*The White Lady Europe Comics*

In April 1941, two months prior to operation 'Barbarossa,' Adolf Hitler ordered the development of a heavy tank, armed with the famed 88 mm gun. This tank became a legend in its own time. Feared by its adversaries and liked by its crews, the Tiger etched its mark in history and the legend carries on, 60 years after the end of the war. This compilation of the

two volumes dealing with Tiger units on the Eastern front, the Western front, and Africa, features almost a thousand period pictures, mostly unpublished, and more than 80 full-color plates by the author: tank profiles, details of markings and insignia, camouflage, and a short history of each Tiger unit. This edition has been revised and augmented, with more accurate captions as to dates and locale, together with new illustrations and a chapter on additional units.

The story of a painting of the Supreme

Being, ordered by Robespierre from the famous painter, David - a painting that was never made. It's also the story of another painting, that of the young Bara, a 13-year-old martyr of the Republic. From the inauguration of the Louvre - a former royal palace - as the museum for the people, to the death of Robespierre, *The Sky Over the Louvre* tells the eerie and disturbing tale of an artist coming up against Robespierre during the French Revolution.

"This book gives glimpses into the life of Climbié, a young boy from the Ivory Coast as he attends colonial French school, and then follows him to Dakar, Senegal where he finishes school and becomes a clerk. Upon his return to the Ivory Coast, he begins to speak out against colonial oppression and is imprisoned. Throughout the novel, the author attempts to show the tension between Africans, Europeans, and the people who are caught between the two worlds."--Goodreads

*American Adonis* New York : Weybright and Talley

Inspired by the works of Dashiell Hammett, *No Room at the Morgue* is Jean-Patrick Manchette's unparalleled take on the private eye novel — fierce, politically inflected, and finely rendered by the haunting, pitch-black prose for which the author is famed. *No Room at the Morgue* came out after Jean-Patrick Manchette had transformed French crime fiction with such brilliantly plotted, politically charged, unrelentingly violent tales as *Nada* and *The Mad and the Bad*. Here, inspired by his love of Dashiell Hammett, Manchette introduces Eugene Tarpon, private eye, a sometime cop who has set up shop after

being kicked off the force for accidentally killing a political demonstrator. Months have passed, and Tarpon desultorily tries to keep in shape while drinking all the time. No one has shown up at the door of his office in the midst of the market district of Les Halles. Then the bell rings and a beautiful woman bursts in, her hands dripping blood. It's Memphis Charles, her roommate's throat has been cut, and Memphis can't go to the police because they'll only suspect her. Can Tarpon help? Well, somehow he can't help trying. Soon bodies mount, and the craziness only grows.

*The Art of the Crusaders in the Holy Land, 1098-1187* examines the art and architecture produced for the Crusaders in Syria-Palestine during the first century of their quest to recapture Jerusalem. Commissioned by kings and queens, patriarchs and bishops, knights and merchants, who came as pilgrims or settlers to the Holy Land, it is an art of

manuscript illumination, fresco painting, mosaics, stone sculpture, metalwork, ivory carving, coins and seals by artists trained in the Latin West, and the Byzantine and Islamic East. Combining the stylistic and iconographic traditions of these regions, Crusader art defies easy categorization: indeed, it is a unique phenomenon within the spectrum of medieval art.

The Man for the Job Heinemann Educational Publishers

A small exploratory vessel crashes onto an unknown ocean planet after its crew is seized by a sudden madness. After escaping their sinking ship, the five survivors are helped to the surface by giant squid-like creatures who guide them to what appears to be the planet's only

island. To their surprise, they are greeted on the shore by primitive humans, who prove to be welcoming despite their cannibalistic rituals. But their fixed smiles and total docility suggest that something more sinister is going on. Are the castaways doomed to join them in submitting to the will of the mysterious Great One?

The Essential Peirce, Volume 1 Histoire & Collections

In recent years wrist problems have increasingly attracted the attention of orthopaedic and hand surgeons. Numerous advances have been achieved in functional anatomy, biomechanics, diagnosis, and treatment. There are, however, many controversial aspects to these problems. Many clinical and associated investigators from around the world have attempted to increase our knowledge of the wrist with enthusiastic and devoted studies. An international

symposium was held at the Nagoya Castle Hotel, Nagoya, Japan from March 6th through March 8th, 1991 to further understanding and promote discussion of wrist problems among a representative international group. Approximately 300 participants from 16 different countries assembled for these discussions. This monograph consists of 40 selected papers based on presentations given at the international symposium. The topics are divided into six chapters: Functional Anatomy, Diagnosis and Basic Studies; Kienbock's Disease; Scaphoid Fracture, Distal Radius Fracture; Carpal Instability and Wrist Pain; and Wrist Arthroplasty. A number of unique observations as well as detailed surgical techniques were presented. These include topics such as the vascularity of the triangular fibrocartilage, radial wedge osteotomy and vascular bundle implantation into the lunate for Kienbock's disease, Herbert screw insertion though a minimal exposure for acute scaphoid fracture, and closing wedge osteotomy of the radial styloid for the early stage of the SLAC wrist. It is hoped that this monograph will be of benefit to surgeons interested in not

only achieving more satisfactory clinical outcomes, but also in stimulating further contemplation and research about these difficult wrist problems.

Manu always embraced his role as a strong, protective man, until one day his world is turned upside down. In quick succession, his girlfriend walks out on him, and he's passed over for a position at work in the name of gender parity. In an effort to regain his bearings, he clings to a family of seven troubled children, determined to rescue them from their social misfortunes. Thus begins a long descent into the heart of his fears...

Promise at Dawn Europe Comics

Each morning, a frail, old, bespectacled fisherman heads out to sea, leaving his doting, matronly wife at home patiently caring for the house, awaiting his return in the evening. But one evening he doesn't come home, instead accidentally snared by a much larger, industrial fishing trawler that absentmindedly carries him across the Atlantic. Back home, the village wonders what might have happened, assuming his death, but his

wife refuses to give up hope. She consults a fortune teller who sees his visage in a crepe . . . alive in Cuba. Convinced her husband is still alive, she sets off on an improbable mission to save him. Completely wordless, this heartwarming and often hilarious adventure is a testament to not only the power of sequential storytelling, but the power of love itself.

"Anthony Sansone (1905-1987), the first male physique icon and the most admired bodybuilder of his time. Like his contemporary Rudolph Valentino, Sansone was one of the first to make male beauty a desirable commodity. Through innumerable reproductions of his photographs, his fitness program publications, and the three gyms he founded, Sansone set and shaped the physical ideal that a whole generation of men would follow." "Tony Sansone moved within a number of worlds and interacted with some illustrious characters: art (Gertrude Whitney), bodybuilding (Charles Atlas), dance (Alexandre Gavrillov), Hollywood (Johnny Weissmuller), theater

(David Belasco), and photography (Nickolas Muray). American Adonis uncovers the lost story of Sansone's life along with reproductions of his sculpted, godlike body, many of which have not been seen in more than fifty years."--

"Probably one of the most significant novels of this year."--L'Express "As soon as you open *Monsieur Le Commandant* you will not be able to put it down, such is Slocombe's affinity for his subject matter. . . His virtuosity and manner of storytelling reveal true talent. . . . Go out and buy a copy of *Monsieur Le Commandant* as soon as you can. Read it; you'll be glad you did."--Le Point "The novel is, in a unique way, a powerful piece of Resistance literature."--La Vie French Academician and Nazi sympathizer Paul-Jean Husson writes a letter to his local SS officer in the autumn of 1942. Tormented by an illicit passion for Ilse, his German daughter-in-law, Husson has made a decision that will devastate several lives, including his own.

The letter is intended to explain his actions. It is a dramatic, sometimes harrowing story that begins in the years leading up to the war, when following the accidental drowning of his daughter, Husson's previously gilded life begins to unravel. And through Husson's confession, Romain Slocombe gives the reader a startling picture of a man's journey: from pillar of the French Establishment and World War One hero to outspoken supporter of Nazi ideology and the Vichy government. Romain Slocombe is a writer, director, translator, illustrator, cartoonist, and photographer. He was born in Paris in 1953.

Angelino is a young loser like thousands of others in the Dark Meat City. He and his friend Vinz are squatters at a seedy hotel room in the Latin Quarter, Rios Rosas. A stupid scooter accident will plunge Angelino into a hurricane of unimaginable trouble, as he becomes the only person on Earth capable of recognizing the vicious cosmic entities that walk among us, who are readying themselves to invade the planet.

Losing Eugenio Cambridge University Press

A classic of modern French literature, the thrilling real-life story of the military hero, ambassador, ladies man, writer, and loving son "I grew up in the certitude that one day I should help give back the earth to those who ennoble it with their courage and warm it with their love." Promise at Dawn begins as the story of a mother's sacrifice: alone and poor, she fiercely battles to give her son the very best. Romain Gary chronicles his childhood in Russia, Poland, and on the French Riviera and recounts his adventurous life as a

young man fighting for France in World War II. But above all he tells the story of the love for his mother that was his life—their secret and private planet, their wonderland "born out of a mother's murmur into a child's ear, a promise whispered at dawn of future triumphs and greatness, of justice and love."

Centering on eccentric English millionaire shipowner, notorious hell-raiser, and the envy of all St Petersburg, Dan Yack, this strange travel yarn begins with the protagonist finding out that he is no longer wanted by his lover, Hedwiga. Rejection letter in hand, he eventually wanders into a nightclub to impulsively invite a handful of artists to accompany him on a world voyage via the Antarctic. As their journey progresses, the weather worsens and they enter pack-ice. Impatient, Dan orders the crew to land him and his three companions while they wait for a clear passage. They have enough provisions for a long, dark polar winter, but things do not run smoothly. The musician destroys their watches, the poet drifts off into serious

daydreams, and the sculptor starts making statues of Dan Yack in ice. And Dan himself is worried--about time, about breaking his monocle, and about having no-one to love. But when the sun finally returns after the polar winter, no one could predict the surreal disaster that is about to unfold--a scenario involving a plum pudding, whales, women, and World War I.

The American Revolution, though it profoundly stirred the imagination of the French people, was not so cataclysmic, nor so immediate and widespread in its effects as the events that broke out thirteen years later in France. The French Revolution provoked a deep cleavage within society that it later exported to most of Europe. France's Communists hold Robespierre, the instigator of the Terror, as one of their inspirations while Gaxotte, writing in the 1920s, viewed Communism as the logical heir to the Revolution. Many contemporary historians appear far closer to Gaxotte in their more realistic portrayals of those events than to the innumerable Marxist scholars who preceded them.
