Since the beginning of human history Mars has been an alluring dream; the stuff of legends, gods, and mystery. The planet most like ours, it has still been thought impossible to reach, let alone explore and inhabit. Now with the advent of a revolutionary new plan, all this has changed. Leading space exploration authority Robert Zubrin has crafted a daring new blueprint, Mars Direct, presented here with illustrations, photographs, and engaging anecdotes. The Case for Mars is not a vision for the far future or one that will cost us impossible billions. It explains step-by-step how we can use present-day technology to send humans to Mars within ten years; actually produce fuel and oxygen on the planet's surface with Martian natural resources; how we can build bases and settlements; and how we can one day "terraform" Mars; a process that can alter the atmosphere of planets and pave the way for sustainable life.

How to eat for maximum brain power and health from an expert in both neuroscience and nutrition.

Like our bodies, our brains have very specific food requirements. And in this eye-opening book from an author who is both a neuroscientist and a certified integrative nutritionist, we learn what should be on our menu. Dr. Lisa Mosconi, whose research spans an extraordinary range of specialties including brain science, the microbiome, and nutritional genomics, notes that the dietary needs of the brain are substantially different from those of the other organs, yet few of us have any idea what they might be. Her innovative approach to cognitive health incorporates concepts that most doctors have yet to learn. Busting through advice based on pseudoscience, Dr. Mosconi provides recommendations for a complete food plan, while calling out noteworthy surprises, including why that paleo diet you are following may not be ideal, why avoiding gluten may be a terrible mistake, and how simply getting enough water can dramatically improve alertness. Including comprehensive lists of what to eat and what to avoid, a detailed quiz that will tell you where you are on the brain health spectrum, and 24 mouth-watering brain-boosting recipes that grow out of Dr. Mosconi's own childhood in Italy, Brain Food gives us the ultimate plan for a healthy brain. Brain Food will appeal to anyone looking to improve memory, prevent cognitive decline, eliminate brain fog, lift depression, or just sharpen their edge.

The Time Lords are an immensely civilised, and immensely powerful, race. Yet we know very little about them, save that they can live forever (barring accidents) and possess the secrets of space and

time travel. Their history has been shrouded in myth and mystery. Until now. A Brief History of Time Lords unlocks the secrets of this ancient, legendary alien race - a civilisation that inflicted some of its most notorious renegades and criminals on the universe, but was also the benevolent power that rid the cosmos of its most fearsome enemies. Drawn from the ancient records of Gallifrey, and handed down from generation to generation, this remarkable book reveals the Time Lords in all of their guises: pioneers and power-mad conspirators, time-travellers and tyrants, creators and destroyers. Be careful who you share it with.

College students facing their first illness, accident, or anxiety away from home often flip-flop between wanting to handle it themselves and wishing their parents could swoop in and fix everything. Advice from peers and “Dr. Google” can be questionable.The Ultimate College Student Health Handbook provides accurate, trustworthy, evidence-based medical information (served with a dose of humor) to reduce anxiety and stress and help set appropriate expectations for more than fifty common issues. What if you can't sleep well (or can't sleep at all) in your dorm room? What if a pill “gets stuck” in your throat? What if your roommate falls asleep (or passes out) wearing contacts, and wakes up with one painfully stuck? Your friend's terrible sore throat isn't Strep or Mono? What else could it be? What should you do for food poisoning? When do you really need X-rays for a sprained ankle or injured toe? What helps severe test anxiety or fear of public speaking? Dr. Jill Grimes has the answer to these questions and many more. Her guidebook is designed to help you: Decide if and when to seek medical help Know what to expect when you get there Plan for the worst-case scenario if you don't seek help Learn how you can prevent this in the future Realize what you can do right now, before you see a doctor Understand the diagnostic and treatment options Got questions about tattoos, smoking, vaping, pot, and piercings? No worries, Dr. Grimes has covered those topics, too, as well as a few things you might not know about the use and abuse of stimulant (ADD) prescription medications. Pair this book with the DIY First Aid Kit detailed in the bonus section to help you, your roommates, and your friends have a healthier, happier semester!

The goal of any waterman or woman is to surf, paddle or row as often as they can, as well as they can, for the rest of their life. The trouble is that few understand how to get the most from their body and when they can't, what to do about it outside of the usual layoffs, surgeries and cortisone injections. As one veteran paddler recently put it: "Ibuprofen is my second religion." There is a better way. Using insights gleaned from his experiences on the whitewater canoe and rafting national teams and improving the performance and wellbeing of the world's top athletes, Dr. Kelly Starrett has created nothing short of a movement manifesto for the water athlete. Equally applicable to the pro waterman, novice and everyone in between, Waterman 2.0 gives paddlers, surfers and rowers of all ages and abilities a one-stop guide to understanding: Basic movement baselines for optimal and sustainable performance on and off the water How to identify and fix weakest links, and become faster, stronger and more resilient Mobility techniques to help prevent, assess and address soft tissue, joint and sliding surface issues Common errors that lead to pain and performance limitations Corrective strategies that enhance movement patterns and unlock more speed and endurance

Lifestyle adaptations that enable better preparation, training and racing Tactics for more effective recovery, hydration and sleep Waterman 2.0 also features unique insights and tips from more than 30 of the world's top watermen and women, including Laird Hamilton, Kai Lenny, Emily Jackson-Troutman and Paige Alms. This book is the start of a revolution in water sports performance. Are you ready to become Waterman 2.0?

“Dr. Leo Galland, a respected global leader in the field of holistic medicine, has written an astounding book of revelations about the nature of heaven and earth, loss and pain, and love.” — Christiane Northrup, M.D., #1 New York Times best-selling author Already Here tells of the death of Leo Galland's son, Christopher, at the age of 22; the direct visual evidence Christopher showed him that our souls do go on; and the communications he received from Christopher's spirit that dramatically changed Leo's understanding of life and its meaning. In life, Christopher was a brain-damaged special needs child who challenged everyone he knew with his unpredictable behavior and uncanny insights. After his death, he revealed to Leo the real purpose of his life, as a spiritual guide who taught others by confounding their assumptions and expectations. And he began to share with Leo a new perspective on everything from the nature of good and evil to the concept of timelessness to the notion that the universe is, fundamentally, an act of love. Christopher's wisdom was revealed to Leo over the course of a year, coalescing into three themes, which Leo calls the Gift of the Opposite, the Gift of Presence, and the Gift of Timelessness. Leo quickly came to realize that these gifts were not for him alone: they contain ancient wisdom, held sacred in many traditions, that Chris intended him to share with others. He has written this book, under Chris's direction, to do just that. Already Here presents a unique dialogue in which an analytical, scientific mind tries to comprehend truths from another plane of existence—one that, nonetheless, is inseparable from our own. Chris describes Heaven and Earth, spirit and matter, as unified opposites that cannot exist without each other and cannot be separated from human consciousness. The book takes its title from Christopher's final message to Leo, in which he describes Heaven as an “eternal present” where everyone is together, even those of us still living earthly lives. “Lighten up,” Christopher says to his father. “You're already here, you know.”

First published in 1911, this vintage book contains extracts from the diary of John William Polidori, and chiefly those parts relating to his relationships with Byron, Shelley, and others of the Romantic movement. John William Polidori (7 September 1795 - 24 August 1821) was an English writer and physician famous for his associations with the Romantic movement and for being, as many maintain, the creator of the vampire genre of fantasy fiction. His most notable work was the short story "The Vampyre" (1819). This volume will appeal to those with an interest in the life of Polidori and especially those who he associated with, namely Lord Byron and Percy Bysshe Shelley. Other notable works by this author include: "Cajetan" (1816), "Boadicea" (1816), and "On the Punishment of Death" (1816). Many vintage books such as this are increasingly scarce and expensive. It is with this in mind that we are republishing this volume now in an affordable, modern, high-quality edition complete with a specially-commissioned new introduction of the author.

Improve your athletic performance, extend your athletic career, treat stiffness and achy joints, and prevent and rehabilitate injuries—all without having to seek out a coach, doctor, chiropractor, physical therapist, or massage therapist. In *Becoming a Supple Leopard*, Dr. Kelly Starrett—founder of MobilityWOD—shares his revolutionary approach to mobility and maintenance of the human body and teaches you how to hack your own movement, allowing you to live a healthier, more fulfilling life. This new edition of the New York Times and Wall Street Journal bestseller has been thoroughly revised to make it even easier to put to use. Want to truly understand the principles that guide human movement? *Becoming a Supple Leopard* lays out a blueprint for moving safely and effectively through life and sport. Want to learn how to apply those principles to specific movements, whether you are doing squats in the gym or picking up a bag of groceries? Hundreds of step-by-step photos show you not only how to perform a host of exercise movements, such as the squat, deadlift, pushup, kettlebell swing, clean, snatch, and muscle-up, but also how to correct the common faults associated with those movements. Frustrated because you can't perform a certain movement correctly due to range of motion restrictions? Breaking the body down into 14 distinct areas, Starrett demonstrates hundreds of mobilization techniques that will help you resolve restrictions and reclaim your mobility. Unsure how to put it all together into a program that addresses your individual needs? This updated edition lays out dozens of prescriptions that allow you to hone in on a specific limitation, a nagging injury, or an exercise fault that you just can't seem to get right. It even offers a 14-day full-body mobility overhaul. Performance is what drives us as human beings, but dysfunctional movement patterns can bring the human body to an abrupt halt. Often, the factors that impede performance are invisible even to seasoned athletes and coaches. *Becoming a Supple Leopard* makes the invisible visible. Whether you are a professional athlete, a weekend warrior, or simply someone wanting to live healthy and free from physical restrictions, this one-of-a-kind training manual will teach you how to harness your athletic potential and maintain your body. Learn how to perform basic maintenance on your body, unlock your athletic potential, live pain-free...and become a Supple Leopard. This step-by-step guide to movement and mobility will

show you how to: • Move safely and efficiently in all situations • Organize your spine and joints in optimal, stable positions • Restore normal function to your joints and tissues • Accelerate recovery after training sessions and competition • Properly perform strength and conditioning movements like the squat, bench press, pushup, deadlift, clean, and snatch • Build efficient, transferable movement patterns and skill progressions from simple to more advanced exercises • Identify,

diagnose, and correct inefficient movement patterns • Treat and resolve common symptoms like low back pain, carpal tunnel, shoulder pain, and tennis elbow • Prevent and rehabilitate common athletic injuries Use mobilization techniques to address short and stiff muscles, soft tissue and joint capsule restriction, motor control problems, and joint range of motion limitations • Create personalized mobility prescriptions to improve movement efficiency
