A Short History of the International Language Movement London :
 [s.n.]

First published in 2006. Novial (NOV - new, International Auxiliary Language) is one of the easiest constructed languages, partly because it highly resembles English. The multilingual dictionary of 1930, Novial-Lexike, may be in itself a sufficient guide to learn Novial. The reader will find : (1) an introduction showing the urgent need for such a language, (2) the history of the movement

with criticism of earlier proposed artificial languages, (3) a detailed grammar, in which, chapter by chapter, the reasons are given that have led to precisely those and to no other forms, (4) the scientific principles of word selection, and (5) some specimens intended to show the use of the language for different purposes and in different styles.
