## HAMILTON BRIANNA

*Creating Sanctuary* Hampton Roads Publishing

This third edition of *Current Approaches in Drama Therapy* offers a revised and updated comprehensive compilation of the primary drama therapy methods and models that are being utilized and taught in the United States and Canada. Two new approaches have been added, *Insight Improvisation* by Joel Gluck, and the *Miss Kendra Program* by David Read Johnson, Nisha Sajjani, Christine Mayor, and Cat Davis, as well as an established but not previously recognized approach in the field, *Autobiographical Therapeutic Performance*, by Susana Pendzik. The book begins with an updated chapter on the development of the profession of drama therapy in North America, followed by a chapter on the current state of the field written by the editors and Jason Butler. Section II includes the 13 drama therapy approaches, and Section III includes the three related disciplines of Psychodrama and Sociodrama, Playback Theatre, and Theatre of the Oppressed that have been particularly influential to drama therapists. This highly informative and indispensable volume is structured for drama therapy training programs. It will continue to be useful as a basic text of drama therapy for both students and seasoned practitioners, including mental health professionals (such as counselors, clinical social workers, psychologists, creative arts therapists, occupational therapists), theater and drama teachers, school counselors, and organizational development consultants.

*Creative Arts Therapy Careers* Routledge

*The Quintessential Zerka* documents the origins and development of the theory and practice of psychodrama, sociometry and group psychotherapy through the work and innovation of its co-creator, Zerka Toeman Moreno. This comprehensive handbook brings together history, philosophy, methodology and application. It shows the pioneering role that Zerka, along with her husband J. L. Moreno, played in the development, not only of the methods of psychodrama and sociometry, but of the entire group psychotherapy movement worldwide. It demonstrates the extent to which Zerka's intuitive and intellectual grasp of the work, combined with her superb ability to organize and synthesize, continue to exert an influence on the field. Toni Horvatin and Edward Schreiber have selected articles that span a career of some sixty years, from Zerka's very first publication to recent, previously unpublished, work. Personal anecdotes and poetry from Zerka herself provide a valuable context for each individual article. The selection includes: psychodrama, its relation to stage, radio and motion pictures psychodramatic rules, techniques and adjunctive methods beyond Aristotle, Breuer and Freud; Moreno's

contribution to the concept of catharsis psychodrama, role theory and the concept of the social atom. This book provides a rich source of insight and inspiration for all those interested in the history, development and practice of psychodrama, sociometry and group psychotherapy, whatever their level of experience. It will be of interest to anyone involved in the fields of psychology, counselling, sociology, social work, education, theatre, or human relations.

"Psychodrama and Socio-drama are new concepts of therapy to resolve mental health issues in Bangladesh. Mental health professionals in Bangladesh who had been able to absorb the technique created by integrating socio-psychodrama have been greatly benefited from this intervention in the healing process..." --Mehtab Khanam, PhD Professor of Psychology Dhaka University Bangladesh When large groups of people become victims of political upheavals, social crises, and natural disasters, it is often challenging to allocate appropriate resources to deal with the stress that ensues. Of the methods employed to address post-traumatic stress syndrome and collective trauma, sociodrama and drama therapy have had a long-standing history of success. Group therapists and counselors will find this book to be an indispensable resource when counseling patients from trauma-stricken groups. This book travels across geographic and cultural boundaries, examining group crises and collective trauma in Asia, Africa, Europe, and the U.S. The contributing authors, many of whom are pioneers in the field, offer cost-effective, small- and large-group approaches for people suffering from PTSD, socio-political oppression, and other social problems. The book extends the principles and practices of psychodrama and sociodrama to include music, painting, dance, collage, and ritual. In essence, this innovative book illustrates the proven effectiveness of sociodrama and drama therapy. Key topics: The difficulties of developing trust in victimized or opposing groups Initiating warm-ups and therapeutic strategies with both groups and individuals "Narradrama" with marginalized groups Using anti-oppression models to inform psychodrama Re-reconciling culture-based conflicts using "culture-drama"

*Unintentional Music* Springer Nature

Holocaust Trauma offers a comprehensive overview of the long-term psychological effects of Holocaust trauma. It covers not only the direct effects on the actual survivors and the transmission effects upon the offspring, but also the collective effects upon other affected populations, including the Israeli Jewish and the societies in Germany and Austria. It also suggests various possible intervention approaches to deal with such long-term effects of major trauma upon individuals, groups and societies that can be generalized to other similar traumatic events. The

material presented is based on the clinical experience gathered from hundreds of clients of the National Israeli Center for Psychosocial Support of Holocaust Survivors and the Second Generation (AMCHA), an Israeli treatment center for this population, and from facilitating groups of Austrian/German participants in Yad Vashem and Europe; as well as an upon an extensive review of the vast literature in the field. "...a long awaited text from one of the most experienced and knowledgeable psychologists in the world. The text is groundbreaking in its sensitivity, historical grounding, insight and scholarship." Michael A. Grodin, M.D.

*The Healing Power of Flowers* Springer

*Creative Arts Therapy Careers* is a collection of essays written by and interviews with registered drama therapists, dance/movement therapists, music therapists, art therapists, poetry therapists, and expressive arts therapists. The book sheds light on the fascinating yet little-known field of the creative arts therapies – psychotherapy approaches which allow clients to use creativity and artistic expression to explore their lives, solve their problems, make meaning, and heal from their traumas. Featuring stories of educators in each of the six fields and at different stages of their career, it outlines the steps one needs to take in order to find training in one of the creative arts therapies and explores the healing aspects of the arts, where creative arts therapists work, who they work with, and how they use the arts in therapy. Contributors to this book provide a wealth of practical information, including ways to find opportunities to work with at-

risk populations in order to gain experience with the arts as healing tools; choosing the right graduate school for further study; the difference between registration, certification, and licensure; and the differences between a career in a medical, mental health, educational, correctional, or service institution. This book illuminates creative arts therapy career possibilities for undergraduate and graduate students studying acting, directing, playwriting, creative writing, visual arts, theatre design, dance, and music. It is also an excellent resource for instructors offering a course to prepare arts students of all kinds for the professional world.

[Healing Collective Trauma Using Sociodrama and Drama Therapy](#) Pi Press

Creating Sanctuary is a description of a hospital-based program to treat adults who had been abused as children and the revolutionary knowledge about trauma and adversity that the program was based upon. This book focuses on the biological, psychological, and social aspects of trauma. Fifteen years later, Dr. Sandra Bloom has updated this classic work to include the groundbreaking Adverse Childhood Experiences Study that came out in 1998, information about Epigenetics, and new material about what we know about the brain and violence. This book is for courses in counseling, social work, and clinical psychology on mental health, trauma, and trauma theory.

[Sociodrama Teachers College Press](#)

The first comprehensive publication on the subject, this book investigates interactions between racial thinking and the stage in the modern and contemporary world, with 25 essays on case studies that will shed light on areas previously neglected by criticism while providing fresh perspectives on already-investigated contexts. Examining performances from Europe, the Americas, the Middle East, Africa, China, Australia, New Zealand, and the South Pacific islands, this collection ultimately frames the history of racial narratives on stage in a global context, resetting understandings of race in public discourse.

[Key Concepts in Drama and Performance](#) iUniverse

The Oxford Handbook of the Ends of Empire offers the most comprehensive treatment of the causes, course, and consequences of the collapse of empires in the twentieth century. The volume's contributors convey the global reach of decolonization, analysing the ways in which European, Asian, and African empires disintegrated over the past century.

[Handbook on Peace Education](#) Routledge

Social Presencing Theater: The Art of Making a True Move is a journey into the origins, principles, and practices of an innovative social art form co-created by Arawana Hayashi and colleagues at the Presencing Institute. This embodiment practice deepens reflection and supports individual, team, organizational, and social transformation. This highly accessible book offers an introduction to newcomers and provides a deeper understanding of the work for experienced practitioners who wish to create powerful spaces for heart-based learning and action. The book addresses the origins and underlying principles of Social Presencing Theater, while containing practice instructions and stories that highlight its uses in companies, schools, and social projects. Social Presencing Theater invites us to tap into our natural creativity and ability to fully embody the "performance" of being human. Hayashi's intention with this work is to offer movement practices that support people in recognizing their own and others' embodied wisdom, compassion, and courage to act. In the face of today's enormous environmental, social, and spiritual challenges, we can become disconnected from the fundamental human goodness that lives in our presence. Social Presencing Theater invites us to make the true moves that are ours to make to create a society of brilliance, warmth, and strength.

[Experiential Treatment For PTSD](#) Routledge

"This book introduces something substantially new...original, clinically valid and well-thought out ideas which have been extensively tested in workshops conducted internationally over the last decade...a great book!" Adam Blatner, MD The author

presents the Therapeutic Spiral Model (TSM), a systematic modification of Psychodrama, for therapists working with people who are suffering from severe trauma and posttraumatic stress disorder. A step-by-step guide for using experiential methods safely, the author first explains the theoretical foundations of TSM, research and theories on trauma, and experiential psychotherapy as a basis for understanding its development. Throughout, clinical action structures and advanced intervention modules for using experiential methods are presented. Each chapter contains active vignettes and case examples to demonstrate the process and progress of the spiral technique. *The Oxford Handbook of the Ends of Empire* Psychology Press Commissioned by the United Nations University, the essays in this book focus on varying aspects of two basic issues: firstly, science as it provides justification for state violence and aristocracy; and secondly, science as violent technological intervention, which invades and disrupts private and stable patterns of life in the name of progress and development.

[Historical Traumas Among Armenian, Kurdish, and Turkish People of Anatolia](#) Taylor & Francis

This book lays the foundation for a fresh interpretation of art-making and the therapeutic process by re-examining the concept of poiesis. The authors clarify the methodology and theory of practice with a focus on intermodal therapy, crystallization theory and polyaesthetics, and give guidance on the didactics of acquiring practical skills.

[Holocaust Trauma](#) Routledge

Time does not heal all wounds: decades after a disaster, entire communities may still experience the long-term effects of trauma. Sociodrama and Collective Trauma examines the psychological and social damage of trauma to society as a whole. Kellermann argues that collective trauma has been insufficiently considered; his timely book suggests practical ways of facilitating the rehabilitation of survivors of collective trauma through, for example, sociodrama and related group work. The author develops methods for understanding the past and preparing for the future and provides a wealth of case studies based on 30 years' experience of treating survivors of war trauma and other forms of disaster. Combining a systematic theoretical approach with a practical methodology, this insightful book is invaluable for drama therapists, group therapists, mental health professionals and counsellors.

[Anti-Oedipus](#) PT PUSTAKA LIMAJARI

Eugene W. Holland provides an excellent introduction to Gilles Deleuze and Felix Guattari's *Anti-Oedipus* which is widely recognized as one of the most influential texts in philosophy to have appeared in the last thirty years. He lucidly presents the theoretical concerns behind *Anti-Oedipus* and explores with clarity the diverse influences of Marx, Freud, Nietzsche and Kant on the development of Deleuze & Guattari's thinking. He also examines the wider implications of their work in revitalizing Marxism, environmentalism, feminism and cultural studies.

[Holocaust Trauma](#) iUniverse

In a world where natural, social and political disasters are a daily reality, the therapist is increasingly called upon to find rapid and effective methods of treating the survivors of trauma, including sexual abuse, torture, war-related trauma, addiction, depression and bereavement. The contributors to this book provide persuasive evidence of how psychodrama can safely be used to create paths of change for even the most severe traumatization and they also discuss the possible transmission of trauma patterns across generations. Research following World War II, neurobiological studies and other recent research into PTSD has shown that many trauma symptoms are unconscious, non-verbal, right-brained experiences which cannot be accessed through talk therapy. Psychodrama creates a place to act out unprocessed trauma within the containment of therapy, in order to stop the obsessive repetition of the past. *Psychodrama with Trauma Survivors* documents the impact of trauma and explores the development of treatment, providing integrated models of

experiential treatment for clinicians to use. It is an invaluable resource for those interested in psychodrama and those working with trauma survivors.

[Problem-Solving Therapy](#) Lulu.com

Sociodrama is a flexible, creative, spontaneous way of working with groups, both large and small, to explore the systems we live in and which impact upon us. Originally part of J.L. Moreno's teaching, sociodrama is used across the world in endeavours such as: conflict management, school and higher level teaching, team building, cross-cultural exploration, problem-solving, change management, role training, community and organisational development, consultancy, story-telling, understanding the news, future planning, political change and much more. This book brings together examples of the work of sociodramatists from around the world, together with a wide-ranging collection of views on the current debate 'What is Sociodrama?' -- Amazon.

[Child Care Justice](#) Jessica Kingsley Publishers

This book argues that catastrophe is a particular way of governing future events - such as terrorism, climate change or pandemics - which we cannot predict but which may strike suddenly, without warning, and cause irreversible damage. At a time where catastrophe increasingly functions as a signifier of our future, imaginaries of pending doom have fostered new modes of anticipatory knowledge and redeployed existing ones. Although it shares many similarities with crises, disasters, risks and other disruptive incidents, this book claims that catastrophes also bring out the very limits of knowledge and management. The politics of catastrophe is turned towards an unknown future, which must be imagined and inhabited in order to be made palpable, knowable and actionable. Politics of Catastrophe critically assesses the effects of these new practices of knowing and governing catastrophes to come and challenges the reader to think about the possibility of an alternative politics of catastrophe. This book will be of interest to students of critical security studies, risk theory, political theory and International Relations in general.

[The Palgrave Handbook of Theatre and Race](#) Bloomsbury Publishing

This handbook encompasses a range of disciplines that underlie the field of peace education and provides the rationales for the ways it is actually carried out. The discipline is a composite of contributions from a variety of disciplines ranging from social psychology to philosophy and from communication to political science. That is, peace education is an applied subject which is practiced in differing ways, but must always be firmly based on a range of established empirical disciplines. The volume is structured around contributions from expert scholars in various fields that underpin peace education, plus contributions from experts in applying peace education in a range of settings, all complemented by chapters which deal with issues related to research and evaluation of peace education.

[Politics of Catastrophe](#) Bloomsbury Publishing USA

Out of the blue, Suleima's lover sends her a book he has written. Might this be the moment she finally feels she can understand him? An electrifying new voice from contemporary Syria on life in a climate of fear Suleima and Nassim first meet in their therapist's tiny waiting room in Damascus. In the city's atmosphere of surveillance and anxiety, they begin a tenuous relationship. Some years later, after civil war breaks out, Nassim leaves Syria for Germany. He doesn't ask Suleima to come with him; instead, from thousands of miles away, he sends her a book he has written, a novel about a woman whose experiences are very close to her own. As Suleima reads, her past overwhelms her. Time begins to fold in on itself, her sense of identity unravels, she has no idea what to trust - Naseem's pages, her own memory - both - or neither? As she attempts to solve the mystery of her lover's manuscript, she must confront what has happened to her family, to her country, and start to make sense of who she is and what she has become. Bold, contemporary, and told with captivating immediacy, *The Frightened Ones* is an intimate reckoning of living with fear from an electrifying new voice.
