The Cure for the Chronic Life 22 Lions

Our world is marked by unprecedented degrees of multiculturalism, ethnic diversity, social shifts, international collaboration, and technology-driven changes. The changes are profound, especially

when you consider the unchecked decline in the influence, size, and social standing of the church. There is an undercurrent of anxiety in the evangelical world, and a hunger for something new. And we're sensing the urgency of it. We need fresh, creative counterintuitive ways of doing ministry and church and leading it in the 21st century. We need to adapt. Fast. Both in our practices and our thinking. The aim of this book is simple: When we understand the powerful forces at work in the world today, we'll learn how something called The Third Culture can yield perhaps the most critical missing ingredient in the church today—adaptability—and help the church remain on the best side of history. A Third Culture Church and a Third Culture Leader looks at our new global village and the church's role in that village in a revolutionary way. It's a way to reconnect with the historical roots of what Jesus envisioned the church could be—a people known for a brand of love, unity, goodness, and extravagant spirit that defies all conventions. This book is part of the successful Leadership Innovation Series.

Arthur Sutherland places before us our fear of meeting the "other" and the "stranger" in an increasingly global, and frequently dangerous, village. Various social, political, and historical factors have conspired to leave us in a veritable crisis: the decline of hospitality. Why is this a crisis? Why should we practice hospitality? What is it about Christian theology that compels us to think about hospitality in the first place? Sutherland offers a passionate plea to recover and rediscover hospitality, and to respond to the divine appeal to welcome the stranger. Therein lies the central concern of the book: that hospitality is not simply the practice of a virtue but is integral to the very nature of Christianity's position toward God, self, and the world—it is at the very center of what it means to be a Christian and to think theologically. He offers a challenging definition of hospitality and calls us to a practice that is the virtue by which the church stands or falls. Drawing on modern theologians (including Howard Thurman, Dietrich Bonhoeffer, Karl Barth, Martin Luther King Jr., and Letty Russell) and considering American slavery, the Holocaust, feminism, and prisons, Sutherland eloquently presents a Christian theology of hospitality.

Darwin Gross vs. David Lane: The Ecknakar Debates Eckankar

If your students have ever heard the story of Job, they are likely to remember one thing—suffering. (Well, they might remember a pile of cow dung, but they're teenagers!) While suffering is a prevalent theme in Job, the stories inside this book also provide readers with truth and wisdom about a just and loving God who walks with us in the midst of an unjust world. Every human being—Christ follower or not—has asked, "Why does God allow suffering?" We all know that there are no easy answers to that question. But as you take the book and story of Job piece by piece, you'll be able to guide students towards a better understanding of this God who can be so difficult to comprehend. Through the twelve sessions, you'll help your students face some of the tougher issues of life, like: • The relationship between sin and suffering • How to be a friend to those who are suffering (and how not to be!) • Why don't the wicked suffer? • How to survive suffering (and let God be God) In the tradition of the best selling Creative Bible Lessons series, CBL in Job presents each session in sections to help you move your students through a sequence of engagement, reflection, learning, and application. Including preparation for leaders, materials lists, discussion starters, scripture lessons, and activities to help personalize the learning, you'll find that any youth worker can use this book to effectively guide students toward the important lessons from Job.

Children have serious faith questions that require serious answers, answers that adults often find themselves under-prepared to give. But the Christian community has a responsibility to help its children develop a three-dimensional faith—a faith that affects their heads, their hearts, and their spirits. Helping Our Children Grow in Faith is designed for children's ministry and worship leaders, Sunday school teachers, and pastors—as well as parents—who want to nurture the spiritual development of the children in their lives. It shows how to integrate children into congregational worship, how to teach them the Bible but leave room for the mystery of God, and how to distinguish the difference between faith development and moral development.

How many times have you poured your heart and soul into something for your youth ministry—only to have it fall flat, leaving not much more than a fond memory in the minds of students, let alone amazing life-change in their hearts? You're not alone. Far too often, we build plans and programs and then stop to ask God to bless them. We all want a transformational student ministry, but we need to remember that God has to be the one doing the transformations in the lives of our students. Based on the principles found in the book of Acts, Moving Forward by Looking Back will help you look back at how God transformed lives through the early church, and look forward at how those principles can be applied to your youth ministry today. As you reflect on the book of Acts, you'll explore how your youth ministry can implement the principles of: • Adoration—engaging students with God • Community—engaging students with God's people • Truth—engaging students with God's Word • Service—engaging students with God's world With practical ideas that are easy to apply in any ministry context, whether you're a rookie or a veteran, a professional or a volunteer youth worker, this book is an invaluable resource for any youth ministry that wants to see its students transformed by God.

In the face of the increasingly variegated ideological landscape of contemporary America, cults have become the focus of public controversy. The growth of new religions has been matched by the development of an organized and vocal opposition, the anti-cult movement. This in turn has prompted an extensive investigation of new religious movements (NRMs) by sociologists and psychologists of religion, as well as historians and religious studies scholars. The readings collected here contribute to the debate about cults by sampling some of the best and most accessible publications from the academic study of NRMs.The contributors address the questions most commonly asked about cults, such as: What brought about the emergence of new religious movements? What is a cult or new religious movement? Who joins new religious movements and why? Are converts to new religious movements brainwashed? Why did the Jonestown and Waco tragedies happen? Are cults inclined to be violent? What does the emergence of so many new religious movements say about our society? What does it say about the future of religion?Cults in Context surveys the descriptive typologies, theories, and data accumulated by sociologists and psychologists studying new religious movements over the last twenty years. It serves to defuse many popular fears and misconceptions about cults, allowing the reader to develop a more reasonable and tolerant understanding of the people who join new religious movements and the functions of these movements in contemporary society.
