XIMENA SHEPARD

Shaping Femininity Courier Corporation

Garments and accessories are prominent in almost all of William Shakespeare's plays, from Hamlet and Othello to A Midsummer Night's Dream and Twelfth Night. The statement 'Clothes maketh the man' was one that would have resonated with their audiences: the rise of England's merchant class had made issues of rank central to Elizabethan debate, and a rigid table of sumptuary laws carefully regulated the sorts of fabric and garment worn by the different classes. From the etiquette of courtly dress to the evolution of the Elizabethan ruff, in this vibrant introduction Sarah Jane Downing explores the sartorial

world of the late-16th century, why people wore the clothes they did, and how the dizzyingly eclectic range of fashions (including ruffs, rebatos and French farthingales) transformed over time.

The Tudor Tailor Bloomsbury Publishing

Inspired by new approaches in performance studies, theatre history, research in material culture and dress history, a rich discussion of the many aspects of costume in Shakespearean performance has begun. *Shakespeare and Costume* furthers this research, bringing together varied and stimulating essays by leading scholars that consider costume from literary, dramatic, design, performative and theatrical perspectives, as well as interviews with renowned theatre practitioners Jane Greenwood and Robert Morgan. The volume amply demonstrates how an analysis of the meaning of costume enriches our understanding of Shakespeare's plays. Beginning with an overview of the stage

history of Shakespeare and costume, the volume looks at the historical context of clothing in the plays, considering topics such as royal self-fashioning, festive livery practices, and conceptions of race and gender exhibited in clothing choice, as well as costume in performance. Drawing on documentary evidence in designers' renderings, illustrations in periodicals, paintings, photographs, newspaper reviews and actors' memoirs, the volume also explores costume designs in specific Shakespeare productions from the re-opening of the London theatres in 1660 to the present day.

Elizabethan England London : R. Bentley

Relatively few garments survive from before the eighteenth century, and the history of costume in the preceding centuries must therefore rely to a great extent on literary and visual evidence. This book, the first of its kind, examines Stuart England through the mirror of dress. It argues that both artistic and literary sources can be read and decoded for important information on dress and the way it was perceived in a period of immense political, social, and cultural change. Focusing on the rich visual culture of the seventeenth century, including portraits, engravings, fashion plates, and sculpture, and on literary sources--poetry, drama, essays, sermons--the distinguished historian of dress Aileen Ribeiro creates a fascinating account of Stuart dress and how it both reflected and influenced society. Supported by a wealth of illustrative images, she explores such varied themes as court costumes, the masque, the ways in which political and religious ideologies could be expressed in dress, and the importance of London as a fashion center. This beautiful book is an indispensable and authoritative account of what people

wore and how it related to Stuart England's cultural climate.

Facts on File

2 dolls and 16 lovely costumes: fur-trimmed cloaks, velvet gowns, modified suit of armor, elaborately decorated trunks, skirts and bodices.

Chronicles of Fashion Yale University Press

Spurred by an increasingly international and competitive market, the Renaissance saw the development of many new fabrics and the use of highly prized ingredients imported from the New World. In response to a thirst for the new, fashion's pace of change accelerated, the production of garments provided employment for an increasingly significant proportion of the working population, and entrepreneurial artisans began to transform even the most functional garments into fashionable ones. Anxieties concerning vanity and the power of clothing to mask identities heightened fears of fashion's corrupting influence, and heralded the great age of sumptuary legislation intended to police status and gender through dress. Drawing on sources from surviving garments to artworks to moralising pamphlets, this richly illustrated volume presents essays on textiles, production and distribution, the body, belief, gender and sexuality, status, ethnicity, and visual and literary representations to illustrate the diversity and cultural significance of dress and fashion in the period.

Fashion in the Time of William Shakespeare Courier

Corporation

Elizabethan England Facts On File

Dress in the Age of Elizabeth I Holmes & Meier Publishers

This book provides photographs of portraits, miniatures, tomb sculptures, engravings, woven textiles and embroideries of clothes found in the wardrobe of Queen Elizabeth. It is an invaluable reference for students of the history of dress and embroidery, for social historians and art historians.

Fashion Revivals Bloomsbury Publishing

The meanings originally communicated by Elizabethan and Jacobean dress have long been confined to history. Why, then, have doublets, hose, ruffs and farthingales featured in many Shakespeare productions staged since the turn of the 21st century? This book scrutinizes the popular practice of costuming Shakespeare's plays in Elizabethan and Jacobean dress. It considers why this approach to design appeals to contemporary directors, designers and audiences, and how it has shaped the meaning of Shakespeare's works in specific performance contexts. Informed by original interviews with several prominent theatre practitioners, including Emma Rice, Gregory Doran, Jenny Tiramani, Simon Godwin, Stephen Brimson Lewis and Tom Piper, *Shakespeare in Elizabethan Costume* explores how various 21st-century Shakespeare productions have drawn on myths and desires associated with early modern clothing. Its discussions range from the practicalities of historical reconstruction to the appeal of early modern sartorial culture as an embodiment of wonder, spectacle and the supernatural. Productions discussed include Shakespeare's Globe's production of *Henry V* (1997), the National Theatre's *Twelfth Night* (2017) and the Royal Shakespeare Company's *The Tempest* (2016). Ella Hawkins examines the minutiae of modern design -- how seams are sewn,

whence fabrics are sourced -- as well as the widespread cultural movements that have produced our modern relationship with the period of Shakespeare's lifetime. This is the first book to explore fully the significance of Elizabethan-inspired design in contemporary Shakespearean performance. *Shakespeare in Elizabethan Costume* reframes so-called 'period' costuming as a dynamic collection of practices capable of refashioning textual meanings, reflecting present-day political and societal shifts and confronting contemporary injustices.

Renaissance Clothing and the Materials of Memory Bloomsbury Publishing

The study of medieval clothing and textiles reveals much about the history of our material culture, as well as social, economic and cultural history as a whole. This book makes use of archaeological finds and text references in order to examine this history, providing an overview of historic fashions.

Medieval Clothing and Textiles Courier Corporation

Froebel-Parker's book about paternal and maternal Harrington ancestors is the second book dedicated to his "Ahnentafel." Friedrich and the First Kindergarten dealt with his ancestor, Friedrich Froebel, founder of the first kindergarten. In *Grandma Harrington and the Queen's Wardrobe*, Froebel-Parker recounts the story of Mary Rogers, Lady Harrington, wife of Queen Elizabeth I's favorite godson and recipient of many gowns from the queen's royal wardrobe. He sews the connections between the Harringtons and Tudors into little Robert Harrington's journey to the Massachusetts Bay Colony as part of the Winthrop Fleet in 1630.

The Queen's Wardrobe Simon and Schuster

Table of contents

English Costume Costume & Fashion Press/Quite Specific Media
The paperback edition of this captivating story of Tudor dress, and the people who made and wore it The Tudors are some of the best-known figures in history. They continue, even today, to spark our curiosity and imagination. Their enduring popularity is no doubt partly due to the iconic portraits in which they are depicted, in farthingales and ruffs, furs and jewels, codpieces and cloaks, and vast expanses of velvet and silk. Far from being mere decoration, fashion was pivotal in the communication of status and power. This paperback edition of Tudor Textiles presents insights into the fashions of the Tudor dynasty. Histories of Kings and Queens complement stories of unsung dressmakers, laundresses, and officials charged with maintaining and transporting the immense Tudor wardrobes from palace to palace. Evidence from rare surviving garments and textiles, original documents, fine and decorative art, and archaeological findings enhance our understanding of the Tudors and their courts. Handsomely illustrated, this sumptuous book contextualizes Tudor dress and fills in gaps in our knowledge of the period and its fascinating historical figures.

Elizabethan England Boydell Press

"The new 35 volume "Clothing of Common People in Elizabethan and Early Stuart England (1558-1660)" series is by far the most detailed and all embracing study of the costume of the normal people of England so far undertaken for the period of Elizabeth, Shakespeare and the English Civil War. It draws on the study of surviving garments, paintings, plasterwork, over 18,000 wills and inventories and over 71,000 pre 1660 books and pamphlets. It

rigorously examines and justifies whether the original evidence is trustworthy before moving on to analyse the nature of the clothes and how to construct replicas"--Publisher's website.

Tudor Fashion Bloomsbury Publishing

Throughout history rulers have used clothes as a form of legitimization and propaganda. While palaces, pictures, and jewels might reflect the choice of a monarch's predecessors or advisers, clothes reflected the preferences of the monarch himself. Being both personal and visible, the right costume at the right time could transform and define a monarch's reputation. Many royal leaders have known this, from Louis XIV to Catherine the Great and from Napoleon I to Princess Diana. This intriguing book explores how rulers have sought to control their image through their appearance. Mansel shows how individual styles of dress throw light on the personalities of particular monarchs, on their court system, and on their ambitions. The book looks also at the economics of the costume industry, at patronage, at the etiquette involved in mourning dress, and at the act of dressing itself. Fascinating glimpses into the lives of European monarchs and contemporary potentates reveal the intimate connection between power and the way it is packaged.

Elizabethan Costumes Paper Dolls Yale University Press

This delightfully charming and saucy Regency era romance, is first in the Governess series in which three best friends are employed as governesses for different families, and all find themselves wanting something they can't have. Elizabeth Porter is quite happy with her position as the governess for two sneaky-yet-sweet girls when she notices that they have a penchant for falling ill and needing the doctor. As the visits from the dashing

and handsome Doctor Edward Fellows become more frequent, Elizabeth quickly sees through the lovesick girls' ruse. Yet even Elizabeth can't help but notice Edward's bewitching bedside manner even as she tries to convince herself that someone of her station would not make a suitable wife for a doctor. But one little kiss won't hurt...

Shakespeare and Costume Other Times Productions

Paris has been the international capital of fashion for more than 300 years. Even before the rise of the haute couture, Parisians were notorious for their obsession with fashion, and foreigners eagerly followed their lead. From Charles Frederick Worth to Gabrielle "Coco" Chanel, Christian Dior, and Yves Saint Laurent, fashion history is dominated by the names of Parisian couturiers. But Valerie Steele's *Paris Fashion* is much more than just a history of great designers. This fascinating book demonstrates that the success of Paris ultimately rests on the strength of its fashion culture - created by a host of fashion performers and spectators, including actresses, dandies, milliners, artists, and writers. First published in 1988 to great international acclaim, this

pioneering book has now been completely revised and brought up to date, encompassing the rise of fashion's multiple world cities in the 21st century. Lavishly illustrated, deeply learned, and elegantly written, Valerie Steele's masterwork explores with brilliance and flair why Paris remains the capital of fashion.

Elizabethan England Bloomsbury Visual Arts

Monumental study of English fashions from 1485 through 1603 surveys clothing worn by all classes and includes headgear, hairstyles, jewelry, collars, footwear, and other accessories. 1,000 black-and-white figures. 24 halftones. 22 color plates.

Elizabethan Costuming for the Years 1550-1580

Bloomsbury Publishing

Presents a pictorial history of key events, people, and designers in fashion design during the sixteenth century in Elizabethan England.

A History of Fashion and Costume Elizabethan England

"This book aims to identify the clothing of the common people of England in the period from 1558 to 1660 and to make it possible to create plausible, working reconstructions of garments"--P. 4.
