The Murals of Diego Rivera

Journeyman Press (UK)

Commemorating the 50th death anniversary of internationally acclaimed artist Diego Rivera, (b. Mexico 1886-1957), author Tibol presents 20 years later a second bilingual and updated version of her previous book "Diego Rivera ilustrador" (SEP, 1986). The book examines Rivera as a prolific and imaginative illustrator of books, magazines, newspapers and posters that skillfully moved in all the predominant art styles of his time: from the late romantic realism, through cubism, mexicanism, indigenism, surrealism, the allegoric prehispanic representation to neorealism. This new modified edition includes works recently located in private collections not included in the previous one.

Diego Rivera offers young readers unique insight into the life and artwork of the famous Mexican painter and muralist. The book follows Rivera's career, looking at his influences and tracing the evolution of his style. His work often called attention to the culture and struggles of the Mexican working class. Believing that art should be for the people, he created public murals in both the United States and Mexico, examples of which are included. The book contains a list of museums where you can see Rivera's art, a historical note, a glossary, and a bibliography. Praise for *Diego Rivera: An Artist for the People* STARRED REVIEWS "With engaging prose that is beautifully illustrated with Diego Rivera's

paintings and murals, this spacious volume introduces the great Mexican artist to young people. Accompanied by crisply reproduced color images of both the bright, minutely detailed murals as well as archival photos of the artist at work, the accessible account discusses how Diego constructed his art..." -- Booklist, starred review "The stunning illustrations include images of Rivera's murals, his "cartoon" drawings, reproductions of art that he found influential, and photographs. The design, with scrollwork along the top and bottom and an unusual placement of page numbers, exudes style. The text is clearly written, straightforward, and attention-grabbing, with a good number of quotes interspersed throughout." -- School Library Journal, starred review "A carefully researched, cogently argued and handsomely produced appreciation." --Kirkus Reviews "There is life to these pages, and breadth to its subject. Short enough to reward a wary reader but with enough context and clarity to bring Diego to life, Rubin takes a tricky guy for kids to know about and makes him precisely what he was: bigger than life." --School Library Journal, Fuse 8 Blog "Enhanced by gorgeously reproduced photos and artwork, Rubin's account follows the Mexican artist from his early drawings -- as a small child, he was given free rein in a room "covered with black canvas as high as he could reach" -- through his eventful, productive life." -The Washington Post "Rubin traces Rivera's life from his emergent boyhood talent, through the formal studio education that left him restless and professionally unsatisfied, to realizing his calling to create massive public artworks for the common people, celebrating the dignity of their labor." --Bulletin of the Center for Children's Books Award

Diego Rivera Scala Books

Diego Rivera's America revisits a historical moment when the famed muralist and painter, more than any other artist of his time, helped forge Mexican national identity in visual terms and imagined a shared American future in which unity, rather than division, was paramount. This volume accompanies a major exhibition highlighting Diego Rivera's work in Mexico and the United States from the early 1920s through the mid-1940s. During this time in his prolific career, Rivera created a new vision for the Americas, on both national and continental levels, informed by his time in both countries. Rivera's murals in Mexico and the U.S. serve as points of departure for a critical and contemporary understanding of one of the most aesthetically, socially, and politically ambitious artists of the twentieth century. Works featured include the greatest number of paintings and drawings from this period reunited since the artist's lifetime, presented alongside fresco panels and mural sketches. This catalogue serves as a guide to two crucial decades in Rivera's career, illuminating his most important themes, from traditional markets to modern industry, and devoting attention to iconic paintings as well as works that will be new even to scholars—revealing

fresh insights into his artistic process. It was as a revolutionary and troublemaker that Picasso, Dal and Andre Breton described the husband of Frida Kahlo, Diego Rivera, but he was also responsible for creating a public art that was both highly advanced and profoundly accessible. This study presents the work of this extraordinary artist.

JR: Can Art Change the World? Frances Lincoln

The self-portraits of Mexican artist Frida Kahlo are renowned for their dream-like quality and emotional intensity. A passionate woman endowed with an indomitable spirit, Kahlo overcame injury and personal hardship to become one of the world's most important female artists. Celebrated by the surrealists in her own lifetime, she has attained cult-like status both for her extraordinary art and her tempestuous love-life with her husband, Diego Rivera, Mexico's most prominent modern painter. An outstanding selection of paintings by Kahlo and Rivera form the core of this catalogue, which accompanies the National Gallery of Australia's exhibition. Jacques Gelman, the Russian emigre film producer, and his wife, Natasha, built up their collection over many years of acquaintance and collaboration with Mexico's greatest creative artists. It is now widely regarded as the most significant private holding of twentieth century American art.

Diego Rivera's (1886-1957) Detroit Industry fresco cycle in the Detroit Institute of Arts is the finest Mexican-style mural in the United States. Completed in nine months, between July 1932 and March 1933, the murals are a tribute to Detroit industry and labour, and Rivera considered the cycle to be the most successful work of his career. Throughout the mural Rivera celebrates the harmonies between man, nature and machine. The cycle begins on the east wall, which depicts the origins of human life and technology. The panels on the west wall represent technologies of air and water and introduce the automobile industry. The north wall is devoted to representations of two races of humanity, the automobile industry and scenes from other major Detroit industries: medicine, pharmaceuticals and commercial chemicals. Panels on the south wall primarily depict the production of an automobile body. This unique volume will detail the murals with horizontal and vertical fold-outs ideal for the paintings size and scope. A lively text will include information on the artist and his technique, the patron (Edsel Ford) and a detailed analysis of the various panels that make up the fresco cycle. 50 colour illustrations

Here are the life and works of Diego Rivera: folk hero, husband of Frida Kahlo, and one of Mexico's greatest artists. His giant murals depicting social change still grace the halls of Mexico's public buildings. Much of the photography for this book required scaffolding to achieve the greatest accuracy and show Rivera's murals in detail.

Diego Rivera Abrams

In 1931, Diego Rivera was the subject of The Museum of Modern Art's second monographic exhibition, which set attendance records in its five-week run. The Museum brought Rivera to New York six weeks before the opening and provided him a studio space in the building. There he produced five 'portable murals' - large blocks of frescoed plaster, slaked lime and wood that feature bold images drawn from Mexican subject matter and address themes of revolution and class inequity. After the opening, to great publicity, Rivera added three more murals, taking on New York subjects through monumental images of the urban working class. Published in conjunction with an exhibition that brings together key works from Rivera's 1931 show and related material, this vividly illustrated catalogue casts the artist as a highly cosmopolitan figure who moved between Russia, Mexico and the United States and examines the intersection of art-making and radical politics in the 1930s.
