Douglas Coupland's valentine to Canada looks at how it feels to be a Canadiannow and imagines what it might feel like to be a Canadian in the future. *Blueprint for a Conservative Revolution* Wilfrid Laurier Univ. Press In this instant national bestseller, comedy superstar Mike Myers writes from the (true patriot) heart about his 53-year relationship with his beloved Canada. Mike Myers is a world-renowned actor, director

and writer, and the man behind some of the most memorable comic characters of our time. But as he says: "no description of me is truly complete without saying I'm a Canadian." He has often winked and nodded to Canada in his outrageously accomplished body of work, but now he turns the spotlight full-beam on his homeland. His hilarious and heartfelt new book is part memoir, part history and pure entertainment. It is Mike Myers' funny and

thoughtful analysis of what makes Canada Canada, Canadians Canadians and what being Canadian has always meant to him. His relationship with his home and native land continues to deepen and grow, he says. In fact, American friends have actually accused him of enjoying being Canadian--and he's happy to plead guilty as charged. A true patriot who happens to be an expatriate, Myers is in a unique position to explore Canada from within and without. With this, his first

book, Mike brings his love for Canada to the fore at a time when the country is once again looking ahead with hope and national pride. Canada is a wholly subjective account of Mike's Canadian experience. Mike writes, "Some might say, 'Why didn't you include this or that?' I say there are 35 million stories waiting to be told in this country, and my book is only one of them." This beautifully designed book is illustrated in colour (and not color) throughout, and its visual treasures

include personal photographs and Canadiana from the author's own collection. Published in the lead-up to the 2017 sesquicentennial, this is Mike Myers' birthday gift to his fellow Canadians. Or as he puts it: "In 1967, Canada turned one hundred. Canadians all across the country made Centennial projects. This book is my Centennial Project. I'm handing it in a little late. . . . Sorry." From the Hardcover edition.

Presidential Address Before the Royal Society of Canada, 1914 Kids Can Press Ltd
Indigenous activism put small-town northern Ontario on the map in the 1960s and early 1970s. Kenora, Ontario, was home to a four-hundred-person march, popularly called "Canada's First Civil Rights March," and a two-month-long armed occupation of a small lakefront park. Canada's Other Red Scare shows

how important it is to link the local and the global to broaden narratives of resistance in the 1960s; it is a history not of isolated events closed off from the present but of decolonization as a continuing process. Scott Rutherford explores with rigour and sensitivity the Indigenous political protest and social struggle that took place in Northwestern Ontario and Treaty 3 territory from 1965 to 1974. Drawing on archival documents, media coverage, published interviews,

memoirs, and social movement literature, as well as his own lived experience as a settler growing up in Kenora, he reconstructs a period of turbulent protest and the responses it provoked, from support to disbelief to outright hostility. Indigenous organizers advocated for a wide range of issues, from better employment opportunities to the recognition of nationhood, by using such tactics as marches, cultural production, community organizing, journalism,

and armed occupation. They drew inspiration from global currents - from black American freedom movements to Third World decolonization - to challenge the inequalities and racial logics that shaped settler-colonialism and daily life in Kenora. Accessible and wide-reaching, *Canada's Other Red Scare* makes the case that Indigenous political protest during this period should be thought of as both local and transnational, an urgent exercise in confronting

the experience of settler-colonialism in places and moments of protest, when its logic and acts of dispossession are held up like a mirror.

The need for an ambitious and forward-looking

Canadian international strategy has never been greater. The worldwide changes that jeopardize Canadian security and prosperity are profound, ranging from the globalization of commerce, crime, and political extremism to the impact of climate change on the economy and environment. The reaction from Canada's policymakers, at least so far, has been underwhelming. In *The World Won't Wait*, some of Canada's brightest thinkers respond.

Covering both classic foreign policy issues such as international security, human rights, and global institutions and emerging issues like internet governance, climate change, and sustainable development, their essays offer fresh and provocative responses to today's challenges and opportunities. The proposals are striking and the contributors diverse: Toronto's chief city planner makes the case that Canada needs a global urban agenda, while a prominent mining

executive explains how to revitalize the country's position as a world leader in the sector. Their essays are sure to spark the kind of debate that Canada requires if its international policy is to evolve into the twenty-first century. *The Irishman in Canada* Federation Press Master's Thesis from the year 2014 in the subject Politics - International Politics - Region: Other States, grade: A, Webster University, language: English, abstract: This paper discusses Canadian foreign policy within the

framework of emerging Asian markets and the diversification of Canadian energy resources. Using Robert Putnam's (1989) two-level game theory, it identifies why Canada has been prompted to shift its focus to Asia and what domestic and international factors challenge Canadian foreign policy goals. This paper discusses these issues in the context of Canada strengthening its relations in the Asia-Pacific in general, as well as its ability to diversify its top export - oil and

natural gas - to energy hungry Asian markets.

A provocative and timely call to action for civic-minded Canadians yearning for a more competitive political system and better government. Canadians everywhere are asking: what's wrong with the Conservative Party? The Liberal Party of Canada has held power for 70 of the past 100 years--a feat unrivaled by any other political party in the

Western hemisphere. This dominance has caused a great deal of frustration on all political fronts, especially on the right. In the past two years, the long-awaited merger of the Canadian Alliance and the Progressive Conservatives has not achieved the results many were expecting. Despite the explosive revelations of the sponsorship scandal, and attempts to improve his party's image, Stephen Harper's Conservatives still trail in the polls. In *Rescuing Canada's Right*, the

authors examine the problems facing the Conservative Party and the broader conservative movement, and offer concrete solutions on how to fix them. Some of the issues the book will address: Why the Conservative Party and its predecessor parties have such a poor electoral record; Why today's Conservative Party is not really conservative. Why a new political vision is necessary to inspire Canadians--and what it should be. How the Liberals use public money

to entrench an unhealthy reliance on the state--and how the right has failed to challenge it What Canadian conservatives can learn from the American and British experiences How to build a Canadian Conservative counter-culture in the media, academia, and the law How the right can break through to the young, and to immigrants in Quebec An action plan to end Canada's democratic deficit and level the political playing field. Rescuing Canada's Right will be a hard-hitting

and groundbreaking work that will introduce new ideas and a passionate call for change for 21st century Canada.

The Fight for Canada

McGill-Queen's Press - MQUP

When U.S. President Harry Truman asked his allies for military support in the Korean War, Canada's government, led by Prime Minister Louis St-Laurent, was reluctant. St-Laurent's government was forced to change its position however, when the Canadian populace, conditioned to significant

degrees by the powerful influence of American media and culture, demanded a more vigorous response. Warming up to the Cold War shows how American cultural influence helped to undermine waning Canadian nationalism. Comparing Canadian and American responses to events such as the atomic bomb, the Gouzenko Affair, the creation of NATO, and the Korean War, Robert Teigrob traces the role that culture and public opinion played in shaping

responses to international affairs. With penetrating political and cultural insight, he examines the Cold War consensus between the two countries to reveal the ways that Canada cited "home-grown" rationales to justify its increasing subservience to American strategy and posturing. Full of fascinating insights, *Warming up the Cold War* is essential reading for anyone interested in the Cold War, the role of culture in politics, and the history of U.S.-Canada relations.

Canada Walter de Gruyter *Imagining Resistance: Visual Culture and Activism in Canada* offers two separate but interconnected strategies for reading alternative culture in Canada from the 1940s through to the present: first, a history of radical artistic practice in Canada and, second, a collection of eleven

essays that focus on a range of institutions, artists, events, and actions. The history of radical practice is spread through the book in a series of short interventions, ranging from the Refus global to anarchist-inspired art, and from Aboriginal curatorial interventions to culture jamming. In each, the historical record is mined to rewrite and reverse Canadian art history—reworked here to illuminate the series of oppositional artistic endeavours that are often

mentioned in discussions of Canadian art but rarely acknowledged as having an alternative history of their own. Alongside, authors consider case studies as diverse as the anti-war work done by John Lennon and Yoko Ono in Montreal and Toronto, recent exhibitions of activist art in Canadian institutions, radical films, performance art, protests against the Olympics, interventions into anti-immigrant sentiment in Montreal, and work by Iroquois photographer Jeff Thomas.

Taken together, the writings in *Imagining Resistance* touch on the local, the global, the national, and post-national to imagine a very different landscape of cultural practice in Canada.

Murder by Decree is an uncensored record of the planned extermination of indigenous children in Canada's murderous "Indian residential schools." It is issued as a corrective Counter Report

to the miscarriage of justice by Church and State known as the "Truth and Reconciliation Commission" (TRC). Based on eyewitness testimonies and archival documentation deliberately suppressed or ignored by the TRC, *Murder by Decree* proves that the genocide of indigenous people began as a religion-led campaign and continues to be a deliberate governmental policy in Canada. This Counter Report reveals these startling facts: - Over half of Indian

residential school children began dying the very first year these church-run facilities were opened - This huge mortality rate continued unabated for over a half century because of deliberate practices of germ warfare according to a prescribed monthly "death quota" - Evidence of these crimes and their intentional nature has been continually destroyed by the RCMP and the Catholic, Anglican and United Church since at least 1960 - The same genocide continues today,

is aimed at indigenous women and children, and is driven by foreign corporate interests hungry for native lands and resources. Murder by Decree is issued by The International Tribunal for the Disappeared of Canada (ITDC), an international coalition of jurists and human rights groups. The ITDC was formed in December, 2015 to investigate the disappearance of people in Canada, prosecute those responsible and prevent a further whitewash by Canada of

its Crimes against Humanity. This report is an answer to these crimes and an urgent summons to the world and to all Canadians to live no longer under genocidal regimes. Published by the ITDC Central Offices in Brussels and Toronto. For more information: disappearedofcanada@gmail.com
A Record of Heroism and Achievement Cambridge Scholars Publishing
 The first biography of one of Canada's most elusive and controversial billionaires. This is a solid,

thorough business book about Frank Stronach, Canada's most famous rags-to-riches story. The outline is well known: a young Austrian immigrant arrives in Canada in 1955 with fifty dollars in his pocket. He takes menial jobs like washing dishes until he can start a tiny machine shop in Toronto in 1957. The Auto Pact opens up the car-parts business. The company grows and grows, spawning many small union-free factories, until from its Aurora base it employs more than

seventy thousand people, and Frank as chairman and owner can pay himself over \$54 million in salary. Yet Wayne Lilley's book will be the very first about this eccentric, larger than life figure. As a result of dogged research, he has built up a detailed, step-by-step picture of how Magna grew -- and recovered from the brink of disaster in 1990, to its present gigantic size. It's an amazing story of business success, stranger than fiction, that along the way takes us into the world of

car-making, of horse racing (Stronach owns more than 1,000 thoroughbreds and 11 tracks in North America), and of politics (where Frank and his daughter Belinda have both played a role). Yet all the while a shareholders' 2006 lawsuit against Stronach's control of the company is ticking like a time bomb . . .

Made in Canada, Read in Spain is an edited collection of essays on the

impact, diffusion, and translation of English Canadian literature in Spain. Given the size of the world's Spanish-speaking population (some 350 million people) and the importance of the Spanish language in global publishing, it appeals to publishers, cultural agents and translators, as well as to Canadianists and Translation Studies scholars. By analyzing more than 100 sources of online and print reviews, this volume covers a wide-range of areas and

offers an ambitious scope that goes from the institutional side of the Spanish-Anglo-Canadian exchange to issues on the insertion of CanLit in the Spanish curriculum; from 'nation branding', translation, and circulation of Canadian authors in autonomous communities (such as Catalonia) to the official acknowledgement of some authors by the Spanish literary system - Margaret Atwood and Leonard Cohen were awarded the prestigious Prince of Asturias prize in

2008 and 2011, respectively.

 From the back cover: Books, television, records - media such as these provide a country with its entertainment, information, opinion and analysis - a major part of its culture. But the "import" of culture from more powerful countries has always meant disadvantages for Canada's "cultural industries" whose smaller

market dictates higher costs. As these industries suffer economically so does Canadian culture ... However, by both their buying habits and responses to polls, Canadians have shown that they support Canadian content. Despite this fact, an annual cultural deficit of \$750 million and an obvious threat to Canadian autonomy, responses from government have been fitful and sometimes even counter-productive. For both English and French Canada, Paul

Audley provides a wealth of information on the state of the cultural industries; newspapers, magazines, books,

recording, radio, television and film. Audley pays particular attention to problems of Canadian

content and control, and how government could formulate new policies to strengthen these vital industries.
