The Body of the Beasts Universitätsverlag Potsdam

The powerful original novel that inspired the classic animated film—a story of nature, loss, survival, and becoming an adult. This moving and eventful story, translated from the original German by David Wylie, opens with the birth of a fawn in a thicket. Little Bambi rises to his feet immediately, as an overly talkative magpie marvels over this beautiful newborn. We then follow his journey through the innocent joys of youth into experiences of love, loss, and the complexity and danger of the wider world—where humans pose a mortal threat to his kind—and on to his years as an older and wiser prince of the forest. Bambi is a tale of beauty and allegorical depth that brings the realities of nature to vivid, emotional life.

The Weight of Snow Orca Book Publishers

More than 100 years of images that reveal the changing face of a city and its inhabitants. This commemorative book shows Montrealers, from the beginnings of photography through to 1976, in images that capture the fragility of a moment, fleeting, yet frozen in time. Through hundreds of snapshots, this book reveals the face of an entire social world. Some photos are the work of masters of photography such as Robert Notman, Henri Cartier-Bresson, John Max, Alain Chagnon, Yousuf Karsh and many more. Others were taken by more or less everyday photographers, generally unaware that they were providing future generations with an invaluable glimpse of humanity and a fragment of eternity. These photographs are accompanied by commentary on the photographer's work, if one exists, and on fascinating characteristics of the world they unveil to us. The photos are grouped under different themes: housing, culture, streets, religion, work, transportation, First Nations and more. This wholly unique book contains more than 400 original photographs, many previously unpublished or unknown. [Billy Stuart and the Sea of a Thousand Dangers](#) Routledge Louis has to do an oral presentation on his pet. To everyone's great surprise, he decides to present his mammoth. Even more surprising, he talks to the class about a new species of hairy

Elephantidae only recently discovered: the Rock Mammoth. This proud ancestor of the hairy musicians of the '70s didn't actually disappear. In fact, these elephants had had enough of being rock stars and wished for a more tranquil life. So they decided to remain hidden during the last millennia. But now Louis, the great mammoth enthusiast and rigorous scientific apprentice, has discovered this well-kept secret and is ready to reveal it to the world.

Walls of Change Penguin

An enchanting literary debut—already an international best-seller. At the height of Mao's infamous Cultural Revolution, two boys are among hundreds of thousands exiled to the countryside for "re-education." The narrator and his best friend, Luo, guilty of being the sons of doctors, find themselves in a remote village where, among the peasants of Phoenix mountain, they are made to cart buckets of excrement up and down precipitous winding paths. Their meager distractions include a violin—as well as, before long, the beautiful daughter of the local tailor. But it is when the two discover a hidden stash of Western classics in Chinese translation that their re-education takes its most surprising turn. While ingeniously concealing their forbidden treasure, the boys find transit to worlds they had thought lost forever. And after listening to their dangerously seductive retellings of Balzac, even the Little Seamstress will be forever transformed. From within the hopelessness and terror of one of the darkest passages in human history, Dai Sijie has fashioned a beguiling and unexpected story about the resilience of the human spirit, the wonder of romantic awakening and the magical power of storytelling.

Roles and Contexts in Counselling Psychology looks at the different contexts that counselling psychologists typically work within, offering a snapshot of the 'day job'. The book provides insights into roles that reflect the human lifespan from birth to death, focusing upon specific mental health experiences and considering roles external to healthcare settings such as expert witness and independent practice. Each chapter is written by a counselling psychologist and offers an overview of their particular specialism and their experiences within it, bringing a unique transparency and personal insight. The book describes the skills that are required for the different roles and their challenges and rewards. It also discusses how the philosophy of counselling psychology is maintained and explores the associated ethical and legal considerations. Further, it takes note of the issues relating to leadership and diversity. The book is an essential resource for undergraduate psychology and counselling students and trainee

clinical or counselling psychologists, as well as qualified practitioners.

Focusing on the political economy of the international tourism sector in the era of globalization and its impact in developing contexts, this book employs a case study analysis of South Africa to assess how international tourism as a global system of trade, production, exchange and governance plays out in developing countries. It also examines its benefits and disadvantages for these countries. Scarlett Cornelissen explores the nature and extent of global tourism production, consumption and regulation and how these bear upon developmental prospects, specifically in the South. She also highlights lessons for other developing countries about the limitations and possibilities for greater linkage to the global tourism system. The book is suitable for both scholars and practitioners interested in global tourism, international political economy, development, Africa and cultural studies.

Finalist for the 2015 Giller Prize Finalist for the 2016 Best Translated Book Award Like a Proust-obsessed Cormac McCarthy, Samuel Archibald's portrait of his hometown is filled with innocent children and wild beasts, attempted murder and ritual mutilation, haunted houses and road trips to nowhere, bad men and mysterious women. Gothic, fantastical, and incandescent, filled with stories of everyday wonder and terror, longing and love, Arvida explores the line which separates memory from story, and heralds the arrival of an important new voice.

Disturbing and sensuous, Audrée Wilhelmy's tale of a hermetic family minding a lighthouse in willed isolation is reminiscent of William Golding's *Lord of the Flies*. *The Body of Beasts* is a startling, gorgeously written novel that tells the story of the Borya family living in isolation. Their lives are altered when young Osip, peering from the lighthouse gallery sees a woman, Noé, arrive — her dress scant, her skin curiously scarred, and her manner mysterious and wild. Noé bears a child, Mie, to the eldest son on whose hunter-gathering the Borya family depends. She lives in a cabin on her own and covers the walls with drawings that allude to her mysterious life. The family's entrenchment in nature is enthrallingly conveyed in young Mie's sensuous ability to borrow

at will the body of mammals, birds, fish, and insects. Her shape-shifting allows her to know the ways of the natural world, though only to a point. When her own awakening body starts to intrigue her, she asks her uncle Osip to "teach me human sex." *The Body of the Beasts* is an imaginative tour de force, a beautifully described portrait of a world that exists outside of words; an uninhibited and erotic novel that, in the singular tradition of Québécois Boreal Gothic, explores our humanity — and animal nature.

Oedipus on the Road is a rendering of the journey that leads Oedipus from Thebes to Colonus - and from a world of exile to one of legend. This is the chapter that Sophocles never wrote, the redemptive passage of the fallen, blinded king to his final - this time glorious - encounter with destiny. Bauchau finds Oedipus stranded outside the walls of his former palace, eye sockets and soul still bleeding, and leads him - along with his daughter Antigone and the seductive shepherd-bandit Cluius, whose loyalty to the pair probably has less to do with his allegiance to Oedipus than his intentions toward his daughter - through a geographical and spiritual landscape littered with the physical, artistic, and mental rites of passage that separate Oedipus from immortality.

Those who want to be our rulers have to provide food to all citizens at reasonably affordable prices as well as to ensure that those who produce food have reasonable dividends for their products and labour. If there is rural indebtedness, then a solution has to be found; if there is a surplus production, then the farmers must not be made to incur a loss; if there is a shortage of pulses, wheat, or rice then the government must import, whatever the cost. Different players, internal and external, with different and varying assets, potential, resources and capacities compete to hijack the governmental policies in their favour. This is the basic stuff of political economy. Politicians and policy-advocates are battling in a game over which they do not have total control. The consequences are uneven, sometime even cruel. Mohan Guruswamy and his two colleagues have competently tried to cut through a very difficult and vexatious subject, giving the trade-off involved in various choices. This study should stimulate an informed debate. From the Foreword by Harish Khare (The Hindu)

In this extraordinary breakout novel—a rich, devastatingly humorous epic of one unforgettable family—award-winning author Eric Dupont illuminates the magic of stories, the bonds of family, and the twists of fate and fortune to transform our lives. Over the course of the twentieth century, three generations of the Lamontagnes will weather love, passion, jealousy, revenge, and death. Their complicated family dynamic—as dramatic as Puccini's legendary opera, *Tosca*—will propel their rise, and fall, and take them around the world . . . until they finally confront the secrets of their complicated pasts. Born on Christmas, Louis Lamontagne, the family's patriarch, is a larger-than-life lothario and raconteur who inherits his mother's teal eyes and his father's brutish good looks and whose charms travel beyond Quebec, across the state of New York where he wins at county fairs as a larger-than-life strongman, and even in Europe, where he is deployed for the US Army during World War II. We meet his daughter, Madeleine, who opens a successful chain of diners using the recipes from her grandmother, the original American *Fiancée*, and vows never to return to her hometown. And we end with her son Gabriel, another ladies' man in the family, who falls in love with a woman he follows to Berlin and discovers unexpected connections there to the Lamontagne family that re-frame the entire course of the events in the book. An unholy marriage of John Irving and Gary Shteyngart with the irresistible whimsy of Elizabeth McCracken, *The American Fiancée* is a big, bold, wildly ambitious novel that introduces a dynamic new voice to contemporary literature. Translated from the French by Peter McCambridge.

This selection of Poe's critical writings, short fiction and poetry demonstrates an intense interest in aesthetic issues and the astonishing power and imagination with which he probed the darkest corners of the human mind. *The Fall of the House of Usher* describes the final hours of a family tormented by tragedy and the legacy of the past. In *The Tell Tale Heart*, a murderer's insane delusions threaten to betray him, while stories such as *The Pit* and *The Pendulum* and *The Cask of Amontillado* explore extreme states of decadence, fear and hate.

"Since the end of the Apartheid, international tourism in South Africa has increasingly gained importance for the national economy. The centre of this PKS issue's attention is a particular form of tourism: township tourism, i.e. guided tours to the residential areas of the black population. About 300,000 tourists per year visit the townships of Cape Town. The tours are also called cultural, social, or reality tours. The different aspects of township tourism in Cape Town were the subject of a geographic field study, which was undertaken during a student research project of Potsdam University in 2007. The text presents the empirical results of the field study, and demonstrates how townships are constructed as spaces of tourism."--Publisher's description.
