A thorough and incisive introduction to contemporary India The story of the forging of India, the world's largest democracy, is a rich and inspiring one. This volume, a sequel to the best-selling

India's Struggle for Independence, analyses the challenges India has faced and the successes it has achieved, in the light of its colonial legacy and century-long struggle for freedom. The book describes how the Constitution was framed, as also how the Nehruvian political and economic agenda and basics of foreign policy were evolved and developed. It dwells on the consolidation of the nation, examining contentious issues like party politics in the Centre and the states, the Punjab problem, and anti-caste politics and untouchability. This revised edition offers a scathing analysis of the growth of communalism in India and the use of state power in furthering its cause. It also documents the fall of the National Democratic Alliance in the 2004 General Elections, the United Progressive Alliance's subsequent rise to power and the Indo-US Nuclear Deal that served to unravel the political consensus at the centre. Apart from detailed analyses of Indian economic reforms since 1991 and wide-ranging land reforms and the Green Revolution, this new edition includes an overview of the Indian economy in the new millennium. These, along with objective assessments of Jawaharlal Nehru, Indira Gandhi, Jayaprakash Narayan, Lal Bahadur Shastri, Rajiv Gandhi, Vishwanath Pratap Singh, Atal Bihari Vajpayee and Manmohan Singh, constitute a remarkable overview of a nation on the move.

Is the Indian Administrative Service (IAS) still the most appropriate institution to govern twenty-first-century India? Should a cadre of generalists head organizations as complex and diverse as industrial units; museums and rural development boards? If it had to be replaced; what is the best alternative? Drawing on his experience of thirty-six years in the IAS; Bhaskar Ghose addresses these and other major questions regarding the role; relevance and effectiveness of India's long-established but often controversial system of state administration in *The Service of the State*. Ghose argues forcefully that the IAS is still the best option and one moreover that substantially fulfils its functions—and fulfils them well. Though its once sterling reputation has been tarnished by allegations of corruption; political subservience and declining standards of efficiency; there are still sufficient numbers of dedicated public servants. These administrators; spanning diverse social backgrounds; seniorities and regional profiles; draw on established traditions of duty and of cooperation within the service to deliver—to the best of their ability and often in the face of considerable odds—the goods of development. This reflective and luminous memoir is not only a portrait of a lifetime's service to the state; it is also a timely and persuasive argument for a system of governance that has had a critical impact on India since Independence.

How many, in a Mumbai room full of Hermes ties and finance whizkids, are Dalit? What if Mahesh Bhatt's son, David Headley's friend, had been a Muslim? Why is Delhi getting better as a city and Mumbai going downhill? When did the Congress first start shrinking its prime minister? When did it become clear that Narendra Modi would take over his party? Who are the HMTs? And what does an angry Arvind Kejriwal say about us? Raising such questions is the hallmark of Shekhar Gupta's National

Interest, the most eagerly awaited news and current affairs column in Indian journalism. Informed by three decades and more of formidable reporting and a credibility that gives Gupta unrivalled access to decision makers in government, politics and business, the best of these columns in Anticipating India explain and interpret, provoke and predict change for more than a billion people. A riveting first draft of modern Indian history, Anticipating India interprets everything from the successes and failings of Atal Bihari Vajpayee and Manmohan Singh to the ascent of Rahul Gandhi, Narendra Modi and Arvind Kejriwal, from the forces that have deepened Indian federalism and constitutionalism to the public mood that keeps a check on excesses in the use of political power. Each chapter in Anticipating India, in its questioning of power, its use and abuse, carries within it ideas of India that challenge conventional wisdom, shatter stereotypes and, in the end, question our long-held assumptions of who we are as a nation and a people.

A Brief History of Modern India Publications Division Ministry of Information & Broadcasting

This book focuses on the role of U.S. and European churches, academics, think-tanks, foundations, government and human rights groups in fostering separation of the identities of Dravidian and Dalit communities from the rest of India. It is the result of five years of research, and uses information obtained in the West about foreign funding of these Indian-based activities. The research tracked the money trails that start out claiming to be for education, human rights, empowerment training and leadership training, but end up in programs designed to produce angry youths who feel disenfranchised from Indian identity. The book

reveals how outdated racial theories continue to provide academic frameworks and fuel the rhetoric that can trigger civil wars and genocides in developing countries. The Dravidian movement's 200-year history has such origins. Its latest manifestation is the Dravidian Christianity - movement that fabricates a political and cultural history to exploit old faultlines. The book explicitly names individuals and institutions, including prominent Western ones and their Indian affiliates. Its goal is to spark an honest debate on the extent to which human rights and other empowerment projects are cover-ups for these nefarious activities.

Non-Stop India By Mark Tully Jagaar can loosely be translated as muddling through, or making do. This is undoubtedly a valuable talent and has seen India through numerous crises which could have destabilised a country that is less adaptable - four wars, for example. But while Jagaar can be seen to have served India well in the past, it has a downside. It has led to a dangerous complacency, the belief that as India has muddled through so many times before, there is no need for urgency in tackling the problems it faces. In *Non Stop India* veteran journalist Mark Tully draws on his unmatched knowledge of India, garnered from thirty years of living in, and reporting from, the country, to examine how this approach impacts on her much-touted prospects of becoming an economic super-power. From Maoist conflicts to huge industrial houses; from the Tiger project to farmer suicides; from the Ramayana to the remote valleys of the north-east, Tully examines India's myriad negotiations with modernity and her prospects for the next century and beyond. Today, India is likely

to become one of the major economies of the twenty-first century. But many unresolved questions remain about the sustainability of such growth and its effect on the stability of the nation. Veteran journalist Mark Tully draws on thirty years of reporting India and travels the length and breadth of the country to find the answers. Have the changes had any impact on the poor and marginalised? How can the development of the country's creaking infrastructure be speeded up to match its huge advances in technology and industry? With a gift for finding the human stories behind the headlines, he looks at the pressing concerns in different areas of life such as governance, business, spirituality and ecology. In revealing interviews with captains of industry and subsistence farmers, politicians and Dalits, spiritual leaders and bandits, Mark Tully captures the voices of the nation. From the survival of India's languages and the protection of wildlife, to the nation's thriving industries and colourful public affairs, *Non-Stop India* is a testament to India's vibrant history and incredible potential, offering an unforgettable portrait of this emerging superpower at a pivotal moment of its history. About The Author Sir Mark Tully was born in Calcutta, India in 1935. He was the Chief of Bureau, BBC, New Delhi for twenty-two years, was knighted in the New Year's Honours list in 2002 and was awarded the Padma Bhushan in 2005. Pax indica : India and the world of the 21st century Harper Collins

The essays in this volume present an analytical appraisal of public institutions in India. The purpose here is not just to give a history of these institutions but to ask what explains their performance and what might be learnt from their experience. It assesses the manner in which they assist, thwart, manipulate, and subvert each other. The aim is to provide a complex account of the modalities through which state power is exercised and policy enacted. This study contributes to debates on institutional change and reform that are currently underway in India by bringing more analytical rigour and enlarging the parameters of the debate. These debates are particularly important given that Indian economy and society have changed profoundly in the last decade and a half. Much of the discussion is on how state institutions like the civil service, the courts, the police, parliament, and regulatory institutions will need to be reconfigured to better adapt to changing circumstances.
