ses concepts est abondamment illustré, que ce soit par des échanges empruntés à la vie quotidienne ou par des citations et des analyses de textes littéraires, afin de donner des exemples d'applications concrètes, parmi d'autres, des outils offerts par la pragmatique. Compte tenu de son caractère interdisciplinaire, cet ouvrage s'adresse aux étudiants de diverses spécialités (lettres, philosophie, sciences du langage), aux candidats aux concours de recrutement (concours d'entrée à l'IUFM, CAPES, agrégation), et aux enseignants du primaire et du secondaire.

Language and Discipline Perspectives on Academic Discourse Routledge

Each book in this series is designed to make available to students important new

work on key historical problems and periods that they encounter. Each volume, devoted to a central topic or theme, contains specially commissioned essays from scholars in the relevant field. These provide an assessment of a particular aspect, pointing out areas of development and controversy and indicating where conclusions can be drawn or where further work is necessary, while an editorial introduction reviews the problem or period as a whole. In this text the contributors assess reform and reformers in late 18th century Europe, covering such topics as Catherine the Great, the Danish reformers, the Habsburg Monarchy and events in Spain and Italy.

The series serves to propagate investigations into language usage, especially with respect to computational support. This includes all forms of text handling activity, not only interlingual translations, but also conversions carried out in response to different communicative tasks. Among the major topics are problems of text transfer and the interplay between human and machine activities.
