Judo Formal Techniques is
"The most detailed
explanation of Judo that
has ever been published"
(The Japan Times). A
comprehensive training
manual to the basic "free
practice" forms of

Kodokan Judo (the
Randori no Kata), the
book provides essential
instruction in the throwing
and grappling kata (Nage
no Kata and Katame no
Kata) that every Judo
practitioner needs to
master. The authors are
two of the world's top
instructors--Donn F.
Draeger and Tadao Otaki.
Both were instructors at
the Kodokan Judo Institute
in Tokyo--the

headquarters of
international Judo, which
was founded by the
creator of the martial art,
Jigoro Kano. Draeger,
considered by many to be
the first non-Japanese
Budo master, was an
authority on Asian martial
culture who held high
ranks and teaching
licenses in several martial
arts. He was a prolific
writer and was the first
non-Japanese Judo

instructor at the Kodokan. Otaki was not only a successful Judo instructor but also a university professor who was widely praised for his research on the role of Judo in education. Draeger and Otaki based their text on Jigoro Kano's published and unpublished personal writings. Recapturing the original spirit and intent of the essential Judo kata, they are presented in the standard Kodokan versions as refined by generations of practitioners. Richly illustrated with over 1,000

photos and drawings, Judo Formal Techniques offers complete step-by-step instructions for the roles of both training partners. In addition to the core techniques of throwing and grappling, it explains the important transitional movements as well as grips, stances, and postures. First introduced as an Olympic sport at the 1964 Tokyo Olympics, Judo is returning to its home city on the world stage at the 2020 Olympics. Practiced by more than 20 million people worldwide, Judo is

only expected to continue growing in popularity. A new foreword by Judo instructor Neil Ohlenkamp sheds light on the book's lasting importance as the classic "Kata bible" for Judo students and instructors alike and an indispensable resource for all martial arts practitioners. A lush portrait introducing one of the most important Japanese artists of the Edo period Best known for his paintings Irises and Red and White Plum

Blossoms, Ogata Kōrin (1658-1716) was a highly successful artist who worked in many genres and media--including hanging scrolls, screen paintings, fan paintings, lacquer, textiles, and ceramics. Combining archival research, social history, and visual analysis, Frank Feltens situates Kōrin within the broader art culture of early modern Japan. He shows how financial pressures, client preferences, and the impulse toward personal branding in a competitive

field shaped Kōrin's approach to art-making throughout his career. Feltens also offers a keen visual reading of the artist's work, highlighting the ways Kōrin's artistic innovations succeeded across media, such as his introduction of painterly techniques into lacquer design and his creation of ceramics that mimicked the appearance of ink paintings. This book, the first major study of Kōrin in English, provides an intimate and thought-provoking portrait of one of Japan's most significant

artists.

A Beginner's Guide to Sumi-E Tuttle Publishing

This practical guide is perfect for those looking to try this ancient art form for the first time! In this book, Japanese master artist Shozo Koike reveals the simple secrets of Sumi-e, offering step-by-step instructions with clear photographs and online video tutorials showing you how to paint 19 traditional subjects. Sumi-e is the meditative Japanese form of ink painting taught by Zen Buddhist monks to

encourage mindfulness and an awareness of our surroundings. It uses only ink, water, a brush and paper to capture natural objects and landscapes in a vivid, spontaneous fashion. Koike begins with the basics--what to buy and how to prepare the ink in a traditional inkstone. Next, he shows you how to practice the 11 basic brushstrokes used for all Sumi-e paintings. The 19 traditional subjects taught in this book include: Flowers like orchids, chrysanthemums,

camellias, roses and peonies Plants and fruits including bamboo, eggplants, grapes and chestnuts Animal figures including small birds, butterflies, chicks, crabs and goldfish Koike also explains the philosophy of Sumi-e, which emerges from the use of negative white space to enhance the painted forms. Readers will enter into a world not just of black and white, but of infinite shades of gray which are capable of evoking all the sensations of color using these techniques.

This book makes it easy to create and admire wonderful Japanese-style paintings and portraits! Modern Japanese-style paintings are recognizable by their restrained use of three-dimensionality and perspective, reliance upon expressive lines, and the bold use of color to direct the viewer's eye. There are other ways that artists imbue their work with Japanese- inspired attributes, including through the skillful use of shape, texture, and facial

expression. Author Shinichi Fukui introduces readers to 7 notable modern Japanese artists (Kazuo Kawakami, Chiaki Takasugi, Miho Tanaka, Ryohei Nishiyama, Jose Franky, Ryohei Murata, and Keiji Yano) who specialize in shin hanga-style portraiture of Japanese women. He then presents instructions to create 21 different original paintings--from sketching models, preparing and mixing paints, blocking in color, and rendering fine details. Using these techniques,

and a bit of acrylic paint, readers will be able to create eye-catching works of art that express a timeless Japanese aesthetic.

When the American Revolution arrives in Thomas Strong's sleepy Long Island village, his life is turned upside down. His church becomes a fort for the British, and a company of Redcoats are quartered in his family's home. But worst of all, his father is arrested as a traitor and taken away.

It's no wonder that Thomas's mother seems to have been affected in the head. She washes and rewashes handkerchiefs and petticoats so that her clothesline is continually full of laundry. The errands on which she sends Thomas are not only peculiar but dangerous, since they take him right past a Redcoat encampment. At first Thomas doesn't know what to make of his mother's behavior, but as he keeps his eyes and ears open, he begins to suspect that things are

not necessarily as they seem. Katherine Kirkpatrick's captivating story is based on the Culper Spy Ring, which operated on Long Island and in Connecticut from 1778 - 1783. Its purpose was to send messages to General George Washington about the activities of the British Army in New York City. Ronald Himler's dramatic watercolor illustrations bring this pivotal period of U.S. history to life for contemporary readers. Katherine Kirkpatrick grew up near Setauket in Stony

Brook, New York. She first learned of Anna (Nancy) Strong's role in the Culper Spy Ring from Strong's great-great-granddaughter, Kate Strong, whom she interviewed for a fourth-grade project. Kirkpatrick has published eight books for children and young adults, both fiction and nonfiction. She lives in Seattle, Washington. Visit her at <http://katherinekirkpatrick.com>. Ronald Himler has illustrated over a hundred books for children. His paintings also appear in

art galleries throughout the Southwest, where he is highly acclaimed for his portraits of the Plains Indians. He lives in Tucson, Arizona. To find out more about his work, visit <http://www.ronhimler.com/>.

"Chinese ink painting is one of the oldest continually practiced art forms in the world. It first appeared in China in the fifth century, and soon traveled to Korea and then to Japan. As old and

deeply rooted in East Asian aesthetics and meditation as it is, ink painting is credited with influencing the development of Western modern art. Its minimalist approach to painting continues to have enormous appeal. Artist and teacher Sungsook Setton, who learned the techniques with Chinese and Korean masters in her native South Korea, brings new excitement to this age-old art. While teaching the traditional disciplines for holding and using the brush, she

shows students how to turn the techniques and inner meditation toward interpreting their own world: city views, music, and the essence of contemporary life"--

Master the ancient Chinese martial art of Shaolin Kung Fu with this

illustrated martial arts guide. The style of martial arts described in this book is believed to have developed from a form devised at the Shaolin Temple by the Indian monk Bodhidharma. Called Shih-pa lohan shou (Eighteen Arhat Hands), it was the original Lohan form. Its purpose was to provide monks with exercises that would not only strengthen their bodies and minds but also arm them with a formidable system of self-defense. The authors present the Lohan

techniques of south China (as taught by the Hood Khar Pai) in both solo--and partner-- practice forms. Intended as a supplement to actual training, Shaolin Lohan Kung-Fu gives the history of the Shaolin arts and then continues with a detailed explanation of the Lohan form. Accompanied by almost 30 sketches and over 400 black-and-white photographs, this straightforward introduction to the Lohan system is a must for any serious student of Shaolin techniques. Chapters

include: Background of Shaolin Kung Fu; Fundamentals of Shaolin; The Lohan Pattern; Shaolin Training Methods; and more!

part of the 21st century progression in art. This book gives a step-by-demonstration of the blending of these two techniques, including "how to" steps, with details and photographs of each step.

This significant historical study recasts modern art in Japan as a “parallel modernism” that was visually similar to Euroamerican modernism, but developed according to its own internal logic. Using the art and thought of prominent Japanese modern artist Koga Harue (1895–1933) as a lens to understand this process,

Chinghsin Wu explores how watercolor, cubism, expressionism, and surrealism emerged and developed in Japan in ways that paralleled similar trends in the west, but also rejected and diverged from them. In this first English-language book on Koga Harue, Wu provides close readings of virtually all of the artist’s major works and provides unprecedented access to the critical writing about modernism in Japan during the 1920s and 1930s through primary source documentation,

including translations of period art criticism, artist statements, letters, and journals.
