Music, we are often told, is a language. But if music is a language, then who is speaking? The Composer's Voice tries to answer this obvious but infrequently raised question. In so doing, it puts forward a dramatic theory of musical expression, based on the view that every composition is a symbolic utterance involving a fundamental act of impersonation. The voice we hear is not that of the composer himself, but of a persona—a musical projection of his consciousness that experiences and communicates the events of the composition. Developing his argument by reference to numerous examples in a wide variety of styles, Mr. Cone moves from song and opera through program music to absolute instrumental music. In particular, he discusses the implications of his theory for performance. According to the dramatic view, not only every singer but every instrumentalist as well becomes a kind of actor, assuming a role that functions both autonomously and as a component of the total musical persona. In his analysis of the problems inherent in this dual nature of the performer's job, Mr. Cone offers guidance that will prove of practical value to every performing musician. He has much to say to the listener as well. He recommends an imaginative participation in the component roles of musical work, leading to a sense of identification with the persona itself, as the path to complete musical understanding. And this approach is shown to be relevant

to a number of specialized kinds of listening as well—those applicable to analysis, historical scholarship, and criticism. The dance, too, is shown to depend on similar concepts. Although The Composer's Voice involves an investigation of how music functions as a form of communication, it is not primarily concerned with determining, or interpreting, the "content" of the message. A final chapter, however, puts forward a tentative explanation of musical "meaning" based on an interpretation of the art as a coalescence of symbolic utterance and symbolic gesture. While not essential to the main lines of the argument, it suggests interesting possibilities for further development of the dramatic theory. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1974.

Lumber Manufacturer and Dealer

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this "vital, necessary, and beautiful book" (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and "allows us to understand racism as a practice not restricted to 'bad people' (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

Commerce

A journal devoted to insurance and the industries.

Education and Culture

Special edition of the Federal Register, containing a codification of documents of general applicability and future effect ... with ancillaries.

Jean Daniélou (1905-1974) est connu pour sa science mais aussi pour sa fougue évangéliste et son extraordinaire capacité de divulgation. Il sait parler à l'homme de son temps. Sa familiarité avec l'Écriture Sainte, sa connaissance des Pères de l'Église et sa capacité spéculative le distinguent. Parmi les oeuvres qui le manifestent le mieux, il faudrait citer : Introduction à Grégoire de Nysse, Contemplation sur la vie de Moïse, qui inaugure en 1942 la

collection de textes patristiques « Sources chrétiennes » ; Platonisme et théologie mystique. Essai sur la doctrine spirituelle de saint Grégoire de Nysse (1944) ; Bible et liturgie (1951) ; ou encore la trilogie sur l'Histoire des doctrines chrétiennes avant Nicée, notamment la Théologie du Judéo-christianisme (1958). Prolifique, ce jésuite que Paul VI créa cardinal en 1969 a publié une soixantaine de livres, d'extension et de qualité inégales certes, mais toujours suggestifs et vibrants, sans jamais rédiger de synthèse théologique. Guillaume Derville offre ici une vision d'ensemble de l'oeuvre de Jean Daniélou, ainsi qu'une exposition de son apport central, une compréhension globale des sacrements dans l'histoire : les grandes actions de Dieu nous font entrer dans le mystère du salut révélé dans le Christ et nous incorporent à lui. La théologie sacramentaire est ici renouvelée par une approche symbolique et patristique d'un intérêt toujours actuel. L'ouvrage offre une bibliographie raisonnée des oeuvres de Jean Daniélou et des études à son sujet.
