Scotch Rite Masonry Illustrated Our Sunday Visitor

The Allegory of the Cave, or Plato's Cave, was presented by the Greek philosopher Plato in his work Republic (514a-520a) to compare "the effect of education (παιδεία) and the lack of it on our nature". It is written as a dialogue between Plato's brother Glaucon and his mentor Socrates, narrated by the latter. The allegory is presented after the analogy of the sun (508b-509c) and the analogy of the divided line (509d-511e). All three are characterized in relation to dialectic at the end of Books VII and VIII (531d-534e). Plato has Socrates describe a group of people who have lived chained to the wall of a cave all of their lives, facing a blank wall. The people watch shadows projected on the

wall from objects passing in front of a fire behind them, and give names to these shadows. The shadows are the prisoners' reality.

Many people have heard of Freemasonry, but few have any idea what it is, what it does, or why it exists. Freemasonry is not a religion, but rather a spiritual self-help society whose declared purpose is to help members become better citizens, and it has a strong track record of doing just that since it began in Scotland in the 15th century. Freemasonry For Beginners explores the objectives and teaching methods of Freemasonry and describes its influence on society in the past, present, and future. It recounts the origins of the movement in Scotland and its spread to North America and the rest of the world. Not least of all, it shows how Masonic teachings have helped so many members over the centuries learn the skills to become leaders in society, science, and the arts.
