 In a narrative both panoramic and intimate, Tom Chaffin captures the four-decade friendship of Thomas Jefferson and the Marquis de Lafayette. Thomas Jefferson and the Marquis de Lafayette shared a singularly extraordinary friendship, one involved in the making of two revolutions—and two nations. Jefferson first met Lafayette in 1781, when the young French-born general was dispatched to Virginia to assist Jefferson, then the state's governor, in fighting off the British. The charismatic Lafayette, hungry for glory, could not have seemed more different from Jefferson, the reserved statesman. But when Jefferson, a newly-appointed diplomat, moved to Paris three years later, speaking little French and in need of a partner, their friendship began in earnest. As Lafayette opened doors in Paris and Versailles for

Jefferson, so too did the Virginian stand by Lafayette as the Frenchman became inexorably drawn into the maelstrom of his country's revolution. Jefferson counseled Lafayette as he drafted The Declaration of the Rights of Man and remained a firm supporter of the French Revolution, even after he returned to America in 1789. By 1792, however, the upheaval had rendered Lafayette a man without a country, locked away in a succession of Austrian and Prussian prisons. The burden fell on Jefferson, along with Lafayette's other friends, to win his release. The two would not see each other again until 1824, in a powerful and emotional reunion at Jefferson's Monticello. Steeped in primary sources, *Revolutionary Brothers* casts fresh light on this remarkable, often complicated, friendship of two extraordinary men.

After the congressional session ends, Jefferson leaves Washington and goes home to Monticello, where his ailing daughter Mary dies on 17 April. Among the letters of condolence he receives is one from Abigail Adams that initiates a brief resumption of their correspondence. While in Virginia, Jefferson

immerses himself in litigations involving land. Back in the capital, he finds that he must reconcile differing opinions of James Madison and Albert Gallatin to settle a claim for diplomatic expenses. He corresponds with Charles Willson Peale about modifications to the polygraph writing machine. He prepares instructions for an expedition to explore the Arkansas and Red Rivers. William Clark and Meriwether Lewis send him maps and natural history specimens from St. Louis. Alexander von Humboldt visits Washington. News arrives that a daring raid led by Stephen Decatur Jr. has burned the frigate Philadelphia to deprive Tripoli of its use. Jefferson is concerned that mediation by Russia or France to obtain the release of the ship's crew could make the United States appear weak. Commodore Samuel Barron sails with frigates to reinforce the squadron in the Mediterranean. Jefferson appoints John Armstrong to succeed Robert R. Livingston as minister to France and attempts to persuade Lafayette to move to Louisiana. In Paris, Napoleon is proclaimed Emperor of the French. Jefferson has "brought peace to our Country and comfort to our Souls," John Tyler writes from Virginia.

This handsomely illustrated picture book provides a remarkable glimpse of the Paris Jefferson knew—Paris on the eve of the French Revolution. The houses, gardens, bookshops, and landmarks of the time are brought to life through commentary and drawings, paintings, and maps. Originally published in 1976. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

One of America's foremost historians brilliantly brings to life the fierce struggle - both public and, ultimately, bitterly personal - between Thomas Jefferson and Alexander Hamilton - two rivals whose opposing visions of what the United States should be continue to shape our country to this day.

"The Papers of Thomas Jefferson is a projected 60-volume series containing not only the 18,000 letters written by Jefferson but also, in full or in summary, the more than 25,000 letters written to him. Including documents of historical significance as well as private notes not closely examined until their publication in the Papers, this series is an unmatched source of scholarship on the nation's third president"--Publisher's description.

NATIONAL BOOK AWARD WINNER Following Thomas Jefferson from the drafting of the Declaration of Independence to his retirement in Monticello, Joseph J. Ellis unravels the contradictions of the Jeffersonian character. He gives us the slaveholding libertarian who was capable of decrying mescegenation while maintaining an intimate relationship with his slave, Sally

Hemmings; the enemy of government power who exercised it audaciously as president; the visionary who remained curiously blind to the inconsistencies in his nature. American Sphinx is a marvel of scholarship, a delight to read, and an essential gloss on the Jeffersonian legacy.

The Papers of Thomas Jefferson: Retirement Series, Volume 11 Princeton University Press

In Volume 15 Jefferson, a veteran of the councils of his own country's revolution, becomes an eyewitness of the opening events of the great upheaval in France in 1789. The Archbishop of Bordeaux and his colleagues of the National Assembly ask Jefferson's aid and counsel in drafting a new constitution; he declines in July but gives a private dinner in August for Lafayette and the moderates who wish to form a coalition and thus avoid civil war. He is catapulted into the limelight by Mirabeau's attack on Necker for the shortage of grain and flour. He advises Lafayette about the latter's proposed draft of a Declaration of Rights and proposes a compromise charter for France in order to gain time, to consolidate the advances already made, and to allow public opinion to ripen. Jefferson dines with De Corny and learns at first hand what happened at the fall of the Bastille.

Three days later he is among the crowds with Dugald Stewart, the young Scottish philosopher, as Louis XVI is "led in triumph by his people thro' the streets of the capital." He writes long dispatches to Jay and private letters to Thomas Paine and Richard Price, among others, detailing the events that he regarded as "the first chapter of the history of European liberty." Early in September Jefferson becomes ill and, treated by a philosopher-physician, is possessed by the idea that "the earth belongs in usufruct to the living." He urges Madison to develop this concept and to apply it to American legislation—but his ostensible purpose is supported by arguments addressed wholly to the situation in France, whereby he furnishes justification for the abolition of ancient debts, the public appropriation of feudal grants, the wiping out of hereditary privileges, and the eradication of monopolies. Late in September, with Polly, Patsy, Petit, and two servants, Jefferson leaves Paris for a six months' leave, unaware that the same day the United States Senate confirmed his nomination as Secretary of State. Four weeks later he lands in Norfolk, where he is greeted by the officials—and finds that politics and anti-federalism are far from inactive in Virginia.

Volume Eight of the project documenting Thomas Jefferson's last years presents 591 documents dated from 1 October 1814 to 31 August 1815. Jefferson is overjoyed by American victories late in the War of 1812 and highly interested in the treaty negotiations that ultimately end the conflict. Following Congress's decision to purchase his library, he oversees the counting, packing, and transportation of his books to Washington. Jefferson uses most of the funds from the sale to pay old debts but spends some of the proceeds on new titles. He resigns from the presidency of the American Philosophical Society, revises draft chapters of Louis H. Girardin's history of Virginia, and advises William Wirt on revolutionary-era Stamp Act resolutions. Jefferson criticizes those who discuss politics from the pulpit, and he drafts a bill to transform the Albemarle Academy into Central College. Monticello visitors Francis W. Gilmer, Francis C. Gray, and George Ticknor describe the mountaintop and its inhabitants, and Gray's visit leads to an exchange with Jefferson about how many

generations of white interbreeding it takes to clear Negro blood. Finally, although death takes his nephew Peter Carr and brother Randolph Jefferson, the marriage of his grandson Thomas Jefferson Randolph is a continuing source of great happiness. The Retirement Series documents Jefferson's written legacy between his return to private life on 4 March 1809 and his death on 4 July 1826. During this period Jefferson founded the University of Virginia and sold his extraordinary library to the nation, but his greatest legacy from these years is the astonishing depth and breadth of his correspondence with statesmen, inventors, scientists, philosophers, and ordinary citizens on topics spanning virtually every field of human endeavor.--From publisher description.

Laws for the Government of the District of Louisiana Passed by the Governor and Judges of the Indiana Territory Princeton University Press

When Annette Gordon-Reed's groundbreaking study was first published, rumors of Thomas Jefferson's sexual involvement with his slave Sally Hemings had circulated for two centuries. Among all aspects of Jefferson's renowned life, it was perhaps the most hotly contested topic. The publication of *Thomas Jefferson and Sally Hemings* intensified this debate by identifying glaring inconsistencies in many noted scholars' evaluations of the existing evidence. In this study, Gordon-Reed assembles a fascinating and convincing argument: not that the alleged thirty-eight-year liaison necessarily took place but rather that the evidence for its taking place has been denied a fair hearing. Friends of Jefferson sought to debunk the Hemings story as early as 1800, and most subsequent historians and biographers followed suit, finding the affair unthinkable based upon their view of Jefferson's life, character, and beliefs. Gordon-Reed responds to these critics by pointing out numerous errors and prejudices in their writings, ranging from inaccurate citations, to impossible time lines, to virtual exclusions of evidence—especially evidence concerning the Hemings family. She demonstrates how these scholars may have been misguided by their own biases and may even have tailored evidence to serve and preserve their opinions of Jefferson. This updated edition of the book also includes an afterword in which the author comments on the DNA study that provided further evidence of a Jefferson and Hemings liaison. Possessing both a layperson's unfettered curiosity and a lawyer's logical mind, Annette Gordon-Reed writes with a style and compassion that are irresistible. Each chapter revolves around a key figure in the Hemings drama, and the resulting portraits are engrossing and very personal. Gordon-Reed also brings a keen intuitive sense of the psychological complexities of human relationships—relationships that, in the real world, often develop

regardless of status or race. The most compelling element of all, however, is her extensive and careful research, which often allows the evidence to speak for itself. *Thomas Jefferson and Sally Hemings: An American Controversy* is the definitive look at a centuries-old question that should fascinate general readers and historians alike.

Jefferson regarded Jesus as a moral guide rather than a divinity. In his unique interpretation of the Bible, he highlights Christ's ethical teachings, discarding the scriptures' supernatural elements, to reflect the deist view of religion.

The 584 documents in this volume cover the period from 19 January to 31 August 1817, during which Jefferson devotes much time and energy to founding Central College, the predecessor of the University of Virginia. In May 1817, at its first official meeting, the college's Board of Visitors authorizes land purchases and a subscription campaign that eventually raises more than \$44,000. Jefferson also prepares a legal brief for his chancery suit against the directors of the Rivanna Company. After years of disagreements and failed negotiations, he composes and revises a legal statement of his claim to the property in dispute. Although the complaint is submitted to the court in May 1817, the case is not settled until December 1819. In March 1817 Jefferson's friend James Monroe begins his first term as president. During the summer Jefferson learns of the death of two friends, Madame de Staël Holstein and Pierre Samuel Du Pont de Nemours. Late in the summer he visits Natural Bridge with two of his granddaughters. Jefferson continues to purchase books from Europe with the assistance of George Ticknor, and Stephen Cathalan helps him restock his wine cellar and pantry. Even though Jefferson answers his voluminous correspondence selectively, he still chafes under the burden.

Dumas Malone wrote his first 15,000 word essay about Jefferson for the scholarly *Dictionary of American Biography*. This reprint is Malone's own revision of that essay, made after his decades of study of a remarkable American.
