School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal becomes an ongoing issue it can negatively impact the child's social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. *Overcoming School Refusal* helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include: • types of school refusers • why children refuse to go to school • symptoms • short term and long term consequences • accurate assessment • treatment options • what parents can do • what schools can do • dealing with anxious high achievers • how to help children on the autism spectrum with school refusal

This book aims to take users from scratch to having a solid base in German within six months, and to feel comfortable with the language in as little as three months. In only half an hour a day users will move ahead naturally until they are at ease with all the basic structures needed for communication and become familiar with the basic words and grammar of German. The method comprises two phases: the passive phase, in which users simply repeat what they hear and read, and the active phase, in which users begin to create sentences and imagine themselves in a variety of everyday situations.

Responding to the comprehensive topic 'Old Environments - New Environments', scholars from a variety of disciplines reflect the various connotations that the term 'environment' carries in a Canadian context. Whether moving within the realm of foreign policy, visual arts, constitutional questions, tourism, nature preservation or aboriginal rights, these essays put the capaciousness and cohesiveness of the nation to the test by illustrating the pressures enforced upon it by multiculturalism, the claims for self-determination, anti-confederate agitation and globalisation. The environments scrutinised are many and various, but within each the linchpin remains the quest for identity on the part of the individual, the group or the nation at large. Individually as well as collectively, the essays in this volume constitute an important contribution to the ongoing debate on Canadianness.

This book examines the emerging phenomenon of slow tourism, addressing growing consumer concerns with quality leisure time, environmental and cultural sustainability, as well as the embodied experience of place. Drawing on a range of international case studies, the book explores how slow tourism encapsulates a range of lifestyle practices, mobilities and ethics.

This volume examines the area of second language vocabulary studies from three broad perspectives: description, acquisition and pedagogical context. The book's fifteen chapters are grouped together to achieve a balance between descriptions of what vocabulary is and how it behaves, how the mind learns new vocabulary and then uses it when it is learned, and pedagogical issues of teaching and testing L2 vocabulary. Some of the specific topics addressed in these three general areas include: - word frequency and vocabulary size, multi-word units, variation between spoken and written language; - models of lexical acquisition, first language influences on second language vocabulary acquisition, vocabulary learning strategies; - vocabulary and the syllabus, trends in teaching and testing vocabulary, lexical reference sources.

This panoramic reappraisal shows why the Habsburg Empire mattered for so long to so many Central Europeans across divides of language, religion, and region. Pieter Judson shows that creative government—and intractable problems the far-flung empire could not solve—left an enduring imprint on successor states. Its lessons are no less important today.

Penguin Readers is an ELT graded reader series. Please note that the eBook edition does NOT include access to the audio edition and digital book. Written for learners of English as a foreign language, each title includes carefully adapted text, new illustrations and language learning exercises. Titles include popular classics, exciting contemporary fiction, and thought-provoking non-fiction, introducing language learners to bestselling authors and compelling content. The eight levels of Penguin Readers follow the Common European Framework of Reference for language learning (CEFR). Exercises at the back of each Reader help language learners to practise grammar,

vocabulary, and key exam skills. Before, during and after-reading questions test readers' story comprehension and develop vocabulary. David Copperfield, a Level 5 Reader, is B1 in the CEFR framework. The text is made up of sentences with up to four clauses, introducing present perfect continuous, past perfect, reported speech and second conditional. It is well supported by illustrations, which appear regularly. David Copperfield lives happily with his mother and his nurse, Peggotty. Then his mother marries Mr Murdstone, and he and his sister come to live with them. Suddenly everything changes . . .
