Richard Stites views the struggle for liberation of Russian women in the context of both nineteenth-century European feminism and twentieth-century communism. The central personalities, their vigorous exchange of ideas, the social and political events that marked the emerging ideal of emancipation--all come to life in this absorbing and dramatic account. The author's history begins with the feminist, nihilist, and populist impulses of the 1860s and 1870s, and leads to the social mobilization campaigns of the early Soviet period.

Wolfram von Eschenbach (fl. c. 1195-1225), best known as the author of *Parzival*, based *Willehalm*, his epic poem of military prowess and courtly love, on the style and subject matter of an Old French "chanson de geste." In it he tells of the love of *Willehalm* for *Giburc*, a Saracen woman converted to Christianity, and its consequences. Seeking revenge for the insult to their faith, her relatives initiate a religious war but are finally routed. *Wolfram's* description of the two battles of

*Alischanz*, with their massive slaughter and loss of heroes, and of the exploits of *Willehalm* and the quasicomic *Rennewart*, well displays the violence and courtliness of the medieval knightly ideal. *Wolfram* flavors his brutal account, however, with tender scenes between the lovers, asides to his audience, sympathetic cameos of his characters--especially the women--and, most unusually for his time, a surprising tolerance for 'pagans'.

"This book takes cultural knowledge in language learning not only as a necessary aspect of communicative competence, but as an educational objective in its own right. If the aim of foreign language education is to foster cross-cultural awareness and self-realization, language pedagogy needs to come to grips with a range of fundamental issues: what do we mean by cultural context? Can discourse practices be taught like rules of grammar? What role does literature play in the development of second language literacy? How can learners acquire both an insider's and an outsider's understanding of the foreign culture as expressed through its language? By exploring these and other issues, the book can help language teachers reflect on their profession and place it within its larger societal and educational context. In turn, they can help learners become not only skilful users of the language, but also active architects of a new cross-cultural world order."

 Explores the emergence of a new womanhood in turn-of-the-century Vienna. In *Embodied Histories*, historian Katya Motyl explores the everyday acts of defiance that formed the basis for new, unconventional forms of womanhood in early twentieth-century Vienna. The figures Motyl brings back to life defied gender conformity, dressed in new ways, behaved brashly, and expressed themselves freely, overturning assumptions about what it meant to exist as a woman. Motyl delves into how these women inhabited and reshaped the urban landscape of Vienna, an increasingly modern, cosmopolitan city. Specifically, she focuses on the ways that easily overlooked quotidian practices such as loitering outside cafés and wandering through city streets helped create novel conceptions of gender. Exploring the emergence of a new womanhood, *Embodied Histories* presents a new account of how gender, the body, and the city merge with and transform each other, showing how our modes of being are radically intertwined with the spaces we inhabit.

It had been the wish of her whole life to flee from all the Herries, but Walter Herries had challenged her, and she had taken up the challenge'. Judith Paris, now middle aged returns to the Lakes to deal with the bitter feud between the two branches of the family. A feud culminating in the construction by one branch of a huge house known as The Fortress, which will dominate the land of the others. But within this conflict the children of the two families have important roles to play.

Over the past four decades, French sociologist Pierre Bourdieu produced one of the most imaginative and subtle bodies of social theory of the postwar era. When he died in 2002, he was considered to be the most influential sociologist in the world and a thinker on

a par with Foucault and Levi-Strauss - a public intellectual as important to his generation as Sartre was to his. Sketch for a Self-Analysis is the ultimate outcome of Bourdieu's lifelong preoccupation with reflexivity. Vehemently not an autobiography, this unique book is instead an application of Bourdieu's theories to his own life and intellectual trajectory; along the way it offers compelling and intimate insights into the most important French intellectuals of the time - including Foucault, Sartre, Aron, Althusser, and de Beauvoir - as well as Bourdieu's own formative experiences at boarding school and his moral outrage at the colonial war in Algeria.

Andrievs Radvilis is a former jockey on the Riga trotting track whose solitary retirement is interrupted when a young journalist comes to interview him about his career. Their meeting leads to a journey of reminiscence across Latvia, never straying far from the mighty Daugava river, which flows through the story as Radvilis recalls his early life. The weeks leading up to the fateful date of 25 March 1949, when Stalin launched his deportation campaign in Soviet Latvia, form the main historical backdrop of this novel. As an independent-minded man who would not engage with Stalinism nor compromise with the truth, Radvilis is imprisoned and blacklisted. Bitter experience of war, love and politics lead him to trust horses more than people. Inga Ābele was born in Riga in 1972. She studied biology at the University of Latvia, and worked for three years as a trainer on a horse-breeding farm. Her work shows evidence of her rigorous scientific training, balanced with her deep understanding of human motives.

Ābele's prose works are the product of thorough research; she is fascinated by the little-known by-ways of Latvian history and its more unsung heroes. *Halbjahrsverzeichnis der neuerscheinungen des deutschen Buchhandel erschienenen Bücher, Zeitschriften und Landkarten* Hopewell Crime and romance take over the idyllic Lake District setting in this first volume in Hugh Walpole's, *The Herries Chronicle*. First published in 1930, *Rogue Herries* is narrated by the titular character as he describes Francis Herries' story and his decision to move his family from their Yorkshire home to the beautiful Borrowdale valley in Cumbria. The tumultuous family drama follows Francis as he mistreats his wife, sells his mistress, and chases after a young teenage girl. His son, David, leads a life almost as eventful as his father's, while his sister quietly dreams of things beyond her reach. Read & Co. Books have proudly republished *Rogue Herries*, the ideal period drama for historical fiction lovers.

Austrian novelist and essayist Torberg (1908-79) recalled the coffeehouse scene in Vienna during his youth in the 1975 *Tante Jolesch*, and augmented it with a second volume in 1987. The English translation follows the format of the first, adding interesting anecdotes from the second.

 A Voyage to India is the story of Bloom, our hero, as he makes his way from Lisbon to India in a decidedly non-heroic age. Gone are the galleons, gone is god; so too the swords of the swashbuckler and sacerdotal certainty. In such an era, where is wisdom to be found? Bloom—ever deliberate, ever longwinded—takes his time getting to India, stopping first in London, then Paris and elsewhere in Europe, making friends, encountering enemies, recounting his life story, revealing the reasons for his flight from Lisbon and his vague hopes for and nagging fears about what he might find in India. Or within himself. His is a melancholic itinerary, an attempt to learn and forget. As our narrator flatly declares: “Life proceeds and is monstrous.” Parodying *The Lusiads*, Luis de Camões’s sixteenth-century Portuguese epic of seafaring exploration and naval prowess, Tavares’s poem is a solemn requiem of sorts, an investigation into the psyche of humankind in a world where the advance of technology outpaces our ability (or desire) to theorize it, the search for wisdom has been abandoned, and old imperialist dreams have revealed themselves to be a postcolonial nightmare.

OSTFRONT 1944: The German Defensive Battles on the Russian Front in 1944 Alex Buchner. In 1944, when the entire Russo-German front was "ablaze" under continual Soviet attacks, wrong estimations by the highest German command led to critical decisions with grave consequences. The Red Army was growing increasingly stronger, and launched a major offensive. They engaged the Germans in a series of battles - Cherkassy, Tarnopol, Crimea, Vetevsk, Brody, Jassy - That ended in the collapse of Army Group Center, and catastrophic German losses. These battles cost the German army in the east well over a half-million casualties. The entire story is set forth in this new book by Alex Buchner. This in-depth study uses presently available sources and the reports of still-living participants, to document the events on the Eastern Front of 1944. It tells the story from the German point of view, reflecting on what is considered the most barbarous fighting of World War II. Alex Buchner is the author of several World War II studies, including The German Infantry

Handbook 1939-1945, available from Schiffer Military History.

Among the most important sources for understanding the cultures and systems of thought of ancient Mesopotamia is a large body of magical and medical texts written in the Sumerian and Akkadian languages. An especially significant branch of this literature centres upon witchcraft. Mesopotamian anti-witchcraft rituals and incantations attribute ill-health and misfortune to the magic machinations of witches and prescribe ceremonies, devices, and treatments for dispelling witchcraft, destroying the witch, and protecting and curing the patient. The Corpus of Mesopotamian Anti-Witchcraft Rituals aims to present a reconstruction of this body of texts; it provides critical editions of the relevant rituals and prescriptions based on the study of the cuneiform tablets and fragments recovered from the libraries of ancient Mesopotamia. "Now that we have the second volume, we the more admire the thoughtful organisation of the entire project, the strict methods followed, and the insightful observations and decisions made." - Martin Stol, in: Bibliotheca Orientalis LXXIV n° 3-4 (mei-augustus 2017)
